### N. T. Plumbing Co. Tel. 250. Night, F667. Bricks Up a Window.

Nephi Jaseph, a brickmason, will have a hearing before Justice Ouren Friday on a charge of malicious injury to property, of the state during his absence. preferred against him by Henry Martens, proprietor of the Martens hotel on South Main street, which was formerly known as the Creston house. Jaseph at the time of his arrest was working for Max Mohn, who formerly owned the Creston house and at present owns adjoining property. The parpresent owns adjoining property. The particular charge against Jaseph is that he bricked up certain windows in the Martens hotel and thus shut out the light. He did this at the instance of Mohn, who employed him. Mohn claims to own half of the division wall between the hotel and his present property, and because some of the residents of the hotel, as he alleges, persisted in throwing refuse onto the roof of his building he decided to brick up the windows on his half of the wall above his

Hot and Moist Weather in Most Sections Causes a Rapid

WASHINGTON, July 7.-The weather bureau's weekly crop bulletin:

The week ending July 6 was the most favorable of the season, giving a moist and much needed heat in all districts east of the Rocky mountains. Drouth in the northern portion of the spring wheat region has been relieved, but need of rain is beginning to be felt in the Ohio valley, portlons of the central gulf states and in western Texas.

In the central and northern Rocky mountained.

the central gulf states and in western Texas.

In the central and northern Rocky mountain districts and on the north Pacific coast it has been too cool, frost more or less damaging occurring from the 2d to the 4th in Idaho, Wyoming and Utah.

Owing to the weather corn has made rapid advancement in the central valleys and is now greatly improved and generally well cultivated.

In the northern portion of the middle Atlantic states, in the upper Ohio valley, lake region and the Dakotas the crop continues backward, but is improving, though needing cultivation in many parts of these districts. In the southern states corn is largely laid by, an unusually fine crop being practically assured in the west gulf districts.

Harvesting of winter wheat has progressed under favorable conditions and is nearing completion in portions of the central districts.

Threshing is also in general progress

ral districts.

Threshing is also in general progress with yields lighter than anticipated in nearly all districts. Winter wheat is now ripening on the north Pacific coast, the crop being practically safe in Washington. High winds and excessive heat have caused in the progressive of the coarse o

crop being practically safe in Washington. High winds and excessive heat have caused injury in California in some sections, but excellent yields are reported from the southern part of the state.

Ea ring wheat has sustained permanent ry in portions of North Dakota and portions of Minnesota from drouth, which has been broken by abundant rains that were of great benefit to the late crops. In southern Minnesota and parts of South Dakota lodging and rust are reported. In Wisconsin, lowa, Nebraska and Kansas and on the north Pacific coast the crop is progressing satisfactorily. Bpring wheat is now heading in the Dakotas.

The outlook for oats in Minnesota and South Dakota is improving and the crep continues generally promising in the states of the Missouri and upper Mississippi valleys. A light crop, however, is indicated in the Ohio valley and portions of Illinois and southern Missouri.

Cotton has made rapid growth throughout the cotton beit and an improvement is being shown in all districts, the reports from the Carolinas and Georgia Indicating the most decided advancement. Wet weather has, however, been unfavorable in portions of Louisians and Texas.

The outlook for apples appears to be somewhat more promising in the Ohio valley and portions of the middle Atlantic states, and fair to good crops are indicated in Michigan. Tennessee and Iowa. Poor prospects are reported from Arkansas, Missouri, Illinois and West Virginia, and in New York the outlook is less favorable.

Bulletin of the Nebraska section of the climate and crop service of the Weather bureau for the week ending July 6, 1903: The temperature the past week has been about normal, while heavy showers have occurred in all except the southeastern ounties, the mean daily temperature has averaged just normal in eastern countles and 2 degrees selow in western.

The rainfall in a few southeastern coun ties was light, less than half an inch: in most of the northern, central and western ountles heavy showers occurred on the 2d and 3d, with a rainfall generally exceeding 1 inch and exceeding 2 inches in considerable areas, while in a few places t exceeded 4 inches.

The past week has been very favorable for crop growth. Rye is being harvested and quite generally the crop is very light. evening for the purpose of delivering an Winter wheat is ripening and the harvest is just beginning in southern counties; in some eastern counties the wheat heads have not filled as well as expected and the crop will not be quite as wood as seemed probable a few weeks ago; elsewhere the crop promises to be large, especially in the western portion of the winter wheat belt. Spring wheat and outs have grown well an improved in condition; in northern counties they are lodging slightly.
