COMMERCIAL AND FINANCIAL

Government Reports Aid Wheat Till Sellers Flood Market and Cause Slump.

CORN AND OATS HARDLY CHANGE AT ALL

Provisions Range Between Tuesday's Prices and Ten to Twelve Cents Advance on Board of Trade.

CHICAGO, July 22—Wheat ruled weak after a rather firm opening and the close was at a loss for September of &c. Corn was steady to a trifle easier, September closing &c lower. Oats were strong early, closing firm at a gain of &c. Provisions were unchanged to 10212c higher.

The effect of yesterday's builish government report stimulated the opening in wheat and caused some early strength. September was a shade lower to a shade higher at 784c to 764c, and soid up quickly to 764c. On the advance, however, the pit traders soid freely and support was lacking. The result was an easing off in prices, which was furthered later in the session by the unloading of long lines and by selling orders from St. Louis. September went down to 764c where commission houses cheeked the decline and carried the price back to 46%c, the closing figures being 754g 754c, &c under yesterday.

Clearances of wheat and flour were equal to 100,300 bu, with primary receipts 487,000 bu, against 1,008,000 bu. a year ago. Bradstreet's world's visible supply showed a decrease of 2,229,000 bu. Minneapolis and Duluth reported receipts of 129 cars, which with local receipts of 45 cars, 15 of contract grade, made a total for the three points of 174 cars, against 189 last week and 491 a year ago.

There was a good country and commis-

grade, made a total for the three points of 174 cars, against 189 last week and 491 a year ago.

There was a good country and commission house demand for corn early increasing reports of uneven crop, and the market showed strength. The break in wheat later brought out liberal offerings and the advance was soon lost. September closed steady with a loss of ½c, at 4%c, after ranging between 49½c and 50%c. Trade was not large and small receipts and firm cables helped to sustain prices.

Trade in oats was largely local and prices were somewhat better. The action of wheat caused a feeling of duliness but a continued support by local bulls on unfavorable crop advices saved the market from a severe break and the close was at a gain of ½c for September, at 32½633%c. With a range for the day frem 32½633%c. There was some improvement in the cash demand. Local receipts were 164 cars.

Provisions were strong due to fair local buying and an absence of outside liquidation, together with a better feeling in hogs. Trading was rather quiet and without feature. September closed unchanged at \$14.55, with lard 10%12%c higher, at \$7.9007.57%, and ribs up a shade at \$8.768.40.

Estimated receipts for tomorrow: Wheat, 40 cars; corn, 120 cars; cats, 175 cars; hogs, 25.000 head.

ears; corn, 130 cars; oats, 175 cars; hogs, The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y.

firm and where goods are wanted for im-mediate shipment high prices are being puid. The market, however, lacks specu-lation and conditions are likely to remain unchanged until the jobbers fall trade commences in earnest.

NEW YORK, STOCKS AND BONDS. After All Day Sec-Saw in Values

Prices Recover Somewhat. Prices Recover Somewhat.

NEW YORK, July 22.—The price level of securities made some recovery today in an irregular market. The opening rise met renewed selling, especially in the United States Steel stocks, which caused a wavering in the whole list. With a relaxation of the urgent pressure upon these stocks the market took a better tone and started more steadily upwards. There were occasions I slight reactions, but the trading fell away to normal proportions at the recessions, until the last hour of the session. At this time the market paused for a time and then turned downwards on a growing volume of selling and closed easy. The principal active stocks had been lifted from 2 to 3 points over last night and the revolume of selling and closed easy. The principal active stocks had been lifted from 2 to 3 points over last night and the reaction left them not more than helf of the extreme gains. The upward movement of prices was accompanied by as little as the recent severe declines, but the pressure to sell was not felt and a partial rebound was normal. The demand from the shorts was an important element in the buying, as a matter of course, after so violent a decline as that which has been occurring. No other inducement to cover shorts was needed than the fallure to dislodge stocks with the recent customary ease. The alarming rumors of financial difficulties were numerous, yet all falled of corroboration today, and this formed a negative influence on the buying side of the market. Some of the commission houses profess to have some buying orders of an investment character. These were not in large amounts and they did not follow the market far on any advances. The rise in the dividend rate on Erle's first preferred from 3 to a 4 per cent basis made itself felt to some extent in the market. Many past hopes of dividend increases, raised by the large surplus earnings, reported by various railroad companies have been held in abeyance since the period of putting surplus earnings back into improvements, and sometimes in addition issuing bonds for additional improvement funds. Some of the high prices of last year in stocks were based upon probable dividend increases which were box, \$1.25, P. D., per box, \$1.35.

Bank Clearings. OMAHA, July 22.—Bank clearings for today were \$1,129,841.55; increase over corre-sponding day of previous year, \$153,279.32.

When the series opened, merinos ruled unchanged, but inferior greasy and faulty scoureds were somewhat irregular. Subsequently all except the better grades of greasy weakened and declined 5 per cent below the May average. Toward the end of the series these graftes were steadler, but the loss was not recovered. Finest greasy crossbreds were always in demand, occasionally realized 5 per cent advance. Medium and coarse at the opening of the sales advanced 7½ per cent and under considerable American purchases, closed 10 per cent higher. Scoureds which freely offered sold unevenly, medium declining 5 per cent. South African wool was not in great demand and withdrawais during the series were larger than usual. All South African grades, except light combing greasy and super-snowwhites, declined 5 to 7½ per cent. During the series 155,000 bales were catalogued, of which 80,000 were taken by the home trade, 63,000 by the continent, and 5,000 by America. There were 8,000 bales held over for the fifth series. At today's sales 7,142 bales were offered. Fine qualities were firm. Following are the sales in detail: New South Wales, 700 bales, scoured, 5½d@ls 8d; greasy, 3d@ls, Queensland, 500 bales, scoured, 11d@ls 10½d; greasy, 9@lid. Victoria, 100 bales, scoured, 6½d@ls 7casy, 7½@9d. New Zealand, 1,100 bales, scoured, 6½d@ls 6½d; greasy, 3½d@ls 1d. Cape of Good Hope and Natal, 600 bales, scoured, 9½d@ls 6½d; greasy, 5½d@ls 6.

NEBRASKA.

Commercial Transmission of Marconigrams

Is being rapidly developed, and plans already perfected comprehend the establishment of wireless stations on the Atlantic coast, in Cuba, Porto Rico, Alaska and at various strategic points on the Great Lakes. The recent sale of part of its treasury stock has provided additional working capital to a sufficent extent to to develop the

Dividend-Earning Capacity of the Marconi Wireless Telegraph Company of America

The vast possibilities presented for the operation of wireless telegraphy in the field occupied by the American Company, should destine its stock to be one of the

GREATEST DIVIDEND PRODUCING

Sources in this country. The present opportunity is the only one offered the public to share in the development of the Company.

HOGS—There was only a fair run of hogs
here this morning and under the influence
of a good local demand the market opened
fairly active and generally 2½65c higher
than yesterday's average. The heavy hogs
sold largely at \$5.27½ to \$5.25, with the
mixed loads going at \$5.25 and \$5.27½. The
choice light weights went from \$5.30 to
\$10.35. Trading was quite brisk and the
bulk of the carly arrivals was disposed of
in good season. About the middle of the
forenoon, however, some late trains arrived
and by that time packers had their mere
urgent orders filled, and as a result they
lowered their bids and did not want to pay
more than steady prices with yesterday
for what was left. Salesmen all wanted
the advance paid in the morning, so the
close was very slow. Representative sales;
