KINGSTOWN, Ireland, July 21.-King Edward and Queen Alexandra, accompanied by Princess Victoria and their suites, arrived here at 5:35 a. m. On arrival a salute was fired. A heavy

rain, which had been falling since an early hour, ceased at 8 o'clock and the sky cleared, giving promise of fine weather for the royal entry into Dublin. In replying to an address here, King Edward said he shared in the sadness of

multitudes of his subjects over the news of the pope's death. The king added that his visit came at a time when a new era is opening in Ireland. A special performance, which had been planned for the royal theater in Dublin

July 24, has been countermanded in consequence of Pope Leo's death.

Rain Spoils Decorations. The morning's rain had bedraggled the decorations, which had been most effectively carried out everywhere. There were signs of welcome on the private and public buildings and small craft and the great battleships in the harbor were gay with flowers, flags and bunting.

Thousands of people lined the streets and wharves, awaiting the arrival of their majestics. While they were gathered, a note of mourning was sounded amid the general rejoicings. It came from the great bell of the Roman Catholic church of St. Michael, which was tolled solemnly in memory of the pope, whose death undeniably mars the spontaneity of the wel-

Their majesties were rowed from Victoria and Albert in a royal barge to the Victoria dock, where they landed at 11 o'clock. They were received by the earl of Dufferin, lord lieutenant of Ireland, and a number of officials and were conducted to a pavilion, where an address of welcome was read on behalf of the Kingstown municipal council.

Immediately after the ceremony their majestles, accompanied by the lord lieutenant and a brilliant staff, and escorted by horse guards, drave off in the direction of Dublin, amid the greatest enthusiasm on the part of the growds lining the road between Kingstown and Bulla bridge.

URGES UNIFORM FOOD LAW Dairy Commissioners' President Declares Manufacturers Take Advantage of Lax Legislation.

ST. PAUL, July 21.-The convention of the National Association of Dairy and Food Commissioners convened today, President V. J. Bailey of Oregon presiding. A. H. Jones, commissioner of Illinois, responding to the governor's welcome, said the movement which the association supported was just beginning to mean something to the public. Illinois gave \$340,000 to its national guard and \$35,000 to its dairy commission, while Kentucky gives but \$7,500 annually to its commission. President Bailey said: The work of the association is in

fancy, but is growing, and if only public sentiment is behind it, it will accomplish great good. A national pure food bill must be prepared by the commissioners, those which have been introduced in congress having failed.

It is important to have a uniform law for all states, it is essential to incorporate in the new law a regulation of weights and measures for the country. At the present time manufacturers make one brand of goods for a state where the laws are lax and a better for states which are most strict.
