FORESEES

Wool Trade Fair, Mik Firm, Footwear Good and General Outlook Helped by Weather and Labor

Settlements.

NEW YORK, July 17 .-- R. G. Dun & Co.'s Weskiy Review of Trade tomorrow will Hall admitted that they had had some

Conditions continue satisfactory outside the region of speculation, many reports indicating further improvement. Larging recent months the two disturbing factors have been information of the fire and police board in order-ing music out of the

ing. Grops are making rapid progress and the army of unemployed is citainshing. Rali-way traffid is neavy, earnings thus far reported for July exceeding last year's by 18,6 per cent and those of 180 by 18.2 per yent. Retail trade in seasonable merchan-des is fully up to the average and there is less than the customary midsummer guiet among wholesalers, while the pre-paration of joobers and manufacturers indicate confidence in a targe fail business.

### Irou Market Unsettled,

strike

#### Cotton Trade Uncertain.

the raw material.

### EXPORT TRADE IS FALLING OFF.

REVIVAL healers, arrived in Onsains to occupy ago, and made arrangements to occupy two rooms at the Murray hotel for the purbealers, arrived in Omaha about a week SALOON pose of carrying on a business. According Weekly Review Dectres Much Exists to to reports they have been very successful. Their Avicoia ion Meets to Consider Recent as they have had from fifty to sixty callers a day since they have been established in Omaha. Hall was taken into custody first COTTON AND IRON BOTH UNSETTLED by Detectives MeCarthy and Madsen. When QUESTION POWER OF COMMISSIONERS he detectives called at the hotel Parker was not in, and they w we zorced to wait

about an hour for him to return. During that time about twenty people called to ace When searched at the station each of the

prisoners had a plentiful supply of money In his possession. Captain Mostyn tried to secure some information from the prisoners as to why they were wanted in Peorla. difficulty with a party at Peorla and had action of the fire and police board in order-

tion whan is in possention of the police now.

AGE TOLD BY THE CORK Shape, Size and Condition Indicates the Quality of the Wine

in the Bottle.

As a rule, the quality of the cork indi-

Irou Market Unsettied, Unsettied conditions still oxist in forge and foundry pig from markets, while Bea-sement from is only barely stemuy. The chief difficulty appears to be the inclination of prospective purchasers to wait far the lowest possible quotations. This is a condi-tion to be expected in a declining market, but appears unusually aggravating in the present instance. Current communication with distant deliveries. Bruetural steel begins to reflect the set-tiement of labor froubles in the building have been postponed until next year. Mer-chants' steel and pipe are in better de-mand, several large contracts being under negotiation. Steel raits are sold well into 1990 and other railway equipment is still one of the best features in the industry. Southern iron furnaces and steel mills are sfredet adversely by the coal miners' strike. Cate Trade Uncertain.

"How do you tell a good cork from a bad one. A good cork is long, to begin with.

There is a sensor of uncertainty in the manufacture of cotton goods owing to the artificial position of materials. Supplies of cotton goods in must hands are low and there is no effort to make spot sales. Buy-ers fill their requirements for immediate any inclination to anticipate needs of the contents of a bottle being the near future. As supplies diminish there is a corresponding stilfering production here and abread. Few light weight woolens are being opened Short corks always are the cheapest, and,

here and abread. Few lightweight woolens are being opened with fair results only, buyers exhibiting no anxiety regarding the future. Silks are firm owing to curtalled produc-tion and the high prices commanded by

The best of all the hand-made corks are the Boston footwear market, both on con-tracts for spring goods and supplementary fail orders. Failures this week were 213 in the United States, against 213 last year, and 16 in Canada, compared with 29 a year ago. in champagne bottles, where it is necessary to preserve the wines practically alr-tight to preserve the wines practically air-tight. Cork bark comes in bales, consisting of long, board-like slabs. These slabs are placed under high pressure on a plane sur-face, so as to flatten them out and to close the pores in the cork. Then they are cut required to show cause why it assumes into small squares, and, with a short, broad required to show cause why it assumes danseuse. She executes a solo hallet and
