the moderate offerings. Beef steers sold in about the same notches they did late yesterday, or about 10% loc lower than yesterday morning. Trading was very slow, as buyers did not seem to be particularly anxious for cattle, and be-sides that salesmen wanted to get steady prices with yesterday morning. The bulk of the cattle was disposed of in good sea-son, but still the day was well advanced before a clearance was made. The cow market was a little weaker than it was yesterday morning, but still the de-cine was not sc great as on beef steers. The best grades of corn-feds were very little if any lower, but the medium kinds and grassers were slow sale and unevenly lower. That class of stock has been selling at such uneven prices for some time past that it is difficult to tell much about the fluctuations from day to day. It is certain, however, that prices have been going stead-ily downward. Canners are also slow sale, and in fact are hard to dispose of at any price. Cattle and Sheep Lower, While Hogs
