The Board of Public Works held a ses-sion Friday afternoon and by a vote of i to i established a preferred list of resi-dents of the city who are to be employed upon public work. The matter came up when City Engineer Rosewater submitted to the board a list of persons who had been diamissed as no funds were available to the board a list of persons who had been dismissed as no funds ware available for street work, the list including all per-sons employed upon street work other than cleaning of streets. Comptroller Lobeck asked if these men could not be rotained in the employ of the city, but not to be put upon the payroll until such time as put upon the payroll until such time as put upon the payroll until such time is structed charged with getting the structure of the available. He objected to dismissing men and then having to again submit, lists to the council when funds would be available. The city engineer replied that in his communication he had followed the language of the charter, and the second the recommendations. The recommendations were rejected and then a motion by Comptroliar Lobeck was passed whereby the persons dismissed last week were restored to their previous positions. The engineer was then instructed to put the men on the list to work only when funds are available.
Another tilt came when Engineer Rosewater reported that he had dismissed 8. funds would be available. He objected to money

the purchase of land by a foreigner from native owners is not allowable under the naval enactment. Mr. Brancht says that Gurr has accomplished this evasion through his native wife. Her relatives purchase the land for her with money furnished by Gurr, and she gives him the title. The communication further states that the natives are required to pay taxes in dried cocoanut and not money. In one case a village having that meet explained the reason.
