WEATHER LEADS TO HEAVY WHEAT SALES

Most Grains and Provisions Finally Decide to Go Down, Closing Slightly Lower on Day's Business.

CHICAGO, June 55-Liquidation was quite and prices buctuated nervously. July at closing the lower, while september by the higher. September corn was down the cause were off the and provisions

main influence in the wheat pit to-The main influence in the wheat pit toy was the weather map, and on reports
rain at Winnipe; and at various points
North Dakota and Minnesota there was
North Dakota and Minnesota there was
heavy selling pressure with the opening,
by Safeske lower at 8150038 and September
shade higher to 360038 and September
the. The liquidation continued during
the first hear in which time the market
declined materially, July selling off to
good demand developed on reports that
this ware very much needed throughout
to northwest, the showers last night havbeen of light thereater. They were rains were very much needed throughout the northwest, the showers last night having been of light charcater. They were also fair buying orders from the southwest and, with higher prices at St. Louis, Minneapoils and Duluth, the market quickly responded and became quite strong. Trading was heavy throughout the session. There was renewed liquidation within the last half hour and July closed Mc lower at 25%c, after selling up to 83%c. September closed at 809 80%c. a gain of %c, after touching 80%c. Clearances of wheat and flour were equal to 150,000 bu. Bradstreet's reported exports of wheat and flour for the week of 5.018.000, against 2.047,000 a week age. Primary receipts were 609,700 bu. compared with 200,300 bu. a year ago. Minneapoils and Duluth reported receipts of 25 cars, which, with local receipts of 25 cars, none of contract grade, made total receipts for three points of 314 cars, against 279 cars last week and 195 cars a year sgo. Corn sympathied with wheat and the early weakness in the latter market brought out considerable liquidation, while the more favorable weather conditions also alded in bringing out selling orders. There was little corn wanted except by shorts, who covered early on the decline. With the recovery in wheat the corn market advanced and much of the early loss was regained. The sentiment was still bullish on the crop prospect. After ranging between 50%c and 51%c, Local receipts were 586 cars, with 40 of contract grade.

There was an urgent demand for July

ere was an urgent demand for July from shorts at the start and the of the deliver, was very erratic, ope from 1/4c lower to 15/4c higher at 43 c. The demand, however, was soon field and prices became more settled, r months were comparatively steally light trading. July closed 1/4c lower 3c, after ranging between 42/3c and while September was off 1/4c, close 1314/6318/4c, after selling between 34/4c. ing at 344,534%, after selling between 34%c and 36%c. Local receipts were 180 cars. Provisions were quite firm at the opening, influenced by the better tone of the hog market, but the weakness in grains, together with heavy liquidation and an exceedingly light demand, caused a severe break in prices, and the market ruled weak the greater part of the day. Pit traders who bought on the recent decline were the best sellers, while the buying was scattered, but mostly for outside account. September pork closed at a loss of 65c at 18.60. September lard was off 17%c at 28.4%, while ribs were down 20c, closing at 28.5%.

Bank Clearings. OMAHA, June 26.—Bank clearings for to-day were \$1,149,400.67; increase over corre-spending day of previous year, \$69,679.26.

Coffee Market.

NEW YORK, June 25.—COFFEE—Spot Rio, quiet; No. 7, invoice, 5%c; mild, quiet; Cordova, 7% 11%c. Futures opened steady at a partial decline of 5 points, following lower European cables, large receipts and the issuances of July notices to the extent of about 60,000 bags. Nearby holders sold July to avoid receiving actual coffee, while the late months ruled firmer as a result of purchases by the sellers of the near months. The notices were soon taken care of, however, and then the market as a whole turned very much firmer under outside buying and investment demand, with August showing especial firmness. Toward the close the market was a little less firm, but was finally steady, net 5620 points higher. Sales, 127,250 bags, with June at 1.70c; July, 2.85c; September, 2.25,34.05c; October, 4.00,4.10c; November, 4.1064.25c; December, 4.40,4.10c; January, 4.60c; February, 4.60c; March, 4.5624.70c; May, 4.70g 4.75c; July, 1904, 4.05,4.70c. Coffee Market.

Wool Market.

BOSTON. June 26.—WOOL—The Commercial Bulletin will say of the wool market tomorrow: Wool is more active. There have been a great many buyers around and they have bought more freely. One house reports sales of 1,000,000 pounds and several are sold ahead on some grades. The market is very firm and prices are hardening. Western markets continue strong and at London there is an upward tendency. The shipments of wool from Boston to date from December 31 are 11.—329.390 pounds, against 128,717.817 pounds at the same date last year. The receipts to date are 108,32,630 pounds, against 121,631.—468 pounds for the same period last year. ST. LOUIS, June 26.—WOOL—Steady: medium grades and combins 176721c; light fine, 15@18c; heavy fine, 11@15c; tub washed, 13@29c. Wool Market.

a dime higher. The quality of the cattle today was hardly up to the usual standard and for that reason the market on paper scarcely shows the full amount of the advance. The improvement in prices yesterday and today takes the market very near back to where it was at the close of last week, but as compared with Monday of this week the market is still 10g15c lower. The cow market was also active and stronger so far as the better grades were concerned and such kinds are little lower than they were a week ago. The grassers were a little easier to dispose of today than they were yesterday, but the market could not be quoted any higher. All the buyers are afraid to take hold of the grass stock, it seems, as it kills out so unevenly that they cannot tell much about what they are getting. They have been going down hill at a rapid rate all the week at all markets, but owing to the uneveness in the market it is difficult to tell just what the decline amounts to.

Bulls, veal calves and stags sold at just about steady prices today. Good fat bulls seell freely at fully teady prices, but grass bulls are in poor demand and lower, the same as grass cows.

There were not enough stockers and feeders in the yards to make a test of the situation, but it is safe to say that not many were wanted, as the few that did arrive were slow sale and weak. Representative sales:

Cables were disappointing at the time of the local opening and for a time prices showed a downward tendency. Almost immediately, however, it was learned that the bulls through five or six local houses had provided for every bale tendered, which was believed to include all of the New York stock at present available for delivery. The result was another scramble for cover, which sent prices wildly upward. July selling back to 12c and August to 12-29c, with the late months showing almost equal nervousness and excitement. The movement for the week was light, falling behind last year's by some 21-000 bales, and the weather was again unfavorable, with showers and low temperature in many important sections. After the first advance the market ruled firm, with small offers, except in the remote positions. There were occasional setbacks as a result of realizing, but generally speaking the course of values was upward until July and August had reached new high records for the season, the former month selling at 13.20c and the latter at 12c. Just before the close there was enough scaling to case values off from the best, but the market values off from
