Detroit Free Press Allegations Sting Third Assistant Postmuster General, Who Declares Them Maliciously Palse.

This morning's Free Press of this city tells its readers in an article with scare headlines that Third Assistant Postmaster General Madden is to be investigated. It alleges that I drew specifications of a con-tract for supplying the department with ract for supplying the department with arbon paper and that they were so framed s to allow of no competition. The article makes Mr. Wynne say that

he merely approved as a routine matter. It gives the impression that the contract is one over which the third assistant has control, and there is an inference that you consider the transaction corrupt. Calls Whole Story False.

The whole statement, insofar as it attempts to involve me, is absolutely false. I had nothing to do with the details of the contract, I drew no specifications, I did not sign, in fact I never saw the contract, if there is one. My sole interest and connection with the subject is limited to an expression of approval of the particular carbon paper in question, because it is laborsaving, and in other ways a great improvement over the old style manifolding process and serves the needs of the postal service much better. Still this approval was not given until after an investigation and recommendation to me by my superintendent of registry system and a recommendation by the superintendent of division of postoffice supplies of the first assistant's office. MORTGAGE TO SCHWAB IS SCORED

had absolutely nothing to do except as before stated.

If the statements printed were given the Free Press correspondent from the office of the first or the fourth assitsant postmaster general they misrepresent the facts, and the publication thereof, especially in my home city, is calculated to put me in a bad light before the people with whom I have lived for upwards of forty years, and where I have earned what reputation I have. It is malicious, cruel and without the slightest justification.

I know you too well to believe that you will sanction this attempt to involve and besmirch me unjustly and I beg you, not only as a man, but as a consideration due my office, to at once institute an investigation and do what you can to ascertain whether these absurdly false and damaging statements were actually given out at the department, and by whom, or whether they were the invention of the writer. I ask that the publication of the facts be not tardy.

Kansas Governor Opposes Grant, TOPEKA, Kan., June 21.-Governor Sailey said tonight his message to the legislature would not exceed 1,200 words. The governor is using his influence against the plan to appropriate \$500,000 or any other sum to give to flood sufferers. He says an appropriation is not necessary and it is his opinion that an appropriation would result in harm rather than good. Divided among the sufferers, the money appropriated would not go far, a few dollars to each family. No family would receive as much as it ought to have to relieve its distress and all would be dis satisfied. That is the governor's notion of the matter. He would have the legislature pass the necessary acts to enable counties and cities to rebuild bridges, to relieve people who are in distress and strengthen the banks of rivers and creeks, and then
