Only a Moderate Business Attend: Board of Trade Brokers' Efforts.

GRAINS CLOSE UNCHANGED TO HIGHER

Provisions Are Forced Down Little by Selling Pressure Induced by Local Packers.

CHICAGO, Aug. 6.—There was only a moderate amount of business in the grain and provision pits today and after a rather nervous session wheat closed strong, September being 142 chigher. September corn was unchanged, oats were up 14c, but provisions were from 24c to 174c lower. Wheat ruled rather quiet throughout the day. Opening prices were weak on lower cables and more favorable weather in the porthwest. September being a shade to 140 lee lower at 74779 c. The market continued weak the first half of the session on an entire absence of news which could be construed as favorable to the buils, but toward the noon hour there was fair buying by speculators and the price again recovered. One of the main causes for the advance was the good export demand at the seaboard. Offerings were limited the latter part of the day and this fact contributed to the latest strength. Under these influences September sold up to 20%c, and closed at 8046850%c, a net gain of 267%c. Clearances of wheat and flour were equal to 22,400 bu. Primary receipts were 552.300 bu., against 290,400 bu. a year ago. Minneapolis and Duluth reported receipts of 11 cars, 29 of contract grade, made total receipts for the three points of 29 cars, against 191 cars last week and 350 cars a year ago.

Trading in corn was comparatively slow owing to a lack of selling pressure and to a scarcity of outside buying orders. Favorable weather conditions west and southwest caused some selling early, but offerings were well taken by local traders. The late strength in wheat helped corn prices and the close was steady, with September unchanged at 52%c, after selling between 35%c and 55%c, after selling between 15%c and 55%c, after selling between 16%c and 54%c. Local receipts were 89 cars, with 12 cars of contract grade.

Onts sympathized somewhat with the early weakness in wheat, but offerings were rather light and prices recovered without much from some prominent commission houses. The close was firm with September 1/c higher at 34/c, after ranging between 35%c and 34 The leading futures ranged as follows:

NEW YORK, Aug. 6.—DRY GOODS—No improvement in first hands conditions is noted, and buyers are still operating in a hand-to-mouth manner. Jobbers continue to do an increased business, but it will be some time before this increase is reflected at first hands. There is no doubt that with the increased curtailment certain lines will be difficult to secure, but no famine is expected.

NEW YORK STOCKS AND BONDS.

Wall Street Sees Daylight, Prices of the young churks, 961-12, controlled the street of the street o Wall Street Sees Daylight, Prices Jumping Under Brisk Demand, favorite rumor was that a coalition had been formed among the most powerful capitalists in the country to buy all stocks that were offered and to lend freely to the distressed interests in the market. This rumor presented so pleasing a prospect that everybody who gave credence to it was disposed to buy stocks to the extent of his ability. The professional traders short of the market were. of course, foremost in this eagerness. As a matter of fact, there is reason to believe that an exchange of views on the situation among important capitalists has disclosed an agreement of A opinion as to the advisability of avoiding the further selling out of collateral as far as possible. But the lenders in the stock market show considerable variation in the policy pursued in this matter, as was disclosed by further closing out of collateral this morning. There was as little in the news of the day to account for the rally as there has been for the recent heavy deciline. Liquidation in grain and cotton was supposed to be induced to some extent by the threatening situation in Wall street and the rise in the call loan rate to 4 per cent this afternoon was said to be due in part to the cancellation of some loans in cotton. The movement in call money did

the threatening situation in Wall street and the rise in the call loan rate to 4 per cent this afternoon was said to be due in part to the cancellation of some loans in cotton. The movement in call money did not affect the latest strength in stocks. The trade reports on iron and steel gave prominence to the difficulty of financing new undertakings on account of the money and securities markets situation and cited cases of postponement of deliveries and even cancellation of orders. Passenger rate disturbances in the west and northwest are said to be threatening. There were continued large offerings of loan bills in the exchange market, but these were viewed as reflecting some pressure for funds which could not be satisfied in the domestic market. The further obligations thus incurred are also considered not to strengthen the situation. The great relief felt that no further casualties occurred in the Stock Exchange circle carried all other considerations before it and resulted in the violent rebound in prices.

Speculative bonds made recoveries in sympathy with stocks. The general bond market was irregular. Total sales, par value, \$1.00,000. United States bonds were all unchanged on the last call.

Following are the quotations on the New Tork Stock exchange:

was an aggressive seller, particularly of August and September, and the former option, meeting with little support, showed considerable weakness, which soon spread to the balance of the list, while selling was also encouraged all along the line by the generally favorable climatic conditions in the cotton belt, the somewhat better average of private crop accounts, unsettled conditions in Wall street and continued reports of diminished demand from spinners. August was forced down to 11.30c, September to 10.31c and October to 9.78c, with the general list showing a net loss of from 3 to 40 points. At the decline, however, offerings became less pressing and during

Wool Market.

Cattle. Hogs. Sheep. 127 245 400 355 1,019 507 482 1,401 596 513 1,287 372 Buyers. Cat Omaha Packing Co....... Swift and Company......

Beef steer buyers did not take hold of the corn-feds very freely, and that was par-ticularly true of the part fat kinds. The prices paid were not much worse than those in force yesterday afternoon, but they were 15£20c lower than those paid on Tuesday. Packers did not seem to care whether they got many cattle of that kind or not, and as a result it was impossible. or not, and as a result it was impossible for salesmen to prevent the break. Liberal receipts of grass cattle at the southern markets of course hurt the market for the medium and common kinds of corn-feds. Strictly choice cattle were about steady with yesterday, as high as \$5.15 teing paid. The demand for cow stuff was more active this morning, and as supplies were light all the buyers jumped in and paid stronger prices. Anything at all desirable sold strong to a dime higher, and the common and medium kinds sold steady. The active demand and light receipts soon brought the market to a close. not, and as a result is

tember to 10.31c and October to 9.78c, with the general list showing a net loss of from 3 to 40 points. At the decline, however, offerings became less pressing and during the early afternoon the market, while more or less irregular, worked upward slowly until just before the close, when it became more active and much firmer under more or less coverings, and bull support prices finally were at practically the best of the day and the market firm, net 5 points lower on August, but from 8 to 11 points higher on the other options. Sales estimated at 275,000 bales.

ST. LOUIS, Aug. 6.—COTTON—Quiet: middling, 125c; sales, 42 bales; receipts, 6 bales; shipments, 42 bales; stock, 1,965 bales.

HOGS-There was a light run of hogs
here today and the market opened just
about steady with yesterday's average on
the heavy hogs, while the lightweights if
anything were a little stronger. The demand on the part of local packers was in
good shape, and besides that there were
several liberal shipping orders. It soon became evident that there were scarcely
enough hogs in sight to fill the more urgent
orders, and as a result the market became
mere active toward the close and the late
sales were a shade higher. Heavy hogs
sold early at \$5.0005.02\gamma\$ and some late
brought \$5.05. Mixed hogs sold largely
from \$5.05 to \$5.10 and light went from \$5.10
to \$5.15. Everything was disposed of in
good season and the average cost is a
shade higher than yesterday. Representative sales: tivo sales:

SHEEP—There was a moderate run of sheep and lambs here this morning, but the same as was the case yesterday, the demand on the part of packers was limited. Most of the stuff on sale today, though, consisted of feeders, so that in spite of the fact that trading was slow a fairly early cicarance was made. As compared with the prices in force the first of the week the market is now 15/25c lower. Other markets, however, have also suffered, so that prices here are still well in line. Some yearlings sold for \$3.75 today, but they were choice. Ewes sold for \$1.90, feeder yearlings brought \$3.40 and feeder wethers sold for \$3.55.

The demand for feeders was again in

NEBRASKA MAY GET A PLACE State Has Two Candidates for Honors

at Hands of Grand Army Encampment. Rev. Harmon Bross of Lincoln was an

Omaha visitor Wednesday. Dr. Bross is a veteran of the civil war and was for three years department chaplain of the Grand Army of the Republic of Nebraska. Chaplain Bross has been endorsed by the Nebraska department for the responsible position of chaplain-in-chief of the national encampment of the Grand Army of the Republic. Nebraska has another candidate for a

national Grand Army of the Republic office in the person of Dr. Ferd Brother of Beatrice, who aspires to become chief medical director.

As Nebraska has always exercised a potent influence in the national encampat San Francisco at noon the 17th. At the department encampment at Pre-

thusiastically instructed for General John been found. C. Black of Illinois for national commander and will do all it can for him,

and Spring streets, yesterday morning. The ause of his death is supposed to be hear-lisease. The funeral will take place to

GOSSIP OF COMMISSION ROW

Very Little Home Grown Stuff on Market and All Goes with a Rush.

There was very little "home grown market yesterday, only a few of the garderners having heard that the grocers and butchers' picnic had been postponed for a week. But what there was went with a rush. Two loads of potatoes took a running jump and landed squarely on the 75cent mark, while blackberries were content to hit a \$2.25 gait per crate. Apple: were plenty, as they have been for some days, and sold at 60 cents up, according to

size and quality. A car of sound Texas cantaloupes was among the morning arrivals and a good portion of it was promptly disposed of at \$2.25 per crate. Other foreign fruits held the level of the last few days.

Omaha is apparently watermelon hungry and unless an extra supply is received tomorrow the market will be completely cleaned up. Only a few are now in stock, though one or two cars have been receive! from Texas every day for a week. The price, owing to the demand being right up to the supply and to the size of the melons,

remains at 25 to 35 cents to dealers. On account of the extra advertising which the picnic has received on account of being postponed members of the committee are preparing for a still larger crowd than was expected yesterday. It will take several special trains to accommodate all those who go and with good weather it will probably set a new mark for pients attendance in this part of the country.

SCHOOL BOARD ENTERS SUIT South Omaha Directors File Action Against Leonard A. Davis, Architect.

The Board of Education of South Omaha has instituted suit against Leonard A. Davis to recover \$1.900 which it is allered was wrongfully paid to him by members of the board, who have now retired from office. The petition alleges that in 1901, the defendant was employed by the Board of Education as architect under a contract by which he was to receive 5 per cent of the cost of building and repairs for which he should draw plans and supervise; that by the terms of the contract he should be paid monthly as the work proceeded; that May 13, 1901, he presented a bill for services in the sum of \$1,000 which was allowed by the board and that July 1, he presented a similar bill for \$900, alleged to have been for services in preparing plans for the construction of a high school building: that this bill was also allowed. The petition further alleges that the architect had performed no services as alleged in his bills and that they were wrongfully allowed by the members of the board voting for the same and that the members were in collusion with the architect to permit him to draw the money without earning the same.

The plaintiff asks judgment of the defendant in the sum of \$1,900.

LOCAL COAL MEN PUT UP PRICE One Dealer Says it is Done to Give the Retailers More Liberal Profits.

Anthracite coal has been advanced from \$10.50 to \$10.75, effective August 1, but most of the coal delivered since that date has been on orders placed at the former figure. the price," said a retail dealer, "is that there was not enough money in it at the former price. We really have no discretion in the matter, for the price is fixed at Chicago or the lakes by the producers, and we have to add to that price enough to pay us

for our labor and investment." The price of anthracite was fixed by the mine owners April 1 at \$6.50 per ton in Chicago. During the month of April a discount from that price of 50 cents was allowed, and this discount was decreased at the rate of 10 cents per month for five months, when the net price of \$6.50 is to prevail. According to this scale the present price of coal to Omaha dealers free on board cars at Chicago is \$6.40 per ton. which, according to the published tariffs, would make the cost in Omaha about \$8.93 per ton to the dealer. From the difference between that cost and the present retail price he must pay for hauling, provide for shrinkage in weight by loss of material and screening and secure his profit.

BOND CASE IN FEDERAL COURT City Attorney Will Ask Increase in Sureties of Railroad Munici-

pal Tax Matters. Arguments will be made in the federal court before Judge Munger Friday morning on the motion of City Attorney Wright to require the Union Pacific and Burlington ratiroads to increase the amount of bonds filed in the municipal tax cases. At present the city's protection consists of two \$5,000 bonds, while the amount of taxes involved is nearly \$300,000. To obviate possible loss of the revenue in event the city wins the cases, City Attorney Wright insists that the bonds of the Union Pacific be made \$250,000 and those of the Burlington \$150,000.

WOODS ARE FULL OF JENSENS No End of People Ready to Qualify for the Heirship in the West.
