

## DATE OF THE RHEA HEARING

Lawyers Urge Commutation of Sentence on Purely Legal Grounds.

## PLENTY OF WATER FOR IRRIGATION

Several Nebraska Towns Actively in the Field for Location of the Additional State Normal School.

(From a Staff Correspondent.)

LINCOLN, June 17.—(Special.)—Governor Mickey has received a request from Attorney William Melness of Indiana asking that he set Friday of this week for a hearing of the Rhea case. The lawyer is sent here by relatives of Rhea at Mt. Vernon, Ind., to plead for mercy for the condemned murderer. Rhea's real name is Klein, and it has recently been discovered that he is also a grand-nephew of Emil Pretorius, editor of the St. Louis Westliche Post, as well as a member of the Dutch family of which the Pretorius, after whom the old Boer capital was named after, was a leading light.

The lawyers propose to appeal to the governor on purely legal points, basing them upon the dissenting opinion of Judge Sedgwick in the Rhea case, when his conviction in Dodge county was affirmed. This is made necessary because no further appeal can be made to the supreme court, too long a time having elapsed. They propose to show to the governor that the supreme court has recently approved an opinion of Commissioner Pound which affirms Judge Sedgwick's holding in his dissenting opinion. The point in question is whether the Nebraska statutes, being taken bodily from those of Ohio, should be governed in their interpretation by the interpretations of the courts of Ohio. The attorneys for Rhea contended there must have been a malicious purpose on Rhea's mind when he committed the crime to carry the death penalty. They insisted that their point had been decided by the Ohio court in such a way that all that could be given him is a life sentence. The court held that the Ohio statute did not apply, but since then it has affirmed an opinion of Commissioner Pound which overrules the basis of the ninth syllabus of the Rhea case. The case in point is *Sinclair* against *Goble*, 36d Northwestern.

## Big Sile of Alimony.

Bruno O. Kostka, a prominent druggist, was defendant in a divorce suit filed last week morning. His wife charged him with extreme cruelty. Kostka appeared in court, but made no defense. He gave his wife \$5,000 cash alimony and \$25 a month for the support of their one child until he is 18.

## Lincoln Man Faces Murder Charge.

"Frenchy" Leonard, a former Nebraska crook, is in jail at Little Rock, Ark., facing a charge of murder. He went by the name of Watters there and conducted a rooming house. While attempting to rob a drunken roamer the man made a squeal and was killed. The police claim to have a cinch on him. Leonard was once convicted of robbing a bank at Geneva, but got a new trial in the supreme court. While on the way back to Geneva to be tried again he got away from the officers and has never been captured.

## Stricken with Apoplexy.

While a woman and two children were out fishing last evening they came across a man lying, his face half hidden in the water of Salt creek, just south of Lincoln park. The sheriff's office was notified and the man removed to the hospital. He proved to be Andrew Rickner, a fisherman living at 1235 North Twenty-second street. The doctors said he had received an apoplectic stroke and that he will not recover. He has not regained consciousness.

## Dobson Says Water is Plenty.

State Engineer Dobson is back from a visit to western Nebraska. He says that the rivers and streams of the state have yet to attain the high water mark for the spring and summer, incident to the melting of the snow in the Rocky mountains. Measurements of the several streams divulge the fact that June, usually the high month, has been abnormally low and that July will be the heavy month. This insures an abundance of water in the irrigated districts at the very time it is most needed. June 1 the flow of the North Platte was 2,000 cubic feet per minute, June 15 it exceeded 7,000 feet and is still increasing. It is expected to reach the highest stage about July 10. Reports from the mountains are to the effect that the snow has just begun to melt and that it will be fully three weeks before it has become wet and snowy.

He states that during the period of floods and cloudbursts in other parts of the state the South Platte river was absolutely dry from its junction with the North Platte west to the state line, where it enters Colorado. This is accounted for by the

enormous demand for water for irrigation purposes in Colorado and Wyoming. It is not an unusual occurrence for the South Platte in Nebraska to be dry for months at a time in summer. Irrigation in Colorado is always attributed as the cause, but records kept for years before irrigation was tried in Colorado show that the stream ran dry every summer for at least a month.

## Innkeepers as Insurers.

Is an innkeeper the insurer of the safety of his guests? This is the question raised in a brief just filed in the supreme court in a case where Michael F. Clancy sues the proprietors of the Barker hotel at Omaha for injuries inflicted upon his 6-year-old son by a porter or bellboy. The evidence shows that on the evening of January 15, 1902, Lacey, the porter, was playing a harmonica in his room. The music attracted the little Clancy boy, who had been playing about the corridors. When the boy entered Lacey stopped playing, and in a spirit of sport picked up a revolver and said: "See here, young fellow, if you touch anything this is what you will get." The gun was accidentally discharged, the bullet striking the boy and injuring him severely.

The district court instructed a verdict for the defendants, but the plaintiff appealed. The defendants rely upon the claim that they are not liable because at the time of the accident Lacey was not performing any duty for them, for which he was employed. They insist that a porter or bellboy cannot be said to be in charge of the hotel or the guests in the sense in which the porter or conductor of a sleeping car is in charge, and that only ordinary care of his guests is all that is required of him.

Another claim of the plaintiff is that Lacey was sitting in his room waiting for a call to duty and that in presenting the pistol he was performing the duty of protecting the master's goods from the onslaught of the 6-year-old. The defendants insist that bellboys are not on duty while in their rooms and that it was the porter's own goods, not those of his master, he was protecting.

## Looking After Normal.

Senator Frank Dean of Holdrege was at the state house today making inquiries concerning the status of the contest for the location of the new normal school, so that Holdrege may get into it with as much vim as possible. He says that a meeting was held in that city a few evenings since at which preliminary organization was effected looking toward the location of a fight for the new school. Holdrege is now the location of one of the junior normals, said to be the one that has the largest attendance of any of the five junior schools in the state, upon which favorable showing for the popularity of normal school work friends of the city expect to lay great stress.

The aspirants for the normal school that are now actively pushing their claims are Alinsworth, Alliance, Aurora, Broken Bow, Central City, Hastings, Holdrege, Kearney, North Platte and Ord. Friends of each city profess the utmost confidence that their favorite will land the prize. From time to time on the rivalry will be more pronounced, and it will be necessary to advertise for bids for the location.

Two applications for suspensions of criminal sentences were presented to the supreme court today and taken under advisement. One of them is an application by Raymond Smith of Sheridan county for a stay of execution of sentence and a writ of habeas corpus directed against the sheriff of Sheridan county and the warden of the penitentiary requiring them to admit him to bail on his own recognizance. Smith is under sentence of one year in the penitentiary, imposed June 9 in Sheridan county, on conviction for burglary with intent to commit assault.

The other case is that of Soney Ford, convicted in Cherry county the 4th inst. and sentenced to seven years for assault with intent to kill. He asks for suspension of sentence pending hearing of his motion for a new trial.

## Thomas W. Moore, William Robert Moore, Edward B. Moore, Frank C. Richards and Henry P. Kauffman have filed articles of incorporation of the Moore Bros. company of Omaha, with an authorized capital of \$4,000, to conduct a livery stable and stock business.

## DISCUSS SUNDAY SCHOOL WORK

Every school in Cass County represented in the Convention.

PLATTSMOUTH, Neb., June 17.—(Special.)—The third annual convention of the Cass County Sunday School association was held in the Christian church in Louisville Monday and Tuesday. An illustrated address by Fred L. Evans of Council Bluffs was much enjoyed. Prof. Steidley, the new field secretary, conducted a round table discussion which was very helpful and suggestive. Miss Haines of St. Louis, who has recently been engaged by the state committee to conduct the primary work, spoke upon that subject in the evening. Mr. Evans gave a chalk talk on "The Efficient Sunday School," which was unique in its treatment and afforded many useful and practical suggestions. One of the pleasant features of the session was the address of welcome by G. W. Mayfield, and the response by Rev. Martin of Elmwood on behalf of the delegates. Each school in the county was represented and a large delegation was in attendance from this city. The spirit and enthusiasm of this convention was the best ever known in this county. The entertainment committee provided ample and generous accommodations for all.

## Damage Suit is Threatened.

STELLA, Neb., June 17.—(Special.)—Some time ago Mrs. Cal Vandever, living north of Stella, fell on a defective sidewalk in front of Lizzie Colglaser's millinery shop and fractured her arm. Now it seems two Auburn lawyers appeared before the village board at their last session and intimated that a \$2,500 damage suit would be filed in the near future unless satisfactory arrangements were made with the party injured. The board has the matter under investigation to report at its first meeting in July.

## Pitched Out of Bed.

NORFOLK, Neb., June 17.—(Special Telegram.)—Julius Lenzor, a farmer living near this city, has been arrested on complaint of an employee, Henry Arends, who states that early this morning Lenzor stabbed him in the arm with a pitchfork while he was still in bed, because he refused to get up at 4 o'clock.

## Falls from a Ladder.

HUMBOLDT, Neb., June 17.—(Special.)—Tom Fry, a well known farmer of this section, while engaged in painting his barn this morning fell from a ladder and sustained a badly crushed and broken ankle. The victim is quite well advanced in years and the probabilities are that the accident will cripple him permanently.

## Iowa Pastor is Killed.

HUMBOLDT, Neb., June 17.—(Special.)—The congregation of the Presbyterian church, which has been without a pastor for several months, has issued a call to Rev. Smith of Lennox, Ia., and it is expected that the latter will accept the place, assuming his duties at once.

## Injured in a Runaway.

NEBRASKA CITY, Neb., June 17.—(Special Telegram.)—August Grebhardt, one of the oldest settlers here, was seriously injured in a runaway today. His team took fright at a locomotive and threw him from the conveyance.

## TALKS ON TREE PLANTING

Good Attendance at Nebraska Park and Forestry Association.

## SUCCEED GROWING TREES IN SAND HILLS

Experiments Demonstrate that Pine, Spruce and Kindred Varieties Will Thrive in that Section.

YORK, Neb., June 17.—(Special.)—There was a good attendance at the Nebraska State Park and Forestry association convention, which was held here yesterday.

C. S. Harrison, president, presided over the meeting. The guests were the following officers: C. S. Harrison, president; L. D. Stilson, secretary; R. A. Emerson, vice president.

This meeting is the first summer meeting held by this association. The organization is only three or four years old. They have held two winter meetings. The prime movers and organizers are Rev. C. S. Harrison and L. D. Stilson of York. The birthplace of this association was really here at York and a great share of the expense of this organization has so far been paid by its organizers here.

The meeting was well attended. A number from other localities and other states were in attendance. After the opening remarks by Rev. C. S. Harrison was the first address by Samuel B. Green of St. Anthony Park, Minn., professor of horticulture of the State University of Minnesota. The address of Prof. Green was very able, interesting and instructive.

It dealt with the history of forestry organizations of European countries and in the United States. Statistics showed that already considerable interest is created in forestry and in a few years, if forests were not grown, material would be made to use as a substitute for wood. European countries of European countries discovered this and legislation was enacted compelling the setting out of trees.

## Profit in Raising Trees.

The next address was made by George Barbour, professor of zoology of the Nebraska State university. Prof. Barbour dealt with statistics showing the actual profits per acre in growing trees of different varieties. Prof. Barbour maintained that on one acre of land in Nebraska in twenty years trees of certain variety which he recommended would pay a handsome profit and advises owners of real estate to set out trees.

One of the most interesting addresses was made by Mr. M. Mast of Halsey, Neb., a member of the Government State Forestry board and manager of the State Forestry association station at Halsey. Mr. Mast dealt with statistics of government legislation in the interest of forestry. He gave the area and acres of land in the sand hills district of Nebraska in Blaine, Brown and Cherry counties. The station which he manages has been experimenting one year and they are thoroughly convinced that trees such as pine, spruce and others of this kind will grow in the sand hills of Nebraska. They have set out 60,000 trees, of which a large per cent are growing. They now have two and a half acres of red and white pine, and next spring will set out nearly 2,000,000 trees. The government will set out nearly 100,000,000 trees in this district.

After the addresses C. S. Harrison, president of the association, called attention to the variety of species and other outdoor flowers which were on display and used in decoration. The exhibit was pronounced the largest and best ever displayed west of Chicago.

President Harrison is the largest grower of species in the United States and now has 400 different varieties and thousands of other varieties of outdoor plants.

After the meeting a large number were driven out to the flower beds of C. S. Harrison and they were pronounced the most wonderful sight they have ever seen, and those from abroad were surprised to learn that here at York and in York county were the finest and best display.

## LINCOLN GROCERS AT PICNIC

About Thirteen Hundred People Attended Outing Held at Beatrice.

BEATRICE, Neb., June 17.—(Special Telegram.)—The members of the Lincoln Retail Grocers' association and their families held their annual picnic on the chauteau grounds today. A special train of thirteen coaches, carrying the picnic party, arrived in the city at 11:30 over the Burlington road. From the depot the visitors were escorted to the grounds, where dinner was served. The afternoon was devoted to outdoor sports, the principal feature of which was a base ball game between the Young Men's Christian association team of Lincoln and the Beatrice nine, the former winning by a score of 24 to 4. The visitors returned home at 6:30 this evening apparently well pleased with the outing. The Second Regiment band furnished the music. It is estimated that the party numbered about 1,200.

## New Grass Makes Fine Pastures.

YORK, Neb., June 17.—(Special.)—John Bremer, one of the largest alfalfa growers and commonly known as Alfalfa John Bremer, brought to the city a sample growth of meadow fescue grass. The sample, which is the average height of a forty-acre field, is about thirty inches. Grass seed was sown last fall. Cattle had run on part of the pasture and had packed the ground and ate the grass close to the surface, yet it showed up. James Barr has sixty acres and Charles Koelkeley has fifty acres, and many others have smaller fields. These farmers believe they have pastures that will keep a larger number and more quickly mature cattle than the equal of acres in Iowa, Missouri and Illinois. Farmers who have meadow fescue will not sell their farms for 100 per acre, and are ready to prove that no land wherever located can raise as large crops of grass and better hay and pasture.

## Dairying Pays Well.

ANSLEY, Neb., June 17.—(Special.)—After a year's trial the hand cream separator and the cow have brought to light a great and growing new industry for this part of Nebraska. At Mason over \$4,000 was paid out to the farmers for cream for the month of May, and at Ansley a like amount was paid out for cream. The cream separator runs on the local passenger an extra freight car three times a week to haul the cream in. At Ansley and Mason the B. & M. Railway company has erected high platforms from which the cream cans are loaded in the cars. The cream platform at Ansley will take care of 300 cans at one time.

## Sappy County in Good Condition.

PAPILLION, Neb., June 17.—(Special.)—After a careful investigation the crops of Sappy county are found to be in better condition than was reported. Corn upon the lowlands, of course, has been ruined, but that on the high lands will make an immense crop. The low lands will be planted in millet in order to realize something from the land. Fall wheat looked better. Cattle, sheep and barley look fine. Notwithstanding the great amount of rain, chances are good for a big yield of small grain of all kinds. Early

fruits are all short. Cherries nearly a failure; also early apples, plums, strawberries, etc., which were hard hit by the hail.

## Neighbors Honor a Pioneer.

HUMBOLDT, Neb., June 17.—(Special.)—Dr. J. G. Cox, one of the pioneer citizens of the city, was given a surprise last evening by about twenty of his neighbors on the occasion of his eightieth birthday anniversary. Among the guests were the two daughters of Mr. Cox, Miss Sallie Cox, a teacher in the city schools of Salt Lake City, Utah, and Mrs. Hitt of Shenandoah, Ia., who, with her husband and children, arrived a few days ago. The remaining son, Sam D. Cox of Scotts Bluff, Neb., at one time publisher of the Daily Call in Lincoln, was unable to be present. Dr. Cox is a native of Kentucky and received his education at Hanover college in Indiana. His professional studies were begun when he was twenty years old and in 1853 he commenced the practice of the medical profession at Jacksonville, Ill. In 1872 he came to Humboldt and was the first physician of the city, but of late years has retired from active practice. Dr. Cox served under General Taylor in the Mexican war and participated in the battle of Buena Vista. In the civil war he served as assistant surgeon of the 108th Illinois volunteer infantry.

## Ready to Commence on Depot.

FREMONT, Neb., June 17.—(Special.)—The foundation is being put in for the new Union depot and a large amount of material is on hand. The Union Pacific is putting in a water filtering station directly behind the present depot. The Northwestern is preparing to enlarge and otherwise improve its yards. A party of officials, including Superintendent Hughes, were in town yesterday and spent considerable time looking over the yards and tracks of both roads. There are no new developments here in regard to the proposed new line of the B. & M. Negotiations are said to be pending for lots for terminal facilities, but no news has been given out to the public.

## Disease Worries Cattlemen.

TABLE ROCK, Neb., June 17.—(Special.)—A. A. Widdifield, a farmer living a little over a mile north of town, has lost two cattle and a third is sick with a mysterious ailment, on which there is a diversity of opinion. Some fear a contagious disease, others pronounce it hydrophobia. A month or so ago there was some excitement in regard to mad dogs, and several dogs were bitten at the time by the supposed rabid animal. A little later Widdifield's dog acted in a strange manner by chasing his cattle around and he was killed. The state veterinarian has been sent for to thoroughly investigate the matter.

## Party Goes to Oregon.

FREMONT, Neb., June 17.—(Special.)—Ten people left here last evening for Oregon, where they intend taking up government timber land. The party was gotten up by a company which makes it a business of locating persons on government timber land, charging \$300 per quarter section. The Fremont men expect to get their land at \$2.50 cash per acre besides the usual entry fee.

## Starts Big Dairy Farm.

ANSLEY, Neb., June 17.—(Special.)—John State of Leigh, Neb., purchased the Hanna stock farm and stock, paying \$15,000 for the same. This ranch consisted of 1,000 acres of deeded land and 400 acres of leased school land. Mr. State will turn the property into a dairy farm and will commence by milking fifty cows. Alfalfa and dairy farming is paying handsome profits in this vicinity.

## Call Judicial Convention.

BEATRICE, Neb., June 17.—(Special Telegram.)—At the request of the republican central committee of the First judicial district here today it was decided to hold the district convention in Beatrice August 17.

## Chamberlain's Stomach and Liver Tablets Better Than Pills.

The question has been asked, in what way are Chamberlain's Stomach and Liver Tablets superior to pills? Our answer is—They are easier and more pleasant to take, more gentle and mild in their action and more reliable, as they can always be depended upon to cleanse the system and invigorate the stomach and leave the bowels in a natural condition, while pills are more harsh in effect and their use is often followed by constipation.

## FORECAST OF THE WEATHER

Fair today in Nebraska, with Showers in West Tomorrow; Fair in Iowa.

## WASHINGTON, June 17.—Forecast:

For Nebraska—Fair Thursday, Showers and cooler at night or Friday in west portion, fair in east portion.

For Iowa—Fair Thursday, warmer in central and eastern portions; Friday fair, cooler in north portion; variable winds.

For Kansas—Generally fair Thursday and Friday.

For Missouri—Fair Thursday and Friday.

For Colorado—Fair Thursday, warmer in southeast portion; Friday fair in west, probably showers and cooler in east.

For Wyoming—Fair Thursday; Friday cloudy, probable showers and cooler in east portion.

For Montana—Partly cloudy and cooler Thursday, probably showers; Friday fair.

For South Dakota—Showers and cooler Thursday; Friday fair.

## Local Record.

OFFICE OF THE WEATHER BUREAU, OMAHA, June 17.—Official record of temperature and precipitation compared with the corresponding day of the last three years:

	1902	1901	1900
Maximum temperature	82	80	83
Minimum temperature	58	57	60

## DEWEYS ARE COMMITTED

Bound Over to Stand Trial on Charge of Murdering Berry.

## BAIL IS REFUSED TO THE PRISONERS

Witnesses Declare Accused Alone Shot, Only One Dead Man Being Armed and He Not Even Drawing His Pistol.

ST. FRANCIS, Kan., June 17.—Chauncey Dewey and his companions were bound over to trial without bail for the murder of the Berry family.

ST. FRANCIS, Kan., June 17.—The same curious crowds were on hand this morning when the second day of the preliminary hearing of Chauncey Dewey, W. J. McBride and Clyde Wilson, charged with the Berry murders began. The same precautions were taken as on yesterday, and no one entered the court house who was not searched. The militia guards were in the same place as yesterday, and although everything has been quiet the authorities are taking every precaution to avoid any possible trouble.

The cowboys of the Dewey ranch, Ed Tucker and Al Winslow, who were sent to jail yesterday for refusing to answer questions are still in prison. Thus far no witnesses have been able to show that any beyond the prisoners were in the party and should the Dewey cowboys still persist in their refusal to testify they may yet escape the arrests with which they have been threatened until some new evidence develops.

The first witness called today was E. M. Phillips, a member of the corner jury which examined the bodies of the Berrys. He said that of the dead, Birch was the only one armed, and when the body was examined his gun was found in his holster. On the bodies of Alvin and Daniel Berry no weapons were found.

M. P. Week, who visited the Berry home immediately after the shooting, was next called. Attorney General Coleman questioned him. He confirmed the former witness that Birch Berry's weapon had not been taken from his holster, and that no weapons had been found on the others. His cross-examination was brief and nothing new was developed.

County Attorney T. D. Hotchkiss, who was next called, told of a visit to the Berry home, and corroborated the testimony of the other witnesses as to the finding of no weapons on the dead bodies. He was cross-examined at length, but nothing new was developed. The entire morning developed little new testimony and passed very slowly.

## The Ideal picnic place, Lake Manawa; 500 picnickers there yesterday.

## OUTPUT OF PACKING HOUSES

South Omaha Has Lead of 148,000 Over Kansas City for Second Place.

## CINCINNATI, O., June 17.—(Special Telegram.)—Price Current says: By the assay

gate of hogs there has not been much change the last week. Total western packing was 415,000 head, compared with 420,000 the preceding week and 460,000 last year. From March 1 the total is 5,855,000 head, against 5,625,000 last year. Prominent places compare as follows:

	1902	1901
Chicago	1,775,000	2,005,000
Kansas City	570,000	590,000
SOUTH OMAHA	715,000	660,000
St. Louis	405,000	325,000
St. Joseph	475,000	425,000
Indianapolis	285,000	294,000
Milwaukee	140,000	128,000
Cincinnati	140,000	120,000
Columbus	110,000	116,000
Cedar Rapids	113,000	118,000
Sioux City	142,000	268,000
St. Paul	230,000	180,000

## INCENDIARIES DESTROY BARN

Some Sensational Arrests Are Anticipated as a Result of the Blaze.

FREMONT, Neb., June 17.—(Special Telegram.)—A large barn belonging to John O'Hara, eleven miles north of North Bend, was discovered on fire early yesterday morning and entirely destroyed with the contents, including seven head of horses and farming implements. The loss is \$2,500, with only \$75 insurance. It was of incendiary origin and yesterday O'Hara succeeded in getting a clue. A pair of bloodhounds from Arlington were sent for and arrived there early this morning. They took a trail to the house of the party to whom the clues pointed. Officers are at work upon the case and a sensational arrest is likely to be made very soon.

## Kunstler Takes Asot Hunt Cup.

LONDON, June 17.—At Ascot today the Royal Hunt cup was won by Kunstler. Imperious was second and Handicapper third. Kunstler started at 53 to 1 against Imperious, a 6 and Handicapper 20 to 1. William C. Whitney's Pallantree and J. B. Keeney's Kearsarge were among the starters.

## Boating and fishing at Courtland Beach unexcelled.

## Two Are One

In marriage only when there is equality of health as well as affection. Affection may be the basis of unity in marriage, but the superstructure depends largely on the womanly health. When the wife is tormented with headache, distressed by headache, and racked by nervousness, she has no ambition for exercise or pleasure.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well. It cures headache, backache, and other woman
