The cardinal is the exact antithesis of Pope Leo, having none of the late pontiff's sympathetic and benevoient characteristics. somes from a noble Piedmontese stock and his nobility is shown in his haughty and austere bearing. He is not popular among his colleagues or the Romans, and his brasque manner has earned him the title of "the Pledmont bear." He is tall and robust and his 74 years are shown by the whiteness of his hair. His face has the tawny hue of old parchment and is deeply lined. Despite his austerity the cardinal's learning and plety are universally recognized. This is the man who for the time being is practically pope. It was he who issued the orders to clear the Vatican from intruders immediately following Pope Leo's death.

He was the greatest friend humanity has had, having been a student of socialistic and religious subjects and having given the world the results of his studies.

He was a man who was foremost in all the events of the world. His decision was felt alike in every country of Europe. No man had as much influence for good in the last two decades as he had. His prov-ince was neither politics nor diplomacy, but his hand was visible in most of the prom-inent eyents, and it was always for good. There has not been a character in our day, or in any day in the history of the church as pontiff, who has had so much to contend with as Leo XIII, and who has done the work so well. There has not been a question, from labor movements to questions of state, which he has not been called to pass upon, and his judgment has always been right. He was a man who seemed to understand always been right. He was a man who seemed to understand all things. Rubbing the afternoon sleep from their eyes, bare-headed men and women, many carrying babies, emerged from the darkened houses and cafes and besieged the of the Vatican. The transformation complete. The quick movement and tense feeling of the rapidly gathering crowd now permeated where a few minutes before there had been no sign of life. The French ambassador's carriage drove furiously from the Vatican and drew up at a nearby telegraph office. Without walting for the horses to stop the ambassador fumped out and notified his government of the pope's death. There soon followed the cardinals, who with set faces drove slowly homeward.

Behind the shutters of Pope Leo's room which still remain closed, all was over. The heavy bronze doors were swung to; and entrance to the Vatican was only obtained by knocking at the little wicket, which was closely kept within by the papal guard and without by the Italian police. The latter had been slightly reinforced, but had no difficulty in controlling the crowds, who were allowed to remain in the square, just as they were accustomed to do before the death, but not to enter the Vatican 4tself.

The extraordinary, the unparalleled interest with which the world during the last fornight kept vigil around the Vatican, where the old hero battled dramatically with grim death, is the mag-nificent tribute to Leo, which nothing could ever have evoked, save unusual grandeur of soul and unusual feats, the offspring of that grandeur. Great and good Leo truly was fashioned

Great and good Leo truly was fashioned so by nature and by grace divine. What a mind! Loftlest it was in vision, reaching out to vastest harizons, soaring upward to highest regions of thought and truth. And how quickly in action that mind of Leo was, that view piercing in glance. How rich and varied the store of knowi-edge. Rapidly as he conversed he would travel from literature to science and art, from theology to diplomacy-everywhere the manifest master; everywhere the cul-tured scholar.
