## BUILDERS AT WORK AGAIN

Construction on Adams & Kelly Factory Will Be Resumed Monday.

ALSO ON PLUNKETT APARTMENT HOUSE

Now that Brickingers Have Beturned to Work a Number of Omaha Structures Will Be Completed.

Work will be resumed Monday morning on the Adams & Kelly company's sash and door factory at the northwest corner of Twelfth and Nicholas streets by the contractor, W. P. Deverill, who will start In fifteen or twenty men and rapidly increase the number. The building is to stand on piles and the work of driving these had just been accomplished at the time the strike became effective. The excavation and foundation for the brickwork begin work with little preparation. The building, it is estimated, will be nearly completed in sixty days.

The Adams & Kelly company now has its offices and warehouses at 1529 Sherman avenue and its old factory on the ground adjoining the new location. The new building is to be of red stock brick with stone trimmings. It will be three stories and cover an area of 66x157 feet.

Another building to be begun Monday is teenth and Dodge streets. There had been little work done at this location before the basement. Men have now been at cutting and the brick workers will begin with the foundations at once.

ROME, June 20.-By order of Dr. Lap-poni the news of Cardinal Vaughan's death was withheld from the pope, the doctor fearing its effect owing to his holiness' special affection for the dead cardinal. It He was extremely grieved and insisted on praying for the repose of his soul.

Cardinal Vaughan was born April 15, 1832. He became bishop of Westminster in 1882. He had been ill more than three months. Late in March it was thought he could not survive more than a few days.

PLENTY OF WORK FOR MEN Wheat Fields of Kansas and Railroad Construction Camps

Need Hands.

The local employment agencies are ar ranging to handle the annual band of harvesters for Kansas points. In the western and central parts of Kansas the wheat crop is very good this year and the agents expect to ship out about 1,500 men beginning June 30, when the harvesting rates are given by the railroads.

The demand for men for work on the construction gangs still continues brisk and from 100 to 200 men are being sent out of town every day to the various construction camps. Fortunately the supply of men is just about equal to the demand and the employment agencies are running along with little trouble.

dent of an exposition or only the head of an ordinary family, who imagines he can keep the bright, enterprising women of the community in the background while there is anything of educational importance going on, is mistaken, and he has but to look at the situation in St. Louis to be convinced of the truth of this statement. When the Louisiana Purchase exposition reached the stage of appointing committees, President Francis and the rest were confronted with the problem of "disposing of the women," and after much council the plan for the Board of Lady Managers was evolved. Of all the plans made for the success of the exposition, this one was looked upon-by the men-as the triumph, and, in truth, it was clever, for with the most enterprising of all the enterprising women of St. Louis, Mrs. James Blair, as its president, it certainly looked as though the 'board" was likely to accomplish the are complete and the brick masons can most difficult problem that had yet been presented-the management of the dear wemen themselves. But alas, like many another promise, it did not turn out just as it had been planned.

In the first place, the name was not suggestive of the sort of activity that the women anticipated - that word "lady" looked suspicious-and before long the board began to inquire what it was to For several months the women manage. the Plunkett apartment house at Thir- were put off with excuses, but it finally developed that their office was just what their name implied, "lady managers," and the strikes, except a partial excavation for if they got to manage anything it would probably be ladies, for certainly the exposiwork for two or three days finishing this tion authorities had no intention of allowing them to manage anything else. Things looked a bit upset for a time and after learning that the men proposed to make no concessions the women began looking W. P. At the closing meeting of the Federation of the District of Columbia a report was made of the salaries paid the school teachers of the city of Washington, which, it appears, are not as large as in other cities of its size. A committee was appointed money which he collected in America and to investigate the condition with a view of remedying it if possible.

> A number of Boston clubs have united in another effort to keep the city streets clean. The assistance of the school children has been enlisted and a circular issued requesting that they write essays on the subject.

It is the educawas not until this evening that the pontiff tive feature of the Nebraska work that is learned that Cardinal Vaughan was dead. attracting attention and the liberal manner with which men are disposed to listen kneeling for a long time before retiring, to the argument seems surprising as well as gratifying to the easterners. Not only in Nebraska, but in Montana and other states where Miss Gail Laughlin has interested the members of the labor unions in woman suffrage, the same demand for further explanation is being made, and it is felt by many suffragists that the national organization might profitably retain her to continue this work among the unions of the eastern cities.

> The governor of Washington has vetoed the bill appropriating \$6,000 for traveling libraries and the women's clubs of that state will have to continue their work to supply this need. Two years ago the federation turned over twelve of these collections to the state, when an appropriation of \$2,000 was made for their maintenance, and general disapointment is expressed that the hard work of the women for the proper support of such a work is denied by the source that should rightfully supply it.

> The Daughters of the American Revolu tion of Pennsylvania have sent Secretary Root \$10,900, to be used for a building in Manila for the use of the enlisted men in the army there. The building will include reading, writing and billard rooms and their equipment for the amusement of the men. The gift has been accepted by special act of congress.
