Corn and Wheat Develop Strength as Day Wears on, Closing Higher.

OATS ARE EASIER AND DROP FRACTION

Provisions Stay Steady on Board of Trade, Selling About at Monday's Figures All Through Session.

CHICAGO, July 14.—Wheat showed strength except for a temporary decline early in the day and the close was firm at an advance for September of ⅝c over yesterday. Corn opened easier, but developed strength and closed with a gain of ¼@⅜c. Oats ruled easy, the close showing a loss for September of ¼c. Provisions held steady and closed at about yesterday's figures.

Good buying by large commission houses who were on the bear side yesterday caused the late strength in wheat. The buying was the result of a general impression that the decline of the last few days had about reached its limit and a free covering by shorts. There was a feeling of weakness soon after the opening, which was a shade to ⅛@¼c higher for September at 77@77¼c. Bearish weather advices and easier cables resulted in a decline to 76½c. With the improved demand, however, and light offerings a better market ever, and light offerings a better market ever, resulted and September went up to 77⅝c. The close was at a gain of ⅝c at 77⅝@78c. Clearances of wheat and flour were equal to 152,877 bu. Bradstreet's world's visible showed a decrease of 2,000,000 bu. Minneapolis and Duluth reported receipts of 130 cars, which, with local receipts of 72 cars—25 of contract grade—made a total for the three points of 202 cars, against 190 last week and 172 a year ago.

There was influential selling of corn by commission houses early on bearish crop advices, favorable weather and cables, and the market declined from the opening, which was easy at a shade to ¼@⅜c lower for September at 50¼@50½c. A sufficient demand developed later, however, to bring about a reaction, country offerings being light and sentiment divided as to the future trend of the market. September closed steady at 50¾c, a gain of ⅛@⅜c, after ranging between 49¾c and 51⅛c. Local receipts were 300 cars, with 28 of contract grade.

There was a fair trade in oats and the market ruled steady, with but little change in prices. Some of the big local traders are still bullish on the crop situation, but bought on the declines and saved any break in the market. September closed at a loss of ¼c at 33⅜c, after ranging between 33⅜ @33½c and 34⅛c. Local receipts were 290 cars.

A good demand from commission houses and brokers and some indication of support from leading packers held provisions firm. Offerings were fairly liberal, but not sufficient to more than supply the deficit. September pork closed 5c lower at $14.50. While lard and ribs were unchanged at $7.57½ and $8.30.

Estimated receipts for tomorrow: Wheat, 55 cars; corn, 180 cars; oats, 140 cars; hogs, 25,000 head.

The leading futures ranged as follows:

NEW YORK, July 14.—COTTON—Opened weak at a decline of 9@27 points under another sensational break in the Liverpool market, the excellent crop weather reported from the belt and a renewal of Wall street pressure. Just after the call August, which had closed the preceding day at 11.57c, sold at 11.50c, with September at 10.40c, July at 11.80c and October at 9.73c, these being net declines of from 11 to 25 points. Later Liverpool cables, however, reported a sharp rally in that market and the bulls again came to the support of local values and a rally of from 6 to 20 points was soon apparent. Then trading became less active and the market ruled about steady to midday, with the trade apparently waiting for the weekly crop report before operating aggressively. The report proved less bullish than had been expected and prices immediately broke 6@8 points under excited liquidation and a renewal of bear pressure. This selling soon exhausted itself and was followed by another slight rally under covering and bull support. Soon wire orders from out of town began to come in, however, and local bears were encouraged to sell the market by the weakness in Wall street. During the balance of the session the market ruled more active, with prices generally showing weakness. The close, while steady, was at a net decline of 15@35 points or about the lowest of the session. Sales estimated at 350,000 bales.

ST. LOUIS, July 14.—COTTON—Quiet, unchanged; middling, 12¼c; sales, 17 bales; receipts, none; shipments, 209 bales; stock, 3,020 bales.

Wool Market.

BOSTON, July 14.—WOOL—An improved demand, particularly for medium grades, and a gradual strengthening of prices on fleece and other descriptions most wanted at the present time are the features of the trade here. The American Woolen company, which operates thirty mills and a large proportion of the other manufacturers are in the market. The goods market is only weak on spot in sight. Recently, it is said, several manufacturers offered considerable quantities of low grade goods at about the same prices as last year. The wool trade had expected an advance. Quotations: Kentucky, Indiana, etc.—⅜-blood, 23½@24c; ¼-blood, 23½@24c; braid, 21@22c. Texas—12 months, 19@20c; 6 to 8 months, 17 @18c; fall, 15@16c.
