FIRE, WATER, SMOKE

Only smoke in the Cloak room, the marks of smoke can hardly be discovered by the most expert shopper—all the same the insurance company made good our loss, and we are giving our customers the benefit.

Women's Pongee Coats, usually sold at \$8.50, at 4.63; Women's Black Silk Blouses, elegant style, worth \$8.50, at 5.95; Women's White Oxford Cloth Coats will wash like muslin, very nobby, worth \$7.50, at 4.63; Women's elegant Paris Costumes, Cream Voile, accordion pleating skirt and coat, worth \$125.00, at 55.00; Women's Black Broadcloth Suit, the very Acme of the tailor's art, was \$75.00, now 59.00; Wash Goods, almost perfect—100 pieces white wash goods for women's and children's wear, every inch worth 10c yard 3c; Colored Challies, just the kind you are paying 15c for—50 pieces of them, at 4c; Fancy lawns, pretty designs, colors stood the fire and water, are almost perfect, prices 10c to 15c, all at 4c; Russia Crash Toweling, one case not damaged, sell at 10c—fire sale prices 5c; The fire sale in Dry Goods will soon come to an end, get in and make your purchase while we are sacrificing our profits. Our dainty children's dresses are the most attractive ever shown. COME AND GET A CHOICE WHILE THE ASSORTMENT IS COMPLETE—ages 6 months and up.

The Grand Gift Carnival

The fine Alaska seal coat valued at \$350, as well as the Alaska beaver coat valued at \$150. The objects of our Grand Gift Carnival were utterly destroyed in the fire.

This will not in any way interrupt the gift-making which we had planned. As soon as the drawing takes place the lucky ladies will leave their gifts with us and coats will be made to their order. The best material will be used in the make-up of the coats—the qualities all over being equal—very likely better than used in the coats which were destroyed. Ladies! you have still two weeks to secure a chance of winning one of these valuable garments, you know the conditions—buy a wool suit in our Cloak Department, second floor—we have them at all prices—and get a coupon.

FIRE AND POLICE MATTERS

Officer Al Bebout Must Undergo Another Physical Examination.

BOARD WILL NOT TAKE HIS RESIGNATION

Member Thomas Believes Bebout is Laying Plans to Sue the City and Wants to Act Accordingly.

The Board of Fire and Police Commissioners at its meeting last night ordered Patrolman Bebout to undergo a physical examination at the police station Saturday morning by City Physician Ralph, Assistant City Physician Arnold and Bebout's attending physician, and took no action on his resignation; fired L. Osborn, patrolman, thirty days' pay for sitting down in a grocery store for three minutes while on duty; granted permission to Henry Schaefer and Hans Peterson, saloon keepers at Seventeenth and St. Mary's avenue and Fifteenth and Webster streets, permission to reopen when they removed the wine rooms from their places of business. These two saloons were closed last night because they contained wine rooms. The other business transacted was merely routine.

Former Sergeant Bebout, who was removed by the board some time ago, tendered his resignation to the board and in his letter set forth that on December 27, 1902, while doing duty as a patrolman he slipped on the walk and received injuries which caused him now to suffer with inflammation of the sciatic nerve and contusion of the left hip and muscles of the thigh, which incapacitated him for further service as a patrolman. These facts he said were filed with the board some time ago in a certificate from his physician. On the strength of this certificate Mr. Bebout wrote that he had been granted ten days' absence from February 1, June 1 he said he was ordered to report for duty June 8, and upon request of Chief Donahue he was excused until June 8. On that day he reported to Captain Mostyn and was ordered to take a test. He was unable physically to do this and inasmuch as he had never disobeyed an order of a superior on the force during his fifteen years' service, and upon the advice of his physician, he tendered his resignation.

City Physician Ralph has notified the board that Bebout is not suffering from any injuries so far as he could determine. The commissioner said he thought Bebout is laying his plans for a damage suit against the city.

Sergeant Rentrow brought a charge against Patrolman L. Osborn for being off his best when he should have been on. Greecer Davidson, in whose store the sergeant found Osborn, testified, and said Osborn, that he had been in the store three minutes to see about a coil which had broken out of Davidson's lot had been running at large. While they were talking Osborn sat down on a cracker box and there Rentrow caught him. The board thought the offense sufficiently reprehensible to fine Osborn thirty days' pay and ordered him to report to the chief for instructions. The communication from the council stating about the special deputies who did duty during the strike should be paid out of the police fund was read and placed on file. The board does not agree with the council. While the board was in session Sergeant Gibbons came in and asked advice about closing the saloons at Seventeenth and St. Mary's avenue and at Fifteenth and Webster streets for being run in connection with wine rooms. The board ordered the officer to close the saloons. The members decided to allow the saloons to open when the wine rooms were taken out. Several bills were ordered paid and several officers were granted leaves of absence. All members were present except Commissioner McHugh.

TREATED SON WITH A CLUB

Dr. Impey Finds It Necessary to Apply Physical Force in Allopathic Dozes.

As a result of a fight between Dr. Charles Impey, 222 N. 22nd, and his son, Earl Impey, of the same address, the latter was under the care of the police surgeon for some time last night. His injuries consisted of a bad cut on the head, a fractured forearm and several minor bruises. To do the operation the doctor used a club. After his wounds were dressed Young Impey was detained at the police station, his father later notifying the police that he would furnish the bond necessary to secure his release. Young Impey, it was reported to the police, went home in an intoxicated condition, as he had frequently done, and started a row with his father. The latter ended the row with a club and notified the police. Officer Heslan and Detective Potilla went to the house and arrested Earl Impey, but at that time the father was not at home. It was told the police that on several occasions the boy had threatened to kill his father.

LOCAL BREVITIES.

For the high school commencement at the Orpheum Friday night no flowers are to be sent to the theater. A basket picnic will be held at Courtland beach next Saturday by the Sunday school of St. James' church. The party will leave for the Exaton hotel corner at 10 p. m. Lester Rodney, who is addicted to dope and sees things, ran wild yesterday afternoon and imagined someone was going to cut his throat. To prevent this he chased a man and a night lodge in the station, with an open knife in his hand, until the police gathered him in. Frank Womersley, who works on Mike Simon's grading camp in South Omaha, was pushed off a Council Bluffs motor car at Ninth and Douglas streets last evening about 10 o'clock. It required a few stitches by the police surgeon to repair the injury done to his scalp and a night lodge in the station to work off the effects of some Council Bluffs whisky.

AFFAIRS AT SOUTH OMAHA

Little Interest Manifest Up to Date in High School Bond Election.

VOTERS URGED TO LOOK INTO PROPOSAL

Superintendent McLean Asserts There is Imperative Necessity of Providing More Room for the City Schools.

Those interested in educational work in South Omaha seem to think too little interest is being displayed in the high school bond proposition. Between now and the date of election steps will be taken to lay before the people in an emphatic manner the necessity for better school accommodations, and especially the need of a new high school building. For two years the school district has owned the site which occupies half a block fronting on Twenty-third street and extending from J on the north to K street on the south. As the district is not bonded the expenditure of \$100,000 for additional school room is not considered extravagant. The proposition is to issue bonds in a sum not to exceed \$100,000, to run for twenty years and draw interest at a rate not to exceed 5 per cent annually. These bonds are to be known as high school bonds and will be of the denomination of \$1,000 each. On account of the long time to run it is expected that there will be no difficulty in securing a good-sized premium. Should the proposition carry the bonds will bear date of July 1, 1905 and to be levied annually for the payment of the interest and the principal as the bonds mature. Superintendent McLean has compiled data showing the need of additional school room and especially school near or better provision for the high school classes. Every year the number of pupils enrolled increases and unless something is done before long the district will not be able to care for them. By the building of a high school, which should include a preparatory school, the number of pupils at Central school would be decreased and thus furnish room for additional students in the lower grades, and at the same time do away with the renting of outside rooms in the business portion of the city.

Hospital Association Musicals.

Next Tuesday afternoon a musicale will be given at the home of Mrs. George H. Brewer, Twenty-fifth and H streets, for the benefit of the South Omaha Hospital Association. It is the intention of the association to present a program that will be appreciated by those fond of music. As the object is a worthy one, it is expected the Brewer residence will be crowded on this occasion.

Condemning Buildings.

For a number of years the city officials have endeavored to have the old frame building on Twenty-fourth street, just north of K, condemned. Resolutions enough to fill a good-sized basket have been adopted by the council in connection with the razing of this building, but still the old shack remains. The building is owned by Horace Franklett, a resident of England. Every time the building is condemned Plunkett's agent comes to the front with a statement that extensive improvements are to be made on the Plunkett property soon. Last year it was an opera house that was to be built. This year it is a three-story brick building. All that the agent wants is a little more time and the council naturally grants the request. City Engineer Seal asserts that the Plunkett building under consideration is

unsafe and should be torn down. Mr. Windsor, the agent, thinks the building is all right and it is now up to the council to make up its mind to decide between the statement of the engineer and that of the agent.

Amphion Club Concerts.

Officers and members of the Amphion club are considering the advisability of giving a series of three concerts in the fall for the purpose of showing what South Omaha musicians can do. At the present time the club is made up of twenty members, all excellent musicians. The proposed concerts are not to be given as a money-making venture, but to bring promoting musicians to the front. Season tickets for the three concerts are offered for \$1. Should a sufficient number of tickets be pledged to raise a fund of \$400 the club will be given. Not long ago the club gave an excellent recital at the First Baptist church, admission being gained by invitation, as no admission fee was exacted. The officers of the club are E. P. Baker, president; F. C. McMillan, secretary, and Genevieve Tilty, treasurer.

Dirty Arways.

Time and again has the Attention of the city officials been called to the condition of arways. On the business streets the majority of the arways are filled with waste paper and other rubbish. When the Fire and Police board went into power it was expected that an inspection would be ordered and that property owners would be compelled to keep the arways and backstreets free from rubbish. This has not been done and insurance men say this is one of the reasons for the continued high rate of insurance charged in South Omaha.

Only Two Complaints.

Only two complaints were filed with the Board of Review yesterday and these were both for small amounts. A number of taxpayers called and looked up their 1903 valuation and left without filing complaints. Some of the corporations are having comparisons with the 1902 assessment made and it is expected that complaints from these sources will be presented later. The board will hold daily sessions until June 25.

Magie City Goals.

There was a big sale of horses at the stock yard yesterday. Mike O'Hern has returned to South Omaha after a trip to Seattle. William Higgins of Schuyler was a visitor at the stock yard yesterday. Miss Anna Fowler has gone to Excelsior Springs, Mo., to spend a few weeks. J. J. Wall and Miss Maggie McQuirk were married at St. Agnes' church yesterday. A daughter has been born to Mr. and Mrs. Ralph Sears, Twenty-sixth and M streets. A meeting of the Southeast Improvement

PROSPECT HILL IMPROVERS

Busy Time with Committee Reports on Sidewalks and Street Grades.

The Prospect Hill Improvement club met at its headquarters, Thirty-fourth and Decatur streets, last night with a good attendance. This was the 13th meeting of the club. The committee on streets and alleys reported that it had addressed a communication to the Board of Public Works relative to the wash-out condition of the streets, particularly Thirty-second street, between Seward and Hamilton, and that it had received assurances that the necessary repairs would be made as soon as possible. The sidewalk committee reported relative to the bad condition of many of the board sidewalks, also the bad condition of the bridge at Ohio and Twenty-seventh streets, and that the Board of Public Works will speedily do what it can to remedy the troubles.

The committee on police reported that a policeman had been assigned to the district by order of the mayor and police board and that he is now on duty in the district. The sidewalk on the north side of Hamilton from Thirty-second to Thirty-sixth street was reported to be in need of immediate repairs. The necessity of a permanent sidewalk on the north side of Hamilton to Thirty-third street and the same on Parker street was shown to be imperative, as was the sidewalk from Thirty-second to Thirty-third on Seward. The information was given by the sidewalk committee that a permanent sidewalk had been ordered built by the city authorities on the south side of Hamilton from Thirty-fourth to Thirty-sixth street. Sufficient money had been raised by the committee to pay for the appraisement for opening Thirtieth street from Cummins to Hamilton, and part of the money for the appraisement from Hamilton to Lake on the same street.

The proposition for holding a picnic under the auspices of the club at Bemis park on July 4 was abandoned because of the expense. It was decided to later in the summer give a lawn social or two on some of the private lawns of Prospect Hill, which will answer the purpose better in getting the people of the district together socially.

The proposition of opening Decatur street from Thirty-first to Thirty-third street was discussed and the matter was finally left with the interested property owners along that street, to agree upon the grade and other details before the petition was formally submitted to the council.

Mr. Daly stated that if any street grading was to be done it must be done between now and fall, while there is a liberal supply of money in the street grade fund. He said further that he hoped to see the time when Thirtieth street would be paved from Farram to Bristol street.

Directors Are Not Liable.

CHICAGO, June 17—Judge Kohlsaat, in an opinion delivered today in the United States district court, decided that the directors of the defunct National Bank of Illinois cannot be held liable by creditors for the balance of money due from the bank.

Ayer's Sarsaparilla

If you feel run down, are easily tired, if your nerves are weak and your blood is thin, then begin to take the good old standard family medicine—Ayer's Sarsaparilla. If constipated, use Ayer's Pills. Two grand family medicines. Sold for 60 years.

TABLE AND KITCHEN

Menu. BREAKFAST. Fruit. Cream. Cereal. Boiled Salt Mackerel, Green Gooseberry Sauce. Hashed Potatoes. Coffee. Muffins. LUNCH. Cucumber Salad. Shad Roe. Brown Raisin Bread, Cocoa. DINNER. Asparagus Soup. Cold Mutton, Tomato Farce. Potato Croquettes. Lettuce. Strawberry Dumplings. Coffee. Recipes.

Iced Plum Pudding—Make a rich chocolate ice cream using eggs as in a plain boiled custard; have a scant cup and a half of mixed fruit—seeded raisins and currants, steamed until they are plump, citron sliced thin, candied cherries cut in half and candied apples cut in dice. Moisten them with sherry and let stand until soft. Drain and mix with the frozen cream. Turn the draher a few minutes longer to thoroughly mix the fruit. When frozen very hard pack into a mould and bury in ice and salt and let stand several hours. Turn out and serve with sauce made as follows: Rub the yellow yolk of one orange and one lemon with two or three lumps of sugar; place in a bowl and add the strained juice of the orange and lemon, add six tablespoonfuls of sugar syrup and four each of sherry and brandy. Turn into a freezer and work until half frozen and pile around the pudding and serve. The dish must be thoroughly chilled before the pudding is turned out.

Nut Iced Pudding—Blanch about four dozen English walnuts or if you prefer, mixed nuts. Add a few blanched sweet almonds to half of them and pound to a

paste. Put into a saucepan with one and one-half pints of hot cream vanilla sauce. Stir over the fire until thick then strain into a basin. When cool pour a little into a fancy mould, sprinkle some of the reserved nuts cut in halves over this; then pour in more cream and continue in this way until the mould is full. Cover first with a piece of paraffin paper then the cover and bind the intersection with a strip of buttered muslin. Pack in ice and salt and let remain for at least an hour.

Alexandria Pudding—Place a pint of milk in a double boiler and when scalded pour it into the yolks of four eggs beaten with four tablespoonfuls of sugar. Stir until mixed then return to double boiler and stir and cook until thick; turn into a basin, set on cracked ice. When cold mix in four ounces of ratafia or almond cakes, powdered fine and rubbed through a sieve. Flavor with a few drops of bitter almonds; pack in cracked ice and freeze until the mixture has been reduced to the freezing point. Spread a layer of this iced mixture in the bottom of a mould and on top arrange some fine ripe strawberries dipped in a soft pound of powdered sugar. Then put in another layer of the frozen mixture, more berries and continue in this manner until mould is full, then pack again in ice and salt and let remain for a couple of hours, turn out and serve.

Lalla Rookh—Whip a quart of double cream until very light. Beat the yolks of eight eggs with six or eight tablespoonfuls of powdered sugar. Cook in a double boiler just long enough to take the raw taste from the eggs; remove from the fire and add half a cup of Jamaica rum. Put into a freezer and turn until nearly firm and stiff, then add a cup of maraschino cherries cut in half and about a dozen marrons glace cut into dice. Freeze about as hard as a mousser. This should be done half an hour before serving.

The ideal picnic resort—Courtland Beach. Make a note of this.
