UNCLE SAM'S BIG PRINT SHOP

A World-Beater in Size, Cost, Equipment and Celerity. EQUAL TO FOURTEEN ACRES OF SPACE

Modern Conveniences and Modern Methods of Operations—Notable Records in Printing—Size of the Payroll.

The magnificent \$2,500,000 government printing office, which has been under construction for the last four years in Washington, is now practically completed, and is being occupied as rapidly as the plant, a great deal of which is also new, can be put in place.

If the seven floors of the huge new printing office were spread side by side instead of being one above the other, they would cover fourteen acres, or four ordinary city blocks.
