BUSINESS CANCES

A LIFETIME OPPORTUNITY—Buy September Corn. The present unparalleled situation offers the greatest opportunity for quickly realising enormous profits ever known. The past holds no record of such conditions and those who take advantage of present prices have every chance for a fortune. Do not fail to investigate this opportunity. Enormous demand. The demand for Corn is increasing at a rate far in excess of the supply. Both the demand at home and abroad is increasing to a wonderful extent. Corn is now the busis of over one hundred different by-products which were until recently unknown. Sixty-mine different breakfast foods are made from Corn. The Corn crops of 1901 and 1922 were exceedingly small and far short of the demand. The crop of 1932 was very large, but because of the inciement weather much of it was left in the fields all whiter and rulned. Relief was expected from the coming crop, but the Disastrous Floods of late which laid waste hundreds of thousands of acres of Corn reduced the possible crop millions of bushels and destroyed all hope of relief. The shortage in face of the greatly increased demand will be the greatest on record. The situation is rapidly growing acute, for Corn is Cornered. The big elevator interests of Chicago, quick to grasp the opportunity, have secured control both July and September Corn. The most modest investor can share the profits of these millionaires if he will take advantage of the opportunity. When these big operators are ready and begin to squeeze the market corn will so up like a balloon. We have no hesitancy in predicting that within the very near future the market will see Record Prices For Corn. We are informed through reliable sources that September Corn will seel for B. cents. Natural conditions Justity higher prices than present quotations relating to the Morial and is filled with new and valuable information which will experience in the near future one of the music sensational advances ever known.
