today made the following statement:

As the extent of the flood calamity becomes more correctly known it is found the reports heretofore given out by the relief committee of the city have fallen considerably below the actual conditions. This is especially true as to losses and damages on dwelling houses, which are not far from 65 per cent to 75 per cent of the total value in the flooded districts, while the losses on household effects are probably nearly 90 per cent. The State department is considering the controversy raised by the seigure by the government of Honduras of the railroad from Puerto Cortez to Lapimienta, which was hazed to an American syndicate in 1897 for twenty-five years. Senator Depew of New York, Colonel John Jacob Astor and other prominent people are said to be largely interested in the syndicate. The controversy grows out of a large issue o bonds issued many years ago to build the road. These bonds eventually found their way into the hands of British and Ameri can citizens, but their claims were not pressed until about a year ago, when the British in Honduras filed a protest against the lease. Action upon the protest was postponed until May 27, when the govern ment seized the road. The State department has no information as to why the road was confiscated, but the reports of the American syndicate intimate that it is to protect the interests of the government refuses to make a further attempt to move and that the interests of the syndicate are not jeopardized. Both the American bond holders and the representatives of the syndicate have presented their cases to the department. Whether the bondhold ers are seeking to have the department enforce their claim is not known, but it is presumed that such is their purpose, as they contend the bonds are a lien on the road. The other side contends that the amount owing on account of the bonds is

Crowded with People Awaiting the Verdict. SHERIDAN, Wyo., June 18.-(Special

Telegram.)-The attorneys for Mrs. Agatha Stull-Barton and for the state concluded the arguments this evening and the case went to the jury at 5 o'clock. The state attempted to show that the

murder was premeditated, several witnesses testifying that Mrs. Barton had made threats upon the life of Barton and that several months before the shooting she purchased a revolver and said it was for the purpose of killing Barton. The defense pleaded temporary insanity. The testimony of physicians and experts was to the effect that while suffering from severe illness and laboring under domestic difficulties, as she did, the defandant would be apt, and no doubt was, temporarily insane at the time the killing occurred.

The case has attracted widespread attention throughout northern Wyoming and western Nebraska, where the Bartons and Stulls are well known. The court room was crowded during the trial and tonight the streets in the vicinity of the courthouse are filled with people who are anxiously waiting for a verdict.
