Corn is Again Center of Interest on Board of Trade.

PRICES STILL SHOW DESIRE TO SOAR

Oats and Wheat Dominated by Other Pits Also Go Up, While Provi-

sions, After Fair Sales, Close Higher.

CHICAGO, June 18.—The corn pit was again the center of interest on the Board of Trade today and prices showed good advances, July closing 1/2 higher and September 4/2/16 higher. September wheat was up 1/2 and oats a shade better, while provisions were unchanged to 7/4/2/10 higher.

Trading in wheat was fairly active and the merital was stone the entire session.

higher.

Trading in wheat was fairly active and the market was strong the entire session. Opening prices were a shade higher, July at 764c to 7646764c and September a shade lower to a shade higher at 7446744c. A rather easy feeling prevailed shortly after the opening, due to free selling by commission houses, the favorable weather being the chief factor. Under this influence July sold off to 764c and September to 74c, but the weakness was short-lived, the strength in corn soon bringing about a raily. Bullish crop reports from the southwest and northwest, as well as bad reports from Prance, aided the upturn and the market became strong, July advancing to 774c and september to 754c. Liquidation was quite general the last hour and much of the advance was lost. July closing at 764c, a spain of 3614c. September was up 5c at 744678c. Clearances of wheat and flour were equal to 174.00 bushels. Against 384.00 bushels a year ago. Minneapolis and Duluth reported receipts of 28 cars, none contract, made total receipts of the three points of 26t cars, against 206 cars last week and 274 a year ago.

The price of corn continued to soar and

264 cars, against 165 cars last week and 274 a year ago.

The price of corn continued to soar and advances of over a cent were made in both the July and September deliveries, though most of the gain was lost before the end of the session. The volume of business was exceedingly large and although there was heavy liquidation going on the greater portion of the time the offerings were quickly absorbed, and not until within the last hour did prices show any weakening. quickly absorbed, and not until within the last hour did prices show any weakening. Sendiment alone was responsible for the buil demonstration, as the weather conditions were most favorable, with prospects of a continuation of the same. Country offerings were small and cash demand good. After selling between 50½c and 50½c, after closed with a gain of %6%c at 50%c, after ranging between 49½c and 50%c. Local recups were 485 cars, with 29 of contract grade.

The excitement in corn overshadowed all

The excitement in corn overshadowed all other features in oats and caused a strong market throughout the day. Trading was active and general, with shorts covering freely on the upturn. The market weakened late in the day on liquidation brought out on the realizing on corn, but July closed 1400c higher, after selling between 10%c and 400c. September was a shade trucher at 114443336c, after ranging between 23%c and 34%c. Local receipts were 170 cars.

There was little disposition to trade one There was little disposition to trade of way or the other in provisions and prices showed no fluctuations of consequence. The early market was easier on selling of lard by brokers but prices firmed up later on the strength in grains. September pork closed 74600c higher at \$18.25, September lard was unchanged at \$8.37% and ribs up closed 75510.
lard was unchanged at \$8.97% and russ up

Stock exchange expanded in some sections. Consols were firm and home rulis were in fair demand. Americans opened irregular, but the lowering of the bank rate stimulated an improvement and stocks were mostly above parity. Atchison, Southern Pacific and Union Pacific were the features. The market closed unrettled. Kaffirs were cheerful. The weekly statement of the Bank of England shows the following changes: Total reserve, increase, £1.175.60; circulation, decrease, £163.00; buillon, increase, £87.000; other deposits, increase, £1.85.000; public deposits, increase, £1.85.000; public deposits, increase, £1.85.000; government securities, increase, £1.95.000; government securities, increase, £1.95.000; government securities, increase, £1.85.14, as compared with 53.06 last week. The rate of discount of the Bank of England strength of banks of reserve being regarded as fully justifying the reduction.

NEW YORK, June 1.—COTTON—Openedicary at a dacline of 7628 points under disappointing Liverpool cables, heavier receipts, favorable weather over the south and less bullish private crop advices, with both local and foreign operators selling more or less freely. The new crop months were exain the weakest, however, and after the initial rush of selling had exnausted itself the summer months showed some strength under bull support and forecasts for less favorable climatic conditions during the next twenty-four hours. July, which had opened at 12,19c, sold up to 12,24c, and August reached 11,88c under these influences, while the new crop months also showed sympathetic recoveries. Sentiment. which had opened at 12.10c, sold up to 12.24c and August reached 11.85c under these influences, while the new crop months also showed sympathetic recoveries. Sentiment, however, seemed more bearish than at any time of late and when the estimates for tomorrow's receipts at New Orleans were received showing a full movement to be expected, the late positions again sold off sharply, while the other crop displayed considerable resistance, but nevertheless worked lower. Speculation, except right at the opening, was not particularly active and the decline was slow and gradual, being interspersed with occasional but slight reactions right up to the close, which was within 226 points of the lowest for the session, the market being steadled in the liast few minutes by covering, though it still showed a net loss of 11220 points. Total sales futures were estimated at 250,000 bales. Port receipts today turned out about 3,608 bales, axalnst 1,866 last year and from 1,800 to 2,100 bales are expected at New Orleans tomorrow, against 518 bales last year.

Dry Goods Market. NEW YORK, June 18.—DRY GOODS—Considerable apathy has been evident in the conduct of buyers, and the market has been characterized by cautious buying. Increased independence is noted on the part of the sellers, who are determined to secure the full market price for goods which they contend have advanced by no means as far as the raw material.

CATTLE—There was a very light supply of cattle on sale here today, as about as cars were billed through to the north and were not offered for sale. The demand on the part of local packers was in good shape and owing to the small receipts an active and stronger market was experienced. The beef steer market could safely be quoted saide higher than yesterday on all desirable grades. Packers evidently had The beef steer market could safely be quoted 5610c higher than yesterday on all desirable grades. Packers evidently had to have some cattle and salesmen made them pay good prices for what they got. The market was rather uneven owing to the rapid fluctuations of the last few days, so that some sales looked considerably better than others. The bulk of the fair to good cattle sold from \$4.50 to \$4.75, and the choicer grades sold largely from \$4.75 to \$5.00. The common and part fat stuff sold largely from \$4.45 down.

The cow market was strong and 5610c higher in spots. The prices paid were more uneven than those ruling on steers and for that reason there was considerable difference of opinion regarding the market. Common to medium cornfed cows and grass cows were the hardest to dispose of and a good many salesmen who had that class of stuff could not see much if any improvement in the market. The more desirable grades, though, in most cases sold a little higher than they did desirable.

ment in the market. The more desirable grades, though, in most cases sold a little higher than they did yesterday.

Bulls, veal calves and stags were in good demand at fully steady prices.

The supply of stock cattle was again very limited and so also was the demand. The prices paid looked just about steady with yesterday, but so few have been on sale this week that it is difficult to tell much about values. Representative sales:

The general market today was strong to be higher than yesterday, or generally 24ch higher. It was what is commonly called a sway-back market. At the start hogs sold atrong to be higher than yesterday, with the long string going at \$5.919. By the time half of the hogs had changed hands packers lowered their bids and for a while the hogs sold only about steady with yesterday. Toward the close, however, it became evident that there were none too many to fill packers orders and the close was active and fully as good as the opening. The bulk of all the hogs sold from \$5.95 to \$6.00 and as high as \$6.10 was paid for a choice heavy load Everything was out of first hands before it oclock in the morning.
