EX-GOVERNOR POYNTER TO BE THERE

New Normal School Likely to Be Held Up for Two Years for Luck of Funds for Running Expenses.

(From a Staff Correspondent.) LINCOLN, July 15 .- (Special.)-If the chief conspirators in the movement to or ganize and inject what they term a new reform party into the politics of the naanticipate eny assistance or advice from Benjamin Andrews, chancellor of Ne- date, branka university, they have bargained unwisely. The chancellor's name was included in a list of national celebrides published in the press dispatches this morning from Denver, the gentlemen mentioned tending the conference and alding in the formation of the new party.

Chancellor Andrews was sounded on the vited to the conference, and even if he had he would not attend.

"that I have had no invitation to am not in sympathy with any endeavor to start a new political party. My name was had heard nothing of the matter until I to keep the school in operation. read the account in a paper today. I have had no communication with any of the promoters of the movement, and my name must have been put on through some mistake. I would not attend under any circumatances.

"The only way I can explain the action of the parties who have thus used my name, is that it was on account of the fact thr.t I signed a paper some two years ago sauctioning a meeting that was to be held at Buffalo. It was represented to me that the Buffalo meetings were to have nothing to do with politics, but were to be the meeting place for a number of economists to talk over the labor and financial questions. I never attended any of those meetings, and in fact when I put my name on that paper I never meant to go, and told the parties so at the time. It is possible the Denver people saw my name on that list and for that reason they put me on the program."

Ex-Governor Poynter Will Attend. The press dispatches announces also that

ex-Governor Poynter of this city is to be among those in attendance, and that gentie today confirmed the truth of the report. 'Yes, I am going to Denver to attend that meeting," he said when shown the "The calling of this meeting is promoted by the fear that the reorganizers are likely to control the next democratic national convention. Of course the populists and kindred reformers are in no way in sympathy with that element of the demeracy, and should it obtain the ascendancy in the control of the democratic party there will be no other alternative for the reform element than in the organization of a new

There is a common ground of belief for populists, modern socialists and the Bryan mocrats. I do not mean the radical elements of socialism. We believe that these elements are prepared to act in harmony in opposition to the gold democracy and the republican party. Of course, if the reorganizers fall down in their plans to obtain control of the democratic party, this movement will never attain much force or headway, but the promoters of this proposed organization are determined that there must be no backward step on the part of the democracy if it would retain the support of the reform elements. Not only must there be no equivocation in the democratic platform, no desertion of the man known to be ardent and sincers in the advocacy of those principles if he is to get any support from the political elements that are involved in this Denver move ment. He must have a platform in general consonance with the Kansas City platform and he must be beyond suspicion as an able and ardent exponent of its principles "This Denver meeting will disclose to

some of the elements of the democracy that it is not woing to secure populist or reform support to that party if it puts up a platform that means something and a candi date that means nothing, or vice versa populists from this state in attendance at the meeting. C. Q. DeFrance is going. Edmisten is going, and I think Frank Eager will go also. The call for this meeting originated with J. A. Edgerton, secre tary of the populist national committee."

Others Also Planning to Go. Yes, I am going to the Denver meeting," said J. H. Craddock, "and expect to

talk on the money question. Mr. Berge is going, and a good many others that I know of. I. D. Chamberlain, formerly of this state but now in Washington publishing a paper, will go through here on his way to the meeting Mr. Bryan has been invited, but it is

stated in Denver that he has not yet accepted the invitation. He is now away from home, to be absent for several weeks. The Denver announcements declare that George Fred Williams of Massachusetts has wired the local committee that he is in entire sympathy with the movement, Attorney Darrow of Chicago, the mirrers' representative before the Pennsylvania coal written address to be read at the convention, Edward Atkinson, president of the Anti-imperialist league, is also among the expected visitors.

Governor Predicts Big Crops.

Governor Mickey, who has just returned from a trip to North Platte, where he deivered an address before the junior nor mal, is of the opinion that the state will have very large crops. He said this morning in speaking of his trip that he had never seen better wheat than on his way out to the school town. The oats he believes will make a bumper crop and he predicts that, taking the entire state as a basis for calculation, the corn crop will be a recof the state he believes that the rains durthe west will make up for any shortage that may result in the eastern part of the state.

While absent from the city Governor Mickey went to his Polk county home. He found that the recent hallstorm that passed through Polk county had devastated the crops on an entire half section of his land. An attempt was being made by the tenant to mow the wheat which had been beaten down, in order to save it. The corn was also badly cut up. Hallstones were found twenty-four hours after the storm had

Relies of Fusion Regime.

During the recent foray of his storekeeper clerk into the basement in making way for the cement gang, Adjutant General Culver unearthed several wagonloads of military reports published during the fusion regime. They cost the state a large sum of money and gave some supporter of the administration a good fat contract, but are of no value now, save as fuel for the furnace. Under the present regime the expenditures for such purposes will be cut down to the minimum. The munitions and equipment stored in the basement of the capitol are being shifted so that the cement cement floor. This it is hoped will ensure a dry place in which to store military supplies. During the past years the state has been called upon to foot a considerable loss due to mildew and dampness. This was one of the points raised by the regular army inspector when he examined the condition of affairs at the state house. He in sisted that the state ought to provide a betprinciples enunciated at Kansas City, but ter storage place, and the Board of Public the candidate of the party must be a Lands and Buildings took the matter up. When the new khaki uniforms are sent by the War department there will be a dry place in which to store them. Bhelves will be constructed on which to keep articles that are subject to deterioration when left in the wooden packing cases.

Culver in a Stew. ,

Adjutant General Culver is again on the anxious seat. For a long time he waited anxiously to hear from the War department that the Nebraska National Guard army maneuvers for this department at There will be probably quite a number of government expense, secure recognition under the Dick bu, that would enable it to have an encampment next year, the expense of which the government will pay Now that he has secured a favorable answer on that point he is again in something of a stew because the army authorities are liable to call out the guards without sufficient warning to enable its officers to provide suitable quartermaster and commissary supplies. He is now bombarding the War department with gentle but significant cominders that the members of the Ne braska National Guard do not live in barracks and that it is going to take reasonable warning to enable them to break away from their occupations and fall in fully armed and equipped for camp duty and scientific maneuvering.

The Omaha Auditorium association has just filed the amendments to its articles adopted at the meeting last March, relating to the increase in its capital stock, the official list, the time of meetings and the making of amendment to its articles of incorporation. The articles of the proposed Sloux City, Homer & Southern Electric commission, promises to send a railway, which have been in hand for some days, were today placed on file.

Interest to Lawyers. Lawyers of the state will be interested in a question that is now exciting considerable attention around the state house. It is whether or not the unofficial decisions shall not. Opinions handed down by the courf bothered recently with chicken thieves, who

While the law creating the State Printing board provides that it shall secure all state printing, it does not, it is claimed, repeal the law for the printing of supreme court reports, which provides that all opinions of the court shall be in writing and that the clerk shall procure their publication. Back of this controversy appears to be a question of patronage.

SKIN TORTURES

Thousands of wretched people are miserable -- driven almost mad by the terrible Itching and burning sensation of Eczema and other skin diseases; many imagine they are suffering from bad blood, when as a matter of fact the blood has nothing to do with it. These awful tortures are caused by little germs that attack the skin externally, which can be rooted out in a hurry, leaving the skin clear, soft and healthy. Such misery now cleared away as surely as the sun shines above. Not merely attempted, not a matter of improvement merely, not a temporary relief -- but a clearing of it all away absolutely and permanently.

THE . D. D. D. PRESCRIPTION

a specific formula, put up in sealed bottles with authentic label, has proven to be the only certain cure for these diseases. Its record of cures is astonishing, amazing, almost miraculous. It is a liquid, used externally, non-greasy. TRY IT ON OUR GUARANTEE.
