SHAMROCKS IN MANY WINDS Breeze Shifts so Constantly as to Make the Trial Diversided.

ATLANTIC HIGHLANDS, N. J., Aug. 7.

The Shamrocks raced in many kinds of wind today. Running and reaching in a shifting treeze, Shamrock, III outsailed its pacespaker by two minutes and six seconds in sailing fifteen miles to the outer mark, and beating back by four minutes and fifteen seconds, a total of six minutes and fifteen seconds elapsed time.

The course was southeast and the start was from the Scotland lightship before a light west wind. When the starting whistle biew both boats hay head to the wind side by side to windward of the line, each captain trying to blanket the other hoat. After a minute they compromised, filled away on opposite tacks and went across the line trensing out spinuskers.

The starting time was: Shamrock I. 11:25:36. Shamrock III, 11:25:36. Within three minutes the challenger overtook the old boat caught a freehening clant of new wind from the west, and smothering its spinusker and setting balloon jibsail, cut down half the challenger's lead bafore the latter felt it. They ran for half an hour without spinuskers and then, the wind hauling back to northwest, set them again.

The wind first dropped and then freshwind hauling back to northwest, set them again.

The wind first dropped and then froshened. The challenger gained slowly. At the turn it had a lead of a quarter of a mile, but once close bruled for the windward thresh in a stiffer wind, began to draw away. Half way back the yechts were salling a pretty race in a ten-knot wind and the challenger crossed the line while the old boat was more than a mile away.

Brown won the fifteenth by one stroke and the sixteenth was halved through some fine playing on Egan's part as he was in the ditch on his drive. Boston People were much interested re cently in a big horse mackerel exhibited there which weighed 1,180 pounds. The fish was caught near Magnolia, on Cape Ann, by some fishermen, after it had badly demoralized one of their fish traps. The capture of the fish will doubtless cause a stir on the little island of Santa Catalina, off the coast of California, where the tune fishing is now at its height, for the tuna of the Pacific and the horse mackerel of the Atlantic are the same, except that the horse mackerel masquerades under a typical Yankee sobriquet. This fish caught off our coast is an unusually large one, bigger than the record tuna at Santa Catalina the only place where they are killed with rod and recl. The fish in the Atlantic will not take bait, and even if they would they are found at such rare intervals that few would have the patience to fish for them But even this huge fish will not admit the LONDON, Aug. 7.—Philadelphia clared its first inning today for \$8 runs.
