HOME-COMING OF ROOSEVELT

Oyster Bay Expects Him There for the Town's Anniversary Celebration.

TEN STRIKE FOR PROPERTY OWNERS

Surprising Number of People Destrous of Living in the Same Town with the Chief Executive.

Now that President Roosevelt has looped the western loops and is finally headed toward Oyster Bay and a rest, reports the New York Tribune, this is what happens when Noah Seaman, the president's farmer at Sagamore Hill, walks along the "main" street of the quaint little Long Island vil-

"How do, Noah?" it begins from the first villager he meets.

"Lo, Bill!" answers the "first farmer in

"What'd you hear from the president?" "Nawthing!"

When's he a-coming back to us, Noah?" "I can't tell you, Bill." "Loosen up, Noah, when's he a-coming?

The folks are coming on the 8th, I hear, Seaman finally volunteers. "And the president?"

"Well, if you must know, he's coming back on June 20," and Noah moves on, to be questioned by the next visitor and to evade answering just as long as possible, for, like the other employes on the presi-dent's farm, he believes that "what people don't know don't hurt them.

On June 23 Oyster Bay is going to celebrate its 250th anniversary, and will preface it by a rousing reception for the president when he reaches the village. The Oyster Bay Board of Trade has taken charge of the presidential return celebration, and its plans are practically complete, with due allowance made for possible change of date. E. Morgan Griffin, president of the Board of Trade, and a committee of citizens will meet the president on his arrival and escort him to his home. It is said that the celebration will surpass those previously given in honor of the chief executive's homecoming.

Town on the Boom.

To realize how much Oyster Bay thinks of President Roosevelt one must have seen the village at the head of one of the most beautiful Long Island Indentations. It is a sleepy little place, dignified with age, selfsatisfied in the beauty of its surroundings, peculiar not alone in its octagonal hotel. The older villagers always knew that something, they knew not what, was going to happen to Oyster Bay. It started to happen when Colonel Roosevelt became governor, but he was almost within the White House before Oyster Bay awoke to the opportunity.

The town has grown wonderfully in the last two years. Five business blocks of brick have gone up, and one is building. The Independent Order of Odd Fellows have a new hall, with the three links done in red, white and blue on the front.

Then there is the building which for two months this summer will be the virtual capital of the United States. For executive offices the president has secured the entire second floor and it is now being fitted up for him. The blinds are already hung and the man who bought them must have been color blind. No sky ever showed a brighter, more noisy blue than those blinds. The building is the Moore block, on one of the four corners about which Oyster Bay life throbs. It is owned by the man who keeps the grocery on the street floor, tatoes,

There have been other improvements since the boom began. There is 100 feet of cement sidewalk in front of the city hall. Gravel and sand did well enough before. Hiram Smith has painted his barn. The folk consider this rather careless of Hiram. The photograph gallery still keeps open just one afternoon a week.

Rents on the Jump.

It is impossible to rent or buy a house in Oyster Bay at this time, unless one is president. burning money and doesn't care what he pays. It is surprising how many people State when they left the ranch, but they want to live in the town the president call them 'Roosevelts' in Virginia." calls home. Realty prices have soured. years ago at \$300 are worth \$1,000 now. about taking an option. "The president the village, is the best thing that ever happened to Oyster Bay," is the general cry.

out that way fur a long time. He's got nothing but a little garden plot, and he refued an offer of \$11,000 for it."

"Taint likely now." said the deacon,

He married a woman with an income, a monthly income." "Much of an income?"

'Oh, Lordy, yes-\$60 a month." Deacon White has refused some realty man wanted to add the cometery, remove the bodies at his own expense and pay \$5,000 besides. The deacon aid not con-

Mrs. Koos Writes Entertaining Description of Golden Gate Harbor and City.

Following is a copy of a letter written by Mrs, Julia Koos of San Francisco to her son, Albert Koos of Omaha. It will be read with much interest by the many friends of Mrs. Koos in Omaha and Council

The entrance of the San Francisco bay is at Golden Gate, through a strait about five miles long and from one to two miles wide. The high mountains and narrow channel make it one of the safest harbors in the world. In the bay there are three islands within sight of the city, Alcatraz, Angel island and Goat island. Alcatrag, being near the Golden Gate, is strongly fortifled for the protection of the harbor. The cities across the bay from San Francisco are Oakland, Berkeley and Alameda.

In the bay can be seen Uncle Sam's big men-of-war. Ships leave and arrive at this nessed the landing of the steamer Korea on which the Chinese minister for Washington, D. C., came. We were allowed to go on board and all through the ship. In the first cabin we sank into the velvets, and the dining room was grand. The crew on the ship were Chinese, except the head officers.

The Chinese people that come over here have a dreadful time to get to land. They cannot land unless they have relatives here or unless they intend to go to the

I had the pleasure of watching the custom officers go through the passengers' trunks. I first watched them go through the Chinese things to see if they had brought any oplum. The officers would go through the trunks just like robbers, only they did not take anything, of course, ex-American people had brought from China. These they would take to the desk and duty would have to be paid on them. One of San Francisco's chief attractions

the Cliff House and Seal Rocks. The Cliff House is built upon a projecting rock. glass enclosed verandas overhang the water for visitors to view the seal rocks, which are about 300 feet from the Cliff House, or which can be seen the famous sea llong of the Pacific basking in the sun.

Overlooking the cliffs and seal rocks is with trees and flowers and amongst them Missouri leads the apple growing states, are white statues of all descriptions. At the summit of the heights is a lovely manare white statues of all descriptions. At

The next place of interest is Golden Gate park. It contains 1,040 acres of land and is said to be one of the most picturesque parks in America. There are many interesting things to be seen in the park, such as herds of deer, buffalo and elk. The Japanese tea garden is a small space, fixed so that you would think you were in Japan. It is taken care of by the Japanese people. They have ten and cake for sale in their native style. The museum contains many curious things. Stow lake and Strawberry At Sagamore Hill they are preparing for the family's return and its accompanying horde of the curious. The hackmen have the privilege of Atlant of the curious and at home.
