WHEAT SUFFERS PARTLY IN SYMPATHY

Oats Go Up Fraction, While Provisions Range from Thursday's Values and a Nickel Better on Board of Trade.

CHICAGO, June 19.—There was an active trade in grains today and after showing considerable strength early in the day, prices yielded to tree liquidation. July wheat closed 4c lower and September unchanged. July corn was down 14c, September was off 4974c and September oats were 4074c higher, while September provisions closed unchanged to 5c higher. An easier feeling prevailed in the wheat pit at the opening on the indifferent cables. July being unchanged to 3c higher at 76% 677c, and September unchanged to 464 ac lower at 74% 747c. During the first hour a good demand developed from local traders and commission houses were influenced by a continuance of builtsh crop reports and by the strength at St. Louis, as well as by the advance in corn. Shorts were active buyers and in their anxiety to cover the price advanced, July selling up to 779c, and September to 54c. Profit taking with the sharp break in corn caused a reaction buyers and in their anxiety to cover the price advanced, July selling up to 75%c, and September to 75%c. Profit taking with the sharp break in corn caused a reaction toward the moon hour and the remainder of the session was fairly steady at the lower level. The close was near the bottom, with July %c lower at 75%c, the low point of the day, while September after decilining to 74%c, closed unchanged, at 74% 674%c. Exports for the week, according to Bradstreet's, were 6.171,000 bu., compared with 4.181,000 bu. a year ago. Clearances of wheat and flour were equal to 28,700 bu. Primary receipts were 352,200 bu., against 238,500 bu. a rear ago. Minneapoils and Dulath reported receipts of 248 cars, which, with local receipts of 31 cars (none of contract grade), made total receipts for the three points of 270 cars, against 301 cars last week and 318 cars a year ago.

Corn ruled strong the firs part of the session on the strength in the cash situation, but about the middle of the day free liquidation set in and the market declined rapidly. There was more corn for sale than at any time since the recent advance and a feeling prevailed that some of the big longs were disposing of their lines. The immediate cause of the break was the selling of July by Armour and the weakness in this delivery affecting the other options. After selling between 49%c and 61%c. Local receipts were 677 cars, with 25 of contract grade.

Oats were influenced largely by the action of corn. A feature of the early trade was the selling between 49%c and 61%c. Local receipts were 678 cars, with 25 of contract grade.

Oats were influenced largely by the action. September was down 347%c. at 62%d 48%c, after selling between 49%c and 61%c. Local receipts were 678 cars, with 25 of contract grade.

Trading in provisions was dull and without feature. Prices were somewhat easier at the start, due to liberal receipts of hogs and lower prices at the yards, but covering by shorts caused a firmer feeling earlier in the day and the market held steady the balance o

favorable factor for the whole list. So was the prospect of a favorable bank statement, although the money market has little immediate influence on the stock market owing to the disappropriate ease of call loans as compared with the time loan rates, which are firmly held. With a gain for the banks on the subtreasury operations of \$1,305,000, due principally to the high rate of disbursements on account of the pensions, the indications that receipts on balance on the interior movement have been sions, the indications that receipts on balance on the interior movement have been sufficient to bring the net gain for the cash items of the banks up to \$5,000,000. It is not expected that the loan account will show any such contraction as that of last week, since the liquidation in the stock market has been largely suspended. But neither is an important increase in the loan account anticipated. It is hoped therefore that the surplus reserves of the banks will show considerable recuperation. As this item was small for the season last week, the provalse of recuperation is viewed with satisfaction, especially with the period of semi-annual requirements of money approaching.

NEW YORK, June 19.—COTTON—Opened weak at a decline of 6gs points under lower cables and a continuation of the more or less general selling noted yesterday, which was again encouraged by a fairly favorable weather map and larger receipts, but after certain options had lost another point or two the list was rallied sharply by a weather forecast indicating the probability of lower temperature and bull support from New Orleans, accompanied by fresh reports of crop damage. Again the room attempted to check the advancing tendency, but the insight for the week showed another decrease as compared with the figures of the corresponding week last year, and after a narrow rescion the list was once more forced slowly upward under further bull support and covering, with the market closing at just about the best point of the day, being firm at a net advance of 166 points. Total sales were estimated at 250,000 bales.

HOGS—Receipts of hogs were quite liberal again today, but still there was a decrease of about 2,000 head as compared with yesterday. The market opened about 2½ gloc lower, the greatest decline being on the heavy hogs. Trading was fairly active for a time, but before 100 loads had been disposed of packers became more bearish and the close was slow and weak. The light and common hogs sold today in about the same notches with the mixed hogs, or, in other words, at \$3.92½ and \$5.85, where the bulk of all the hogs landed. The choice heavy weights sold mostly at \$5.7½ and \$5.00. Packers are no longer discriminating against the light weights to the extent they were a short time ago, and a choice bacon load, it is claimed, would sell within 2½ of the heavy hogs.

The close of the market was very slow and a good many heavy hogs had to sell around \$5.92½ and \$5.80. Representative sales:

GOSSIP, OF COMMISSION ROW Young Chicks Command Figure that Puts Their Fathers to Shame.

The sprightly spring chick is still tantalizingly out of reach of the honest lover of chicken flesh, but the old and portly hen has settled to the level where she may be had for considerable less than a king's ransom; a little less even than the dining car table d'hote. The old man rooster, notwithstanding his clear voice and defiant eye, is now hardly worth stealing. The hen market has declined to 9 cents a pound for birds of the most prepossessing figure, partly because the spring crop of chicks has reached an age when the youngsters can be trusted to go to market by themselves and the watchful care of the old ones is no longer necessary. The broilers still go at 18 or 19 cents to the pound and the family heads are humiliated by a 5-cent rate. It is said that almost any deserving person can taste the young bird after the Fourth of July.

Eggs are asserting themselves and are now at 131/2 or 14 cents. Not so many are now doing their summer shopping in this city. Probably the large number of hens who have come to market has had some effect in causing a falling off in eggs and then some other markets are just now paying a higher price for the honest and

tories take in the vicious and reckless comers and after a course turn out butter which is a good citizen.

SUSPECTED MEN ARE HANGED They Are Convicted on Circumstantial Evidence of Killing Arkansas Sheriff.

CLARKVILLE, Ark., June 19 .- George Durham and Fred Underwood were hanged here today for the murder of Sheriff John P. Powers.

Seizing his revolver he rushed toward the bank and was shot dead, two builets going through his body. Suspicion led to the arrest of George Dur-
