Big Crowd Going to Game, Hundreds of little white ribbons bearing the inscription, "Going? Sure!" were to be seen on the streets vesterday, and they indicate that the ball game at Lake Manawa this afternoon between the county

and city officials will be attended by a crowd which certainly will break the record for this season. The fact that the game itself will be better than any 10-cent circus and that it is for the benefit of the Woman's Christian Association hospftal building fund, is proving sufficient advertisement. The banks and wholesale houses will close promptly at 2 o'clock in order that their employes may help add to the crowd. The game is the talk of the

The first innings promise to be the funny feature of the game. The lineup of both teams will be confined to city and county officials exclusively. After the first innings the picked teams will endeavor to play ball and as there are some really good players on both sides good amateur ball may be looked for. But the first innings, a good live elrous with two rings and a platform show all going at the same time would not be in it with the exhibition that is promised. With Alderman Casper on first base for the city and County Attorney Killpack on the same position for the county, nothing more need he said. After the first innings County Attorney Killpack has agreed to Alderman Casper will coach the city team from the side lines on his automobile. Chief of Police Tibbits has declined to act as eatcher for the city team, fearing that by some mischance a ball might be entagled in his hands and he would thereby spoil his record. One of the firemen will, it is said, act as catcher to City Engineer Etnyre's curves and levels. There are

Some of the members of the executive committee favor dispensing with the services of a commissioner and having the executive committee attend to the business of the office until the Commercial club becomes an assured fixture in Council Bluffs. Those who favor this plan take the position that the members of the committee can divide the work among themselves, so that it will not be a burden to

any individual member. It is no secret, but there was a good deal of dissatisfaction expressed among the members of the club at the executive committee hiring a commissioner at a salary of \$2,000 at a time when the club was in its infancy and its permanency was in doubt.

Ready to Lay Conduits.

The Nebraska Telephone company has part of the material on hand and is ready to begin the work of laying the under ground conduits for its wires. The work, however, cannot be commenced until the city council approves the plat showing the location of the proposed conduits. The city council is not scheduled to meet until the regular session on July 6, and it is possible, however, that at the request of the telephone company a special meeting may be called before then to take action on the plat.

Everything is in readiness for the construction of the company's new exchange bullding on Scott street and work on the foundations will be commenced simufset as "water boy" for the players, while taneously with the laying of the conduits. In the construction of its exchange building and the laying of the underground conduits the Nebraska Telephone company contemplates expending \$100,000 or more in Council Bluffs this year.
