COMMERCIAL AND FINANCIAL

Good Weather Revorts Weaken Grains, but Cause No Slump.

PROVISIONS FALL IN SYMPATHY WITH HOGS

Wheat, Corn and Oats All Drop from One-Eighth to One-Quarter of & Cent on the Board of

Truce.

CHICAGO, July 24.—Wheat held about steady at a small decline in prices, September being down at the close Mc. Corn was strong early, declined, but himed up again, Sespember closing Mc lower. Outs were slightly easier, closing Mc lower. Provisions were down 1821/Mc.

The opening in wheat showed an easier tome on the capies, but a good demand, hased only on reports from the northwest, forced an early advance, september I selfing up from the opening, 79%gréige, to 79%gróige. Offerings became free at the advance, however, and resulted in a break to 79%gróige. The market was soon oversold and a better tone followed when the trade started to buy back and the close was at 70%gr, a loss of Mc from yeaterday. The late armness in corn also helped the tone. Clearances of wheat and flour were equal to 390,000 bu. Primary receipts were \$51,000 bu. against 1,150,000 bu. a year ago. Minneapolis and Duluth reported receipts of 180 cars, which, with local receipts of 60 cars, 25 of contract grade, made a total for the three points of 16 cars, against 25 cars last week and 407 a year ago.

Lack of damage reports and more favorable weather caused corn to lose much of yesterday's strength, but on the other hand the market displayed little weakness, there being enough support to hold prices near the opening figure. There was a modof yesterday's strength, but on the Constant hand the market displayed little weakness, there being enough support to hold prices near the opening figure. There was a moderately large trade with plenty of activity on both sides. Beptember closed 'sclower at 50%c, after ranging between 50%c and 51%c. Local receipts were 125 cars. With 5 of contract grade.

The oats market was quiet. The close was at 1%c loss for Beptember at 33%c, the range of prices being 33%c to 35%c. Local receipts were 133 cars.

Provisions showed a decline in sympathy with a lower hog market. Early prices were a fraction under yesterday's and with but slight demand eased off, closing weak with September pork 20c lower at \$14.12, lard 22%c down at \$1.55 and ribs off 15c at \$3.27.

Estimated receipts for tomorrow: Wheat, 60 cars; corn, 175 cars, oats, 190 cars; hogs, 12,000 head.
The leading rutures ranged as follows:

TRADE IS UNUSUALLY BRISK

Dun Declares Customary Summer Dullness Less Notable Than Expected.

STOCK SLUMP HURTS STEEL MARKET

Labor Settlements Aid Most Industries, but Woolen Prices Fall and Cotton Production is Curtailed in East.

NEW YORK, July 24 -- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

The tenor of dispatches from nearly every section of the country indicates that there is less than customary mid-summer duliness in business and collections are more ness in business and collections are more promptly met than usual. A large proportion of the unions have signed a working agreement with the employers and fully one-half the men have returned to work. Railway earnings reported for July exceed last year's by 12.9 per cent, and those of 1801 by 14.2 per cent. Farm work still retards rail distribution of merchandine in western sections. Foreign trade at this port for the week shows a gain of \$2,580,209 in value of imports as compared with the same week last year, while exports decreased \$60,002.

Stock Exchange Slump Hurts Steel. Good news as to the progress being made toward settlement of labor disputes was neutralized by the decline in securities in so far as the iron and steel industry is conor har as the fron and steel industry is con-cerned. There were many indications that the interruptions from stocks would be less frequent in the immediate future and there was a general disposition to fully sustain prices. But the heavy liquidation and new low record prices for steel issues has much influence on conditions in the actual busi-ness.

ness.

Nearly half a million tons of steel rails Nearly half a million tons of steel ralls have been ordered for next year's delivery and other heavy steel shapes are attracting close attention. The trade will benefit by the greater stability of prices secured through the revival of the billet pool. Bessener has steadled, bringing out new orders, but there are still evidences of weakness in other classes of pig from General resumption of structural work in New York is the most important element in the steel industry at present.

is the most important element in the steel industry at present.
Footwear factories have much work in sight, buyers having placed orders freely, and there are still many representatives in the Boston region from which shipments continue to eclipse all earlier records. Quotations are fully sustained and new business is well distributed. Thus far there is no reflection of this activity in the leather market. Heavy receipts of live stock following the action of poor quality hides early in the year explain the unsatisfactory situation in the Chicago market and foreign dry hides have also lost another fraction.

Wool Prices Are Reduced.

Wool Prices Are Reduced.

The unexpected happened in the market for woolens. It was confidently believed that new lines of staple piece goods would be opened at fully maintained quotations, but the American Wool company reduced prices to about the same level as existed a year ago, despite the material increase in raw wool and several other items in the cost of production. The cut was evidently made to secure business rather than because of any weakness in the market.

Buyers are still able to delay placing a large amount of business with the cotton mills and there are daily additions to the number of idle spinners as the supply of raw material gives out. Domestic mills are curtailing productions of cotton goods and inflated prices are only made possibile by speculative selling.

Failures this week numbered 191 in the United States, against 208 a year ago, and nineteen in Canada, compared with seventeen last year.

for the week number 193, against 173 1 week and 178 in the like week of 1902. Canada for the week they were two against thirteen last week and sixteen
