COMMERCIAL AND FINANCIAL

All Commodities Rule Weak Throughout Day on Board of Trade.

WHEAT AND CORN BOTH FALL IN PRICE

Provisions and Onts, However, Rise Above Weakne a and Close Slightly Higher When Business Day Ends.

CHICAGO. July 2.—Duliness characterized trading today in the grain and provision pits and after some show of firmness wheat ruled weak. September closing \$45 \text{Months} colorer. September corn was off \$40, but onto were a shade higher, while provisions were from 10915\text{Months} to 100 highes.

There was only a small trade in wheat owing to the fact that the board will be closed until Monday, and the general sentiment was rather bearish. Opening prices were weak on heavy rains in the Red river valley and on the break of the blind pool at St. Louis September being \$40 \text{Months} to \$ CHICAGO, July 1 .- Duliness character

cars, against 29 cars isst week and see cars a year ago.

Corn was rather unsettled, with business mostly local and of an evening-up character. There was no important trading by any one. The weather was still very favorable for the crop, which with the weakness in wheat caused lower prices at the start, but buying by small commission on the decline soon resulted in a raily. The market again declined late in the session along with wheat and September closed 4c lower at 19%c, after selling between 19%c and 50%c. Local receipts were smaller at 3% cars.

50%c. Local receipts were smaller at 346 cars.

Oats were extremely dull and prices kept within a marrow range. The opening was easier in sympathy with wheat and corn, but there was a fair scattered demand on the decline, and all of the early loss was recovered. The close was steady, with September a shade higher at 32% 033%c, after ranging between 34%c and 34c. Local receipts were 197 cars.

Frovisions opened weak on the bearish showing of stocks in this market, but with fair buying by packers a firm tone developed and the close was near the top prices of the day. September pork was up 12%c at \$5.90. September lard was 10%12%c higher at \$5.008.42%, while ribs were up 20c at \$5.90.

Estimated receipts for tomorrow: Wheat, 20 cars; corn, 490 cars; oats, 190 cars; hogs, 20 cars; corn, 490 cars; oats, 190 cars; hogs 17,000 head. No session will be held on Saturday, July

NEW YORK, July 2.—Another speculative expectation was disappointed by the action of today's market. This was that with the Fennsylvania stock subscription and the semi-annual requirements on the money market out of the same speculative interest in stocks would be aroused. Today's money market reflected clearly enough the reflux of funds after the stringency incident to the settlements. Some doubt is reti over the showing of the weekly bank statement which will be published tomerrow, owing to the Saturday holiday.

It is expected that this will show the effects of the large ogerations incident to the beginning of the fiscal year, as was the case with the returns of the Bank of England and the Bank of France, which were made today. Both institutions showed a decline in reserve, the English bank of nearly \$2.00.00 and the French bank a slightly smaller amount, and both institutions showed an enormous expansion of credits. But the process of repayment of these extended accommodations is already proceeding both in Paris and London. In New York the maximum call rate today was 4½ per cent, compared with 5 per cent yesterday and 19 per cent on Tuesday. A bank statement unfavorable on its face is not likely therefore to be a factor in the speculation, but the easing money market falied to help the stock market. There was no urgent pressure to sell, but the buying demand was almost improbable and prices sagged heavily throughout the session. The approach of the holiday was a possible influence on the duliness. It would be difficult to hit upon any of the factors as the dominant cause of the weakness, but sentiment in speculative circles over the future of values is undoubtedly direcuraged. London reported some selling of Americans on fears of a disturbance of our relations with the Russian government, but there was no trace of this feeling in New York.

Plans for reorganization of several industrial combinations created a distinctly bad impression, although the securitie
