

SALARY CLAIMS ARE HELD UP

Public Works Employees' Budget for April and May Rejected by Council. ZIMMAN CASTS THE DECIDING VOTE.

Anticipating Scheme of John T. Cathers to Enjoin Payment Councilmen Dispose of Matter Without Aid.

With Attorney John T. Cathers in the near middle distance, his pockets bulging with petitions for a temporary injunction, the council yesterday morning, by a vote of 8 to 4, rejected the April and May salary claims for public works employees, amounting to all nearly to \$2,500.

The meeting was a special one, held to pass the July salary appropriation ordinance. Into it had been placed, by order of the council, the claims of the public works department employees for April and May, which have been disputed because it is claimed they were not legally at work under the charter amendments made by the late legislature.

President Zimman had heard of the injunction proceedings which Attorney Cathers threatened to begin if the claims were allowed and which would restrain the comptroller from signing the warrants.

President Zimman explained the situation like this: "If the claims should be allowed and a restraining order issued it is more than likely that the city council would be compelled, permanently, to pay the money. This would tie the hands of the city government so that it could not remunerate persons for actual labor performed."

FLORENCE COMPANY MUST ACT Compelled by Day's Decision to Bring Ejectment Suit in Breckenridge Flack Case.

Judge Day yesterday afternoon decided the application for preliminary injunction brought by Annie E. Breckenridge against John F. Flack and the Florence company in favor of the plaintiff and issued a temporary injunction restraining the defendants from entering upon the land of the plaintiff or from removing fences and growing crops from her land.

The case is an interesting one from the fact that it is the first attempt of the Florence company and its president, Mr. Flack, to get possession of property which they secured by tax foreclosure a number of years ago and to develop the land for the purpose, ultimately, of placing it on the market. The plaintiff in the action claimed to hold not only the four blocks covered by the injunction, but certain additional land, which upon the showing adverse possession for the statutory term of years, she was entitled to.

RAILROADS HURT BY RAINS Northwestern, Illinois Central and Milwaukee Report Washouts

NO MORTALITIES ARE HEARD OF FROM ANY Roads Address Themselves at Once to Task of Repairing Damages and Clearing Their Tracks.

As a result of the rains of Sunday night traffic from Omaha to the east and the north over the Chicago & Northwestern, the Chicago, Milwaukee & St. Paul and the Illinois Central was interrupted Monday morning.

The Milwaukee and Northwestern were more seriously inconvenienced and had not been able to get their Chicago trains in or out of Omaha at 3 o'clock Monday afternoon. The Milwaukee train is expected in over the Illinois Central at 3:30, while the Northwestern is expected to arrive between 4 and 5 o'clock. The different trains to the east and west over both the Milwaukee and Northwestern have been consolidated and are being run as single trains. The Illinois Central reestablished its Chicago-Omaha service in a very short time.

The rains not only washed out the tracks but tore down the wires, so that it is difficult to secure accurate information, but it is certain that the Northwestern had a serious washout between Loveland and Missouri Valley at Honey Creek. While the local offices have no official information it is understood that train No. 172, the first freight from the washout at Honey Creek early Monday morning and was badly piled. No lives were lost. There was also a washout at Logan, Ia., on the Northwestern, Sunday evening, but this has been repaired. The Northwestern has ordered all trains back to Des Moines, from where they will be brought in over the old line through Mondamin.

Serious Accident at Manila. The Milwaukee had a very serious washout at Manila, Ia., and had not finished repairing it by 3 o'clock Monday afternoon. All of their east and west trains are to run over the Illinois Central tracks until the repairs are completed. The Illinois Central washout was at Woodbine and was repaired by 9 o'clock Monday morning.

To the west of Omaha none of the roads was troubled with washouts, although there was a little soft track on several of the branches in the low lying valleys.

Service to Sioux City on the Northwestern was resumed at noon on Monday after having held all of the outgoing trains at Council Bluffs since 4 o'clock in the morning.

A GENUINE Clearing Sale

Is going on in every department in our store. It's a bright, active sale of new, useful goods—goods exactly suited to the next six or eight weeks. It's not a "slaughter" sale! It's not the greatest sale that ever happened! It's not a hurrah effort full of excitement! It is simply a good, clean, honest effort to sell the balance of summer goods we own, by gently, yet surely, lowering the price here and there where good common sense demands that it be lowered. We're not overloaded with summer goods. Most of these goods we offer in this genuine clearing sale are recent purchases. Some of our buyers are now in eastern markets working like busy bees, others will leave in a few days. They're buying, and have been for weeks, the goods you want, and of course at remarkably low prices. This genuine clearing sale, clears up the atmosphere and makes it easy for us to "sail" into the autumn business in a few weeks in the finest possible fighting trim.
