KIN CHAU, Opposite New Chwang, Manchuris, July 8 .- All the prominent Russian officials in China and Manchuria are attending the conference at Port Arthur. Among them are Minister of War Kuropatkin, Admiral Alexieff, the Russian min isters at Peking and Seoul, the political agents in China and Korea, including M. Potkotoloff, recently Russian finance representative at Peking; General Desino, the military agent in China; the civil and mili-

tary officers at Mukden, Harbin and Kirin and the administrator of New Chwang. The proceedings at the conference are enveloped in profound secrecy. It is supposed that the Russian officials are considering war questions. The foreign commercial officials at New Chwang and Port Arthur believe that the possibility of war is increasing steadily. The Russian policy is believed to hold the present positions in Manchuria, including New Chwang, and to take no steps to avert hostility with Japan, if it is assured Japan will fight unaided. North China is intensifying.

Japan has protested that Korea is bound to prevent a foreign power acquiring any telegraphic privilege interfering with Japan in this. Japan is pressing for the opening of the Korean port of Wiju, a great depot of overland trade with China. Korea pleads that Russia objects and Japan replies that the objection is irrelevant and that the decision rests with Korea.

EARLY DEATH RUMORS DENIED.

The latest news of the pope reports him as somewhat improved. though his doctors do not hesitate to admit that he is growing weaker. On the other hand, unofficial reports declare that he cannot last more than a few hours longer.

During the day so much opposition was manifested to Dr. Laponni's treatment that it was agreed to call in Dr. Cardarella for a consultation today.

When the pope woke yesterday morning he complained of extreme weakness, protesting that he wished to work. Finding this impossible, however, he consented to obey his doctors, but would not stay in bed. His valet offered to help him to his armchair, but the pontiff refused all aid and managed to walk the few steps necessary by himself.

Cardinal Gibbons has started for Rome, to be present, in the event of the pope's death, at the election of a successor.
