#### COMMERCIAL AND FINANCIAL

All Products Rule Weak and Close Down on Board of Trade.

WEATHER REPORTS CHIEF BEAR FACTOR

Provisions After Early Promise Are Influenced by Grains and Join in General Toboggan Slide to Lower Levels.

CHICAGO, July 20.—Weakness ruled in all the pits today, prices showing further losses. Wheat closed with September down 1c, corn % 10% clower, oats 10% coff and provisions at a loss of from 71% 11% c.

Free offerings, with lack of support, was responsible for the weakness in wheat, and although buying orders came in from St. Louis and temporarily checked the declining tendency, too much long wheat came out and prices continued to drop. September, which opened with a loss of % 10% c at 70% c to 70% c and sold up early to 70% c under the heavy liquidation inter, in which pit traders and commission houses joined, innuenced by good weather and crop reports, receded to 75% c, where it closed with a loss of 1c. There was some built news from the northwest, but the scarcity of buying orders rendered it of no effect. Local buils had wheat for sale and helped the decline. Primary receipts were 644,900 bushels, against 1,403,200 a year ago. Clearances of wheat and flour were equal to 27,700 bushels. Minneapolis and Duluth report receipts of 22 cars, which with local receipts of 82 cars, 44 of contract grade, made a total for the three points of 306 cars, against 271 last week and 409 a year ago.

The weather and improved crop reports

contract grade, made a total for the three points of 36 cars, against 371 last week and 49 a year ago.

The weather and improved crop reports were the ruling factors in the corn market and brought out some influential selling early, and the market never recovered. There was a fair demand at the opening decline, which in September amounted to 460 ½c to ½60% at 450,00% at coal buils offered little support and trade in the aggregate was small. September closed with a loss of ½60% at 45% after ranging between 45% and 45% at 45% after ranging between 45% and 45% at 45% after ranging between 45% and 45% coal receipts were 196 cars, with 10 of contract grade.

Onts followed other grains. The good grade of oats coming in was an additional weakening factor. There were but few buying orders and some short selling, resulting in a loss in September of 16% c, the close being at 31% c, with a range for the day between 31% 231% c and 32% c. Local receipts were 17 cars.

Some scattered buying early in provisions

ere 177 cars. Some scattered buying early in provisions

Some scattered buying early in provisions gave promise of a better market, but support was lacking and the grain markets influenced all lines. September pork closed 74,010c lower at \$14.30, lard was down 12½c at \$7.92½, with ribs off 19c at \$8.40.

Estimated receipts for tomorrow: Wheat, 155 cars; corn, 375 cars; oats, 400 cars; hogs, the contend The 'eading futures ranged as follows:

Liquidation Again Manifest, Fressave Centering on Individual Securities.

NEW YORK, July 20.—Liquidation was still manifest in today's stock market. The actual selling pressure was congested in individual stocks. The volume of activity was not general and the drooping tendency of the market seemed to be largely in sympthy with the weakness shown by special stocks. Professional bear tactics played a part in the day's declines, as was shown by the railles. But the demand on this account seemed to be soon satisfied and there was no disposition to pursue the buying on any advance. The high grade railroad stocks were less conspicuous in the weakness and showed some early positive resistance to depression. But the weakness became general before the day ended. High-priced, inactive stocks continued to suffer severely from the execution of very light selling orders, as for some time past. Delaware, Lackawanna & Western broke 11% to 25 to a single transaction and immediately railied several points, but soid as low as 25 later. The old Chicago, Rock Island & Pacific stock soid at 14°, compared with the preceding sale last January at 309. Various securities embraced in the widely ramified Rock Island system were under severe pressure, including Rock Island common, which sold at new low record at 25. Suggestions of a project for a new divisional arrangement of the system, involving a heavy issue of refunding bonds, were published during the day. It was believed also that the holdings of Rock Island, which were kequired as a result of the absorption of the St. Louis & San Francisco, were dislodged and forced upon the market by the attack of the bears. Another center of disturbance was Analgamated Copper, which dropped to 44%, a new low record. The seling of this stock was unexplained by any new developments, but its weakness aroused misgivings among shareholders as to the affairs of the corporation and induced additional selling. Colorade Fuel's fail to 50 was accompanied by rumors of the necessity of new issues to take car Liquidation Again Manifest, Pressare Centering on Individual Securities.

There were some points of resistance in the bond market, but other points showed weakness. Total sales, par value, \$1.517.000. United States bonds were unchanged on last call.

NEW YORK, July 20.—COTTON—Opened steady at unchanged prices to a decline of 2 points, following lower English cables than expected. The market soon rallied, however, under light bull support, and thereafter, while very quiet, ruled moderately steady. The only feature in the market was the action of July, which was bid up from 12.20c to 12.45c, only four sales being made on the way up. August sold as high as 12.10c, but eased off slightly toward the finish, closing at 12.06c. The balance of the list showed little movement and at the end of the session was within 1 to 5 points of the best for the session. The market was finally quiet and steady, net 1 point lower to 20 points higher, July showing the most gain. The early selling was encouraged by the favorable weather.

ST. LOUIS, July 20.—COTTON—Spot, moderate business done; prices unchanged; American middling, 630d. The sales of the day were 6,000 bales, of which 1,000 were for speculation and export, and included 5,800. American middling, 6,80d. SETTLES POINT OF ETIQUETTE Judge Berks Passes on Question of Propriety Brought Up in

in police court yesterday morning by ruling that a stranger in the city on becoming ac the right to walk down Farnam street with her without being liable to the assaults of her husband and a friend. This little experience was the hand that fate dealt A. A. Tullas, who brought in a load of cattle from Gillette, Ia. After transacting his business at the yards he met Mrs. Myrtle Gill. Farnam street looked good for a peaceful promerade, but it wasn't, as on this thoroughfare Frank Gill, husband of the woman, chanced to be. He had a companion with him and the two proceeded to chastise the stockman. The latter defended himself in hearty fashion and when the officers arrived he had so far conquered that he was ready for the crown of oak leaves. The victor and the

Bulls were not very active, but sold in about the same notches they did iast week. Veal caives also held steady at the decline. There is nothing new to report regarding the stocker and feeder situation. Receipts were very light, and so also was the demand, so prices showed very little change, Desirable grades, though, sold fully steady, with others slow. Representative sales:

GOSSIP OF COMMISSION ROW

California Plums, Pears, Apricots and Peaches Are Giving Beauty

market. It is the Californians. Voluptuous black plums, symmetrical early pears, blushing apricots and sweet peaches, all only wanting the late freestone peaches to be all that is possible. A few of the early frees have been in during a few days off and on, but in a day or two the regular shipments will begin. The pears are wearing a neat green uniform without gaudy trimmings, but are nevertheless being carstill at \$1.35. The always-to-be-had orange is rather overlooked these days in the clamor for the more irresponsible fruits, but certain people who value its steady worth are taking it at prices ranging from

\$3,25 to \$4. A little reception had been prepared for some Texas cantaloupes raised from Rockymorning, but the poor melons were in such a maudlin state that none were sold. They had been too long on the stopover graft, but others are expected Tuesday and will sell at \$2 or \$2.25. Currants and gooseberries have been with us some days, small parties coming here from Chicago and Colorado with the idea of opening headquarters here. The local crops will mostly come in cold and frozen this time. Too few of either have reached the market so far and the currants are selling at \$2 and the gooseberries at \$2 per sixteen quarts.

This is blackberry week. The sleek Nublans will overflow the market during the week like the Kaw did in Kawtown and the busy housewife will now do \$14 worth of work for a dozen jars of berries. Two dollars is about the figure now. The berries from other states have done nothing this year to raise them in the esteem of buyers.

KANSAS CITY. July 20.—CATTLE—Receipts, 4,120 natives, 2,300 Texans, 700 native caives, 600 Texas caives; corn-fed cattle active to 10c higher; quarantine strong, stockers and feeders higher, cows and helfers 10c higher, caives strong; choice export and dressed beef steers, 34,6095,20; fair to good, 54,1094,50; stockers and feeders and feeders and feeders and feeders, 22,5694,25; western-fed steers, 35,0095, 40; Texan and Indian steers, 32,7594,40; mixed packers, 52,2693,00; native cows, \$1,5095, 40; native helfers, \$2,0095,50; HOGS—Receipts, 3,500 head; market opened stendy, closed weak; top, 35,46; bulk of sales, 55,224,65,55; hels, \$2,1093,75; caives, \$2,2095,50; head; market steady; lambs, 10c higher; native lambs, \$3,2095,60; Texas clipped sheep, \$3,0094,50; Texas clipped sheep, \$4,000,000,50; T
