

TALE OF THE STATE'S CASH

Treasurer Mortensen Tells How Much There is and Where it is Kept.

GAGE COUNTY LEADS IN CORN ACREAGE

Phelps is the Banner County for Winter Wheat, Cuming for Spring, Platte for Oats and Lincoln for Rye.

(From a Staff Correspondent.) LINCOLN, July 1.—(Special).—State Treasurer Mortensen's monthly statement, filed today, shows that there has been a big reduction in the state's deposits in banks. This is due to the fact that some \$36,296.18 of the temporary school fund was distributed among the school districts of the state. A balance of \$9,062 remains in the fund as a starter for the next semi-annual apportionment. The permanent school fund has increased \$74,073, of which \$57,694 has been invested. The general fund, which was depleted at the beginning of the month, now boasts of \$44,500 of a balance, although \$41,079 was paid out during the month.

Table showing state treasury balances for various funds and months. Columns include Balance, June 30, July 1, and Deposits.

The following table gives the names of the depository banks and the amount of money on deposit in each institution on June 30:

Table listing depository banks and their deposit amounts as of June 30. Includes West Point National Bank, Omaha National Bank, etc.

Nebraska's Acreage of Grain. Reports are now being received at the office of the deputy labor commissioner from the county clerks of the state showing the number of acres in each county planted to the various kinds of grain, including winter and spring wheat, corn, rye, barley and buckwheat. About half of the counties have reported so far as heard from Gage is the banner county on corn, with an acreage of 302,184. Cass is next with 133,882. York third with 121,889, while Platte and Fillmore each have in excess of 120,000. Phelps county takes the lead for winter wheat, its acreage running to 81,154. York, 81,381; Fillmore, 77,090; Adams, 76,123. Cuming county leads in spring wheat,

showing \$3,311 acres; Washington, 18,845; Knox, 15,224. Here and there a close race for the leadership in acreage of rye, the former having 14,897 and the latter 14,340. In oats Platte county has a safe lead with 67,782 acres, while Gage has 53,799 and Cuming 53,821. Cedar county leads in the cultivation of barley, having 10,626 acres, to 8,121 for Knox and 8,565 for Platte.

Time to Get a Move On. Today the limitation of Tim Sedgwick's contract for the printing of the session laws expired, and under the document to which he attached his potential name when he took the job he is henceforth to forfeit to the state a matter of \$10 a day until he delivers the goods. There are some fifty pages of the publication for which the final proofs have not been adjusted and it looks as if it must require yet some days before they will be completed, so that if the board insists upon the forfeit, which it is understood it will do, the delay is going to take some of the profit-off the \$2,000. It is understood that the contract will run to about \$2,000.

The State Board of Purchase and Supplies was today entertaining a large number of merchants from various parts of the state who are eager to enter into quarterly contracts to furnish supplies to the state institutions within their respective localities. These sessions are always held behind closed doors and as information concerning the contracts and bids is always withheld until the deals are completed, and as the perfecting of some of the contracts went over until tomorrow, the bids are as yet in the dark as to results.

Trains Get an Increase. The announcement was made this afternoon by the Burlington trainmen that they had won out in their arbitration with the company at Chicago, and that effective today they would receive a substantial increase in wages. The advance will be 10 per cent for freight men and 12 per cent for those on passenger runs.

The conference closed a few days ago and was one of a series held during the last three months. All were of an amicable character. The advance will affect a large number of men in Nebraska and Iowa.

Jones is Out. Deputy Warden Jones of the state penitentiary is out. His term expired today and Governor Mickey said he would appoint no successor. Mr. Jones owes his cutting off largely to the State Prison Reform association, which does not like the methods of the deputy as applied to prisoners under his charge. They objected strenuously, and the governor let Jones die an official death. Another reason lay in the fact that when Warden Beemer took hold he made it one of the conditions that he be not burdened with an assistant who holds commission from the governor and not from him. There has been a little friction between the two and the warden shed no tears when Jones dropped out. Steward Delahanty will perform Jones' duties.

Another Rhea Hearing. Governor Mickey gave audience today to Sheriff Kreader and Prosecuting Attorney Stinson of Dodge county, along with Foreman Howell of the jury which tried Rhea. The evidence was gone over and at the conclusion the governor said that he had not discovered anything to cause him to change his mind. Rhea has apparently resigned himself to his fate. He is buried in religious reading most of the time and is a devout Christian Scientist.

Wing's Rapid Rise. Word has been received in Lincoln that Dan G. Wing, formerly cashier of the American Exchange National bank of this city, now a part of the First National, has been appointed president of the consolidated Boston banks of the First National and Massachusetts National. The bank has a capital of \$1,000,000, a surplus of the same amount and deposits of \$10,000,000. It ranks fifth in the city. Wing was appointed a bank examiner when Charles Dawes, formerly of Lincoln, was made controller. At first he checked up reports of receivers, but later went into the intricacies of several broken banks. One of these was in Boston, and Wing showed such skill in handling its assets that he was taken up by big capitalists and now has a salary running up into five figures.

The organization of the Country club was perfected at a luncheon held at 5 o'clock this afternoon at the old Governor Butler mansion. It started with a membership of ninety-five. The directors are: Frank M. Hall, John W. MacDonald, Robert M. Joyce, Herbert M. Bushnell, S. H. Burnham, W. C. Wilson, George Woods, F. W. Brown and L. F. Searles.

FATHER HAS SON ARRESTED Charged with Pilfering Goods from the Store in Which He Was Clerking. HASTINGS, Neb., July 1.—(Special).—The anomalous circumstance of a young man arrested at the instigation of his father occurred at Junata yesterday, when Theodore Burr was taken in custody on the charge of stealing goods and cash from his father's store. Young Burr was employed as clerk and the pilfering of valuables had been noticeable for some time, and finally the evidence pointed to Theodore as the culprit. The elder Burr gave his son thirty-six hours in which to permanently leave the country, and upon his failure to comply the arrest was made. Young Burr now lies in the county jail in this city, falling to produce a bond of \$500 to await his trial at the September session of the district court.

Small Boy and a Firecracker. PLATTSMOUTH, Neb., July 1.—(Special).—A small boy and a firecracker came near causing the death of two persons last evening. A popular young man was just returning home, after enjoying a buggy ride with his best girl, when a boy threw a firecracker under the horse. The animal became unmanageable, and, dashing down past the court house, ran up against the Waterman building. The collision knocked the horse down and threw the young man over the animal, and his head struck against the building with such force as to render him unconscious. A. W. Atwood was sitting in front of his office, reading the evening paper when the horse reached the sidewalk, but vacated the chair in time to see it mashed into kindling wood, and rescued the young man from the wreck. Mayor Moran has issued a proclamation forbidding the use of the firecracker on the public streets. A few arrests will probably be necessary to convince the small boys that the mayor means business.

Cannot Explain Suicide. NORFOLK, Neb., July 1.—(Special).—George E. Weismann, the man who committed suicide at Wayne yesterday afternoon, has been in Norfolk since May 11, conducting a cigar store. He left this city Tuesday noon, apparently in a cheerful mood. His friends are unable to account for his suicide.

Invited in a Collision. BEATRICE, Neb., July 1.—(Special).—As a result of a collision which occurred at Strong yesterday between Burlington passenger train No. 36, which runs between

THE FOURTH

We close all day Saturday, 4th of July— please anticipate your needs ahead. Our entire plant and outfit, including delivery will be shut down tight on the Fourth.

STORE OPEN FRIDAY EVENING TILL 10.

The "Style of a Dorothy Dodd"

Let us assume that your shoes fit you. Now what next? What is most important? Unquestionably "style." Demand that a shoe shall possess "Style." If it has style and little else you want it; if it has not style, but everything else, you don't want it.

The "Style of a Dorothy Dodd" is unique.

It cannot be duplicated by any other maker, because the "Dorothy Dodd" is a totally different construction from any other ladies' shoe made. It holds the foot firmly at the waist (that's the instep), prevents the toes from slipping forward, and thus gives a correct poise in walking. Yet it makes the foot look nearly a whole size smaller. That's curious, and you won't believe it till you see it.

OXFORDS \$2.50 SHOES \$3.00

POWER AND LIGHT SCHEME

Nebraska Company Asks Permission to Divert Course of River. TO USE BELT WATER CURRENT MOTORS

Large Amount of Land in Western Nebraska Withdrawn from Settlement Under Terms of Reclamation Act.

(From a Staff Correspondent.) LINCOLN, July 1.—(Special Telegram).—Application was filed today with the irrigation department by Jesse R. Crandall of Nebraska, in behalf of Frank E. Plummer of Minneapolis, for permission to put a wing dam in the Niobrara river near its mouth for the purpose of carrying it's entire flow, if necessary, through an old channel around Nebraska Island. The purpose is to operate a system of belt water current motors to generate electricity for lighting and power. The works are to cost \$150,000 and are to be completed in two years.

The secretary of the irrigation department has been notified by the interior department of the withdrawal from home stead of 1,234 square miles, or 783,360 acres, of land, under the congressional reclamation act. The withdrawal includes nearly all of the unclaimed land in Scotts Bluff county, the north half of Banner county and about 252 square miles in Cheyenne county. Under the act money derived from the sales of government land is to be apportioned to the different states for irrigation purposes. The total sales since the law went into effect aggregate \$15,000,000, of which \$250,000 comes to Nebraska.

Boy Drowns While Bathing. AUBURN, Neb., July 1.—(Special).—Lester J. Goldsberry, Jr., was drowned about 3 o'clock yesterday afternoon in the Nemaha river, just north of town. He, in company with a son of George Hays, started for the river to go in bathing. When they reached the river they separated to search for a suitable place to go in. In the absence of Hays, young Goldsberry went into the water and when Hays returned he found the child on the bank, but could find nothing of his companion. He immediately gave the alarm and soon turned he found the child on the bank. The stream was commenced. The search was continued until 7 o'clock, when the body was found. Young Goldsberry was 16 years old and was the only son at home of L. T. and Mrs. Elizabeth Goldsberry of this place.

Appointed County Attorney. TEKAMAH, Neb., July 1.—(Special).—County Attorney A. N. Corbin, Jr., yesterday handed his resignation to the board of county supervisors and the same was accepted, owing to Mr. Corbin's desire to spend this year at law school. Mr. Corbin expects to enter the law department of Leland Stanford university in September. At the same meeting of the board of supervisors P. E. Taylor of Lyons, who has purchased Mr. Corbin's library and general practice, was appointed county attorney for the year and a half remaining of Mr. Corbin's term. Mr. Taylor was educated in Pennsylvania, in which state he served as county attorney of Franklin county for three years. He has been in practice in Nebraska for three years.

Norfolk Will Not Celebrate. NORFOLK, Neb., July 1.—(Special).—Norfolk will not celebrate the Fourth at home this year. Its people, however, will

not neglect the nation's natal day, and many are planning to swell the crowds which shoot off firecrackers in Stanton, Hoskins, Winslow, Wayne, Brunswick, Creighton and Meadow Grove. Company L, Nebraska National Guard, has accepted an invitation to participate in the doings at Stanton and will go down in the morning, forty strong, under command of Captain Chester A. Fuller. They expect to enter a skirmish drill and sham battle with companies from West Point, Madison and Stanton.

Norfolk People Go East. NORFOLK, Neb., July 1.—(Special).—The eastbound Northwestern passenger train which left Norfolk at noon today carried over a score of people from this city who are en route to Boston and other eastern points. They are all on pleasure bound, are traveling individually and chanced to leave on the same train because of cheap excursion rates. Among the travelers were: C. S. Hayes and family, John Giles and family, E. W. Zutz, Misses May, Laura and Edna Durland, Miss Edith Parker, Miss Lucy Stone, Miss Hagerty, Miss Wood, Mrs. J. C. Britt and children, Superintendent S. G. O'Connor and wife. They will be gone during the greater part of the summer.

Scares Norfolk People. NORFOLK, Neb., July 1.—(Special).—A terrific wind struck Norfolk at 1 o'clock this morning and gave the people a general scare. They took it for a tornado, but it was nothing more than a fierce breeze, which kept going for a quarter of an hour. A few windows were blown into bits and trees in some parts of the city were snapped off. Wires were not badly damaged.

Scotia Goes to St. Paul. SCOTIA, Neb., July 1.—(Special).—The Scotia base ball team will play the Loup City ball team at St. Paul on July 4. Scotia is not celebrating this year, consequently most of the people from here expecting to celebrate will follow the ball team to St. Paul.

Boy Falls from Tree. BEATRICE, Neb., July 1.—(Special).—Johnnie, the 12-year-old son of Mr. and Mrs. G. W. Andrews, fell from a tree and broke his left forearm and was otherwise bruised about the body.

Company L of the First battalion, Nebraska National Guard, will give a sham battle and exhibition drill at Courtland Beach July 4.

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.
