After 31 years experience in treating this most dreaded disease I offer my services as an expert.

If you are a sufferer you wish to be oured, and in the shortest time and with the least pain. In is of vital importance that you get started right in your search for restoration to health.

The tendency of the century is to specialists. The owners of the big machine shops long ago found this out. You will find the finest machines in the hands of men who have been specially trained to that one machine, until aften 19 or 20 years constant training they become experts. They know their machine bey pulse best. Their practiced eye and delicately trained touch guarantees the best results, even though they know nothing about any other machine in the shop.

It is just so with me. I make no claim to cure every ailment of the numan machine, but I have made a reputation right here in Lincoln, Neb. and am anxious to send you the names and addresses of some of those I save treated and cured, even as long as 30 years ago

I AGREE TO CURE OR NO PAY-If, after diagnosis, I think I can cure you. I have practiced in Lincoln 15 years, and 16 years before coming here in Galesburg, Ill.
