## COMMERCIAL AND FINANCIAL

Grain Markets Are Active and Higher on Board of Trada

NEBRASKA NEWS STRENGTHENS CORN PIT

Wheat and Oats Also Boom, While Provisions Drop After Dull and Centureless Day with Little Support.

CHICAGO, July 9.—The wheat market was again active and strong, September closing light higher. September corn was ign higher and oats were also up ign, but provisions were weak, the September products closing from 124c to the lower. Opening sales on wheat were made at slightly lower prices, due to lower cables and favorable weather, September being unchanged to 14c lower at \$1.700/1.77, but in spite of these bearish conditions there was a builts sentiment prevaling among the traders and buying was of good volume. The market advanced quickly on the strength at St. Louis and New York and on continued reports of a poor yield, and shorts covered freely. There was also good buying by the southwest and northwest. After September had sold up to 73% there was a reaction on liquidation, but the market at no time showed weakness. One of the buillish factors was the report from Russia to the effect that the crop was badly damaged by heat. The close was strong, with September 1%c higher at 78%c. Clearances of wheat and flour were equal to 150,100 bushels; primary receipts were 287,100 bushels; against 42,800 bushels a year ago; Minneapolis and Duiuth reported receipts of 130 cars, which with local receipts of 130 cars, which with local receipts for the three points of 152 cars, 2 of contract grade, made total receipts for the three points of 152 cars, 2 year ago.

Unfavorable news from Illinois and Ne-CHICAGO, July 9.—The wheat market

year ago. Unfavorable news from Illinois and Ne Unfavorable news from Illinois and Ne-braska, together with the strength in wheat, caused a strong tone in the corn market. There was also considerable buy-ing by local traders on expectations that the government report would be buillsh. After selling between 51½c and 52½c Sep-tember closed ½c higher at 51½c. Local receipts were 270 cars, with 27 of contract

rade.
Oats were extremely quiet, but prices ere firm in sympathy with the strength in were firm in sympathy with the strength in other grains. Receipts were small and the cash demand slow. The close was firm, September 4c higher at 34%c, after selling between 34%c and 35c. Local receipts were

September 4c higher a between 34%c and 35c. Local receipts were 131 cars.

Provisions ruled dull and featureless and with selling for foreign account with little support the market showed weakness, September pork closing 45c lower at \$15.90. September lard off 15@17%c at \$7.95 and ribs 12%c lower at \$8.57%.

Estimated receipts for tomorrow: Wheat, 15 cars; corn, 415 cars; oats, 120 cars; hogs, 16,000 head.

NEW YORK, July 8.—The stock market developed rather more animation today and the volume of sales rose to more than double the recent average. The liquidation in New York Central and the continued pressure to sell United States Steel were the disturbing factors. There was no delimited the continued pressure to sell united states are delimited by the property of the purished weakdouble the recent average. The liquidation in New York Central and the continued pressure to sell United States Steel were the disturbing factors. There was no delimite news to account for the marked weakness of New York Central, but the tape was regarded as giving ground for ominous conjectures. These took form in various surmines as to the measures to be adopted by the corporation to secure the capital which will be required to carry ou the vast terminal and other improvements which nave usen undertaken. The fact of this capital required for this week was only conjecture. There were rumors of a projected issue of new stock of a bond issue and of a temporary loan on the security of the New York Central. The recent experience of the Pennsylvania in floating its new stock does not offer encouragement for a similar undertaking by other railroad corporations. It is borne in mind that the New York Central stockholders have authorized nearly \$18,00,000 of stock, which it lies with the directors to issue. It is also a fact that of the general refunding mortgage for \$10,00,000, authorized in 15%, \$35,000,000 was reserved for new construction after 1903. The market latte of incae bonds never fell below 101 until last week, when they sold at par and today they sold for \$8, without any large blocks being marketed in the interval. To infer an attempt to float a new issue of those bonds at present therefore seems unwise. These conditions gave color to the day's rumor of the negotiation of a loan of something like \$18,00,000, the rumor retoring the carrying of an interest total to be at 6 per cent. The usual parallels were also drawn between Pennsylvania and New York Central, which have been selling not a parity, while the former is paying 6 per cent dividends, with the next requirements yet to be met. The downward plunge of nearly 4 points in New York Central was the event upon which the whole market, Pig iron was marked down during the day and the rumors were current of a cut in steel billiets at Pittsburg. United States

of England and the Bank of France in their weekly statements today, following the semi-annual statements. Developments in the cotton and grain markets, the news of the crops and the statements of railroad earnings were entirely ignored in the day's stock market. Declines of 1 to 2 points were ouit's general and St. Paul, Reading, Norfolk & Western, Colorado Fuel and Tennessee Coal suffered even more severely. The bond market was heavy and sharp declines were scored in some inactive mortgages. Southern Railway, St. Louis Division 4s dropped 25 per cent Total sales, par value, \$2,555,000.

United States 2s advanced 1s per cent and the 3s, old 4s1s per cent.

8.60c; December, 9.6250.63c, January, 9.60c)
8.61c.

NEW YORK, July 8.—COTTON—Opened firm at an advance of 12 points to a decime of 1 point, the loss being confined to the January option. The gains were due to further bull support and firmer cables than appeted, particularly in regard to the spot cotton, which was 10 points higher in the English markea with sales reported at 14,000 bales. The bears were in no way disheartened, apparently, by this showing, however, with favorable weather all over the belt they all attacked the list vigorously, selling prices down from about 5 to 11 points. Then the offerings diminished and the bulls began to appear more prominently in the dealings from that time to the finish. At first the rally was slow and lacked the violence and activity which has recently marked the movement of prices, but finding the resistence of the bears becoming less aggressive the bulls bought more and more freely until at last nearby shorts had still confidence by the apparent powerlessness of the Wall street syndicate and reports of damage by boll weavil in Texas were in full retreat. In the last hour the market became very active and excited and the near positions were advanced in quite as sensational a manner as has yet been witnessed during the bull campaign. August had reached 12.67c; the 12.20c bid. No sales, finally a seller was found at 12.30c. Then 19.5c. a net gain of 11 points over yeaterday's final quotations, while september reached 16.80c, October, 9.88c; December, 9.74c, and January, 9.20c. In the last few minutes realizing eased off from 2 to 15 points on the market was finally steady net 5626 points in the last were estimated at 200,000 bales.

ST. LOUIS, July 9.—COTTON—Easy; 5-16c lower; middling, 125c; sales, 116 bales; receipits, 70 hales; stock

Weel Market.

ST. LOUIS, July 3.—WOOL—In good demand, strong; medium grades and combing, 186214c; light fine, 18618c; heavy, 1169 lic; tub washed, 19620c.

NEW YORK, July 2.—WOOL—Firm.

BOSTON, July 2.—WOOL—Has a better feeling this week, with less activity manifested. The poorer grade stiffened, but there is not much advance actually listed. Territory wools head the list. New fine wools are quoted at 5263c, with fine medium at 48636c and medium at 5646c. Old territory wool is quoted as follows: Finest staple, 5565c; fine medium, 1861c; fine medium, 18617c; fine medium, 18617c; medium, 18618c; fine medium, 18618c; Ene medium, 18618c; fine medium, 18618c; holoca, 186184c; staple, 18618c; medium, choice, 186184c; staple, 18618c; medium, choice, 18618c; staple, 18628c; medium, choice, 18618c; staple, 18628c; fine medium, 18618c; medium, choice, 18618c; staple, 18628c; medium, choice, 18618c; staple, 18628c; medium, 18628c; fine delaine, 86638c; Michigan X and above, 25628c; No. 1 and No. 2, 27628c; delaine, 28638c; Kentucky, Indiana, etc., & Blood, 23624c; & Blood, 23624c; braid, 18628c. There is a demand for Australian wools, thought the high prices prevent trade to a large extent. Prices are very firmly held here, as follows: Combing, choice, scoured basis, 8568c; good, 7869c; average, 75678c.

LONDON, July 8.—WOOL—The offerings

held here, as follows: Comiting, choice, scoured basis, Sigisc; good, Togosc; average, 75678c.

LONDON, July 9.—WOOL—The offerings at the auction sales today numbered 12,310 bales. Trading was brisk throughout. Merinos were in active request for the home trade and the continent. A large supply of cross-breds was offered and France was a free buyer, with the home trade and the continent taking fair quantitics. Scoureds were in active demand at the highest prices of the series. Cape of Good Hope and Natal greasy was not wanted and most of the offerings were bought in America took several lots of merinos and good, medium cross-bredt. Following are the sales in detail. New South Waites, 1800 bales; scoured, 545dits 10d, greasy, 7dells 1d. Queensiand, 700 bales; scoured, 1854dits 1d. Queensiand, 700 bales; scoured, 1854dits 1d. HCGS—There was not an excessive supply in sight this morning and the market here opened a big nickel higher, with the bulk of the sales going from \$5.42% to \$5.47% with a top at \$5.50. Trading was quite active for a time on the lightweight hogs, but the heavy hogs were neglected and sold at the lowest prices. It will be noliced that the lightweights are now topping the market. Toward the close the demand was not as brisk and the market grew rapidly worse until practically all of the advance was lost. Salesmen of course all wanted the morning prices, so that trading was very dull after the market weskened. Representative sales:

No. Av. Sh. Fr. No. Av. Sh. Pr.

80 120

SHEEP—Receipts of western grass sheep were quite liberal this morning, but the quality was common. Buyers were rather slow about taking hold, as they claimed that salesmen asked as much for common stuff as choice grades were selling for at other points. They have been complaining for some time that this is the highest market in the country and that they want to get prices down in line with other points. They did not succeed, though, in taking off more than a dime today, so that prices are still well in line. Some ldaho wethers of fair quality brought 3.55 and the yearlings from the same shipment sold for 3.85. Trading was rather slow from start to finish and it was late before the bulk of the offerings was disposed of.

There were quite a few feeders on sale and they met with a better demand than sold for \$3.25, which was pronounced a good, strong price as compared with recent sales.

Quotations for grass stock: Good to

GOSSIP OF COMMISSION ROW Mrs. Hen and Hen Youngsters Arc in Great Demand Just at

If a Mrs. Hen and a few of the youngsters were to venture down in the market district today, they would in all probability be injured by the rush of eager dealers anxious to gather them in. Since the Fourth of July fowls have been as scarce as the teeth of an extremely old hen. While before that glad day the dealers were playing safe and only buying at their own prices, and not much then, now they are taking all they can get at 9% or 10 cents for hens and from 17 to 20 cents for springs. The laborious farmer is busy with his farm and his wife will have to wait for her spool of silk until he has time to bring the peevish chick to town again. But there is one thing for him to remember, it will only take about twenty coops of birds in a day to weigh down the price as much as

Eggs have smashed. They cannot stand the hot weather any better than the butter or the fat man and are selling for 1314 cents and the impressarios who bring the country-breds to the wicked city look for a fall of 16 cents. Eggs can hardly stand to look the poncher in the face now.

Butter is weaker. In Colongo Wednesday outter which was offered for sale at 18% ents was very much sat upon, for the best bid was only 13 cents fist. Here it is still being bought at 13% cents, but will probably get down to 12 and a business unch before the summer is through with

Paper Company is Bankrept.

Paper Company is Bankrept.

PORTSMOUTH, N. H., July 9.—A petition for bankruptcy proceedings and the appointment of a receiver for the Whita Mountain Paper company has been filed in the United States district court hare and Judge Aldrich has appointed a hearing for July 20. The petition was presented by counsel representing Morse & Co., Bangor, George McQuesten and Shepard, Farmer & Co., Boston. The motion was apposed by counsel for the North American Trust company, the White Mountain Paper company and George W. Megeath and others, helders of \$345,000 worth of bonds. The North American Trust company has petitioned for an ancillary receiver, as has been done in New Jersey, but the request here has been refused.

Knapp Trial is Resumed. HAMILTON, O., July 9-The Knapp murder trial was resumed today, Lawver Darby having partially recovered. Mrs. Edward King White became feint on the stand and court adjourned until 1:20 p. m.
