

CZAR NAMES VICEROY

Manchuria and Russian Far Eastern Possessions Are Given a New Ruler.

EVACUATION PLANS ARE NOT AFFECTED

High Muscovite Authority Declares Province Will Be Given Up in October.

GOVERNMENT IS MERELY CENTRALIZED

St. Petersburg Ministers Lose Control of Pacific Territories.

ADMIRAL ALEXIEFF GIVEN THE POST

Little Father's Aide-de-Camp Names Civil, Military and Naval Commander of Vast Area Bordering on China.

ST. PETERSBURG, Aug. 13.—A new viceroy, comprising the Amur district and the Kwan-Tung province (created August, 1896) has been established. Heretofore the Amur district has been controlled by a governor general.

A ukase signed by the czar and promulgated August 12 appoints Vice Admiral Alexieff, aide de camp general to the czar, as viceroy of the far eastern territory. He will be invested with supreme authority in all the branches of civil administration, the direction of which will no longer be in the hands of the ministers.

It will be the viceroy's duty to maintain order and insure safety in the district traversed by the Eastern Chinese railway, as well as to watch over the interests of the Russian inhabitants, both within and without the Russian possessions bordering on the territory under his jurisdiction.

In the hands of a viceroy. Diplomatic negotiations with neighboring states regarding the affairs of the territory will also be entrusted with the command of the Russian fleet in the Pacific and all the troops in the new viceregal territory.

Until a new law embodying the duties of the viceroy is passed the regulations drawn in 1885 for the administration of the far eastern and Caucasian territory will remain in force.

A special committee, presided over by the czar, will see that the actions of the viceroy are in harmony with the general policy of the Russian minister of foreign affairs. He has been instructed to submit to the czar for his approval proposals for the administration of the territory over which he is about to assume jurisdiction.

Manchuria Not Affected. LONDON, Aug. 13.—A high Russian authority says the establishment of a viceroy of the Amur district and Kwan-Tung will not affect the evacuation of Manchuria in October. For some time Russia has been considering the advisability of consolidating the control of all its eastern territory and Manchuria under one head.

Instead of three, as at present, as a viceroy of the Amur district and Kwan-Tung will command the troops in that region, but when the evacuation occurs he will simply have control of the Port Arthur and Takuwan zones, through which the railroad runs to the territory which are indubitably Russian.

The British government is aware of the ukase and has taken no action. Victory for Peace Party. LONDON, Aug. 14.—The Daily Mail this morning declares the appointment of Alexieff as viceroy indicates the triumph of M. De Witte, the Russian finance minister, and the policy of peace, and that it is a significant step toward the settlement of the differences with China and Japan.

The Daily Mail says a sharp division has long existed in the cabinet, General Kuropatkin and a majority of the ministers insisting that the evacuation of Manchuria should be secured immediately at any cost of money or credit. On the other hand, M. De Witte steadily opposed any step against any power in the east. He is confident that only time will bring about a settlement of the Russo-Chinese dispute.

De Witte has now triumphed, not only by securing Vice Admiral Alexieff's appointment, but by excluding the cabinet in Manchurian matters by making the viceroy responsible solely to the czar.

COLLECT ROGUES FOR FAIR

Police Aid Exposition Management in Amassing a Big Criminal Exhibit.

ST. LOUIS, Aug. 13.—A meeting of World's Fair officials and a committee representing the International Police Association was held here today to confer regarding the proposed St. Louis exposition exhibit. Major Richard Sylvester, chief of police of Washington, D. C., presided. Other members of the committee are Chiefs Francis O'Neill of Chicago, John J. Mason of Memphis, J. J. Haeger of Louisville and W. C. Baldwin of Roanoke, Va. It is the intention to arrange an exhibit showing the evolution of police methods and ancient and modern means for detection and identification of criminals.

A complete rogues' gallery, with photographs and figures of the different types of criminals of all parts of the world will be collected and classified according to their misdeeds of crime.

There will be galleries of the famous chiefs of police and detective departments. The evolution of the policeman and his weapons from earliest history, and of penal institutions, identification and measuring methods, torture and death also will be illustrated.

COBB TELLS WHY HE QUIT

Architect on Chicago Federal Building Gives Reasons for His Removal.

NEW YORK, Aug. 13.—Henry Ives Cobb, who was removed from the office of special architect of the Chicago federal building, made the following statement today: I was appointed as special architect under a special act of Congress and served under Secretaries Cortlandt and Gage. As to the rupture between Secretary Shaw and myself, I have only to say that his methods do not conform with my idea, and it is better that he should work with someone with less professional reputation at stake.

POPE LEO'S ROOMS OPENED

Several Million Francs in Money Besides Other Valuables Are Found.

ROME, Aug. 13.—The pope is quite well today. He took a long drive and walk in the Vatican garden and then received his Austrian ambassador, who presented his credentials.

Monsignor Cagiano, the major domo, accompanied by Cardinals Rampolla and Moenni, opened the apartment of Pope Leo this morning, breaking the seals put on at the time of the pontiff's death. They found a considerable amount of money, it is stated, several millions of francs, besides other valuables.

Cardinal Creton, prefect of the Congregation of Sacred Rites was not present, having left Rome on account of illness.

Pope Leo was again photographed today in the Vatican gardens. He afterwards received Cardinal Satolli regarding the appointment of a new secretary of state, who again suggested Vincenzo Vannutelli for the place. Cardinal Satolli then proposed the appointment of Father Edward Fowler, secretary to Rev. J. J. Hartz, as a domestic prelate to the pontiff, which post carries with it the title of monsignor. The pope granted the request and a brief making the appointment was issued immediately.

Cardinal Gibbons will come to Rome on Sunday, and J. J. Hartz as archbishop of St. Louis. Sunday the pope will receive the bishop of Philadelphia and Father Fowler. The former will receive the pope on Monday and the latter on Tuesday night.

Cardinals Rampolla and Moenni, after a summary visit to Pope Leo's apartment, decided to begin tomorrow making an inventory of all that it contains.

KISHINEFF JEWS HONORED

Governor Receives Hebrew Deputation and Personally Returns Call of Delegates.

LONDON, Aug. 14.—The Times today prints private advices from Kishineff which ascribe to the agitation of the foreign press a notable improvement there.

Not only has the governor received a Jewish deputation most graciously, but he has actually returned a visit to each of the delegates. Such courtesy is rare where Jews are concerned.

There is now reason to hope that genuine measures will be taken against some of the authors of the recent massacres. A notable name is Pissarzewski, who was much compromised, has committed suicide, and another man, named Kavarski, who was liberated, although accused of murder, has been rearrested. Further symptoms of appeasement is the fact that the proposal to expel all Jews from a local club has been withdrawn at the instance of Vice Governor Ostroff.

LORD SALISBURY IS ILL

Late English Premier Seriously Indisposed, According to Reliable Information.

LONDON, Aug. 13.—Lord Salisbury is seriously indisposed, according to information received direct from his family at Hatfield house.

The late Premier is greatly exhausted and physicians are in attendance. Lord Salisbury, whose health was severely shaken by the death of his wife in November, 1899, was ill on the continent during the whole of last winter. According to the Medical Press and Circular his lordship has suffered for years from intestinal ailments.

He was reported to have been much improved in health on his return to England, but at the beginning of June he caught a chill which troubled him considerably. The latest report, however, dated August 7, said that Lord Salisbury was preparing an important work on chemical electrical science.

VEVUSIUS BREEDS A PANIC

Populace Evoke Divine Aid Though Experts Declare no Disaster is in Sight.

ROME, Aug. 13.—Vesuvius is again causing intense alarm. From a fresh opening at the base of the principal crater two streams of lava are issuing, which within a few hours today covered a wide area. One stream is going swiftly toward Ottajano, the direction taken by the famous eruption of 1872.

Panic prevails, the population crowding the churches to pray, or gathering in open squares for safety. Experts, however, affirm that so far there is no reason for a real serious disaster.

LOARDS AGREE TO THE BILL

Irish Land Measure Now Only Awaits Royal Assent to Become Law.

LONDON, Aug. 13.—The House of Lords today agreed to the Irish land bill in the form finally approved by the House of Commons.

The latter house yesterday accepted all the amendments except two unimportant ones. The measure now only awaits the royal assent to become law.

PETER TIRES OF KINGDOM

New Serbian Ruler May Abdicate to Escape Restraint Military Put on Him.

LONDON, Aug. 14.—The Daily Telegraph prints a dispatch from Vienna which says there is an unconfirmed report that King Peter of Serbia has threatened to abdicate, as he is virtually a prisoner in the hands of the military party.

MINERS RUSH TO NEW DIGGINGS

WHITE HORSE, Aug. 13.—The rush to the new diggings, 10 miles northwest of White Horse, still continues. Three hundred claims have already been located and new creeks are being prospected daily. Inspector J. L. Richards of the Northwest Mounted Police says surface dirt is paying from 3 to 5 cents per pan.

CHINESE TROOPS ARE DEFEATED

HONG KONG, Aug. 13.—The Chinese imperial troops have been defeated by rebels at Hwei Chow Fu, in the southern province of Kwan-Tung. Imperial reinforcements consisting of 3,000 German drilled troops have arrived at Canton.

EARTHQUAKE KILLS FIVE PERSONS

BUENOS AIRES, Aug. 13.—Severe shocks of earthquake occurred at Mendoza, August 12. A number of houses and the tower of the church of Francisco were destroyed. Five persons were killed, and many others injured.

REBELS UPBRAID AMERICA

Macedonians Declare Hostile Press Notices Result of Turkish Gold.

LOOK TO ENGLAND AS LIBERTY'S FRIEND

Revolt Declared to Be Spreading Fast, Well Armed Bands Preparing to Fight to Death if Necessary.

SOFIA, Bulgaria, Aug. 13.—The Macedonian leaders express themselves as greatly disappointed with what they assert is the hostile attitude of America toward their cause, as manifested in the utterances of the press.

Dr. Christo Tatcharoff, one of the presidents of the central international Macedonian committee, today said his party was convinced that American newspapers had been bought with Turkish gold.

The doctor added: American Press Hostile. There seems to be no other explanation of the tone of their articles. They are not only un sympathetic, but decidedly inimical. It is impossible that such an attitude could arise from ignorance of the true state of affairs in a country so intelligent as America, and it is difficult to believe the impression created by the Miss Stone affair could have so prejudiced the American press.

In regard to the present situation only a practical intervention by the powers can stop the fighting. Without such intervention the revolution will be crushed to the bitter end.

The land now fighting in the vilayet of Monastir consists of 900 to 10,000 men, mostly young and enthusiastic and trained in the use of arms. That number could be quadrupled were it not that the difficulty of feeding such an army renders its increase inadvisable. The men are badly clothed and demoralized. They are repeatedly refused to march against the insurrection, which is well equipped with arms and ammunition, chiefly purchased from Turkish soldiers who sell their guns for cash almost within sight of the barracks of Monastir. By the plentiful employment of money insurgent bands have been enabled to smuggle any quantity of guns across the frontier and the highest Turkish officials have readily accepted their insurgent gold.

Look to England for Aid. Dr. Tatcharoff said the friends of the cause looked chiefly toward England as the pioneer land of liberty, to assist them. General Tronech, president of the domestic committee, said, Colonel Jonkoff, both ex-officers in the Bulgarian army, have been arrested by the Bulgarian police near the Macedonian frontier under the suspicion that they were on their way to join the revolutionists. Complete tranquility reigns everywhere in Bulgaria.

WHEAT NAPOLEON BANKRUPT

Edward L. Dwyer's Meteoric Flashes All Extinguished by Poverty.

NEW YORK, Aug. 13.—Edward L. Dwyer today filed a petition in bankruptcy. The liabilities are fixed at \$75,830 and the assets at \$100. Most of the liabilities are secured.

The history of Edward L. Dwyer reads like a romance. He was born in Connecticut forty-three years ago, and at the age of twenty-five went to Mexico, where he realized \$1,000,000 through the development of land and the construction of a railroad. Then he went to Chicago and entered into wheat speculation and for some time was known as the "Napoleon of the wheat pit."

In his wheat speculations it is said he made several millions of dollars. In 1888 he met and married the duchess of Castelucio, a New York woman, who many years previous had married an Italian nobleman. The duchess possessed many acres of orange groves in Florida. She was 72 years old, and Dwyer but 23. Not long after the marriage Mrs. Dwyer died, leaving an estate of \$1,000,000, but bequeathed only \$100 to Dwyer. The will was fought for six years, but was finally admitted to probate by the surrogate of New York city.

After the death of his aged wife Dwyer went all over the west organizing mining and land companies, many of which are said to have returned vast sums of money to the investors, of which he says he has received little or nothing. In 1900 he enlisted in the marine corps in the Hawaiian islands. The list shows that he was sent to Manila, where he was known as the "millionaire marine." After one year's service he received an honorable discharge.

ADVANCE GUARD IS THERE

Early Arrivals of G. A. R. Delegates Already Filling San Francisco Hotels.

SAN FRANCISCO, Aug. 13.—Several hundred members of the Grand Army of the Republic have been in the city awaiting the opening, next Monday, of the thirty-seventh national encampment.

The majority of these arrivals recorded their names at the bureau of registration in the city. The list shows that they came from twenty-eight states and territories. Accompanying them were probably three times as many tourists, relatives of the Grand Army men and members of allied orders, who are taking advantage of the excursion rates to visit California.

The total number of such passengers traveling through Ogden westward up to date is reported by the railway officials at 4,000. The large number of clerks and assistants will be constantly in attendance at the bureau of information and every convenience has been provided for visitors, including a postoffice and medical headquarters, at which a staff of volunteers composed of physicians, surgeons and others will be in attendance day and night.

The work of the executive committee and several subcommittees having preliminary preparations in charge has been completed. The parade will be the most imposing ever seen in this city, the great parade of the Grand Army on Wednesday being confined to the veterans who bore arms for the union in the civil war.

UNION VETERANS' UNION ELECT

General Hutchinson, Appointed President, Urges Plan to Heal Breach.

ROCHESTER, N. Y., Aug. 13.—The Union Veterans' union, encamped in this city, elected these officers today: Commander in chief, General B. F. Hutchinson, Rochester, N. Y.; deputy commander in chief, General D. W. Jones, Mass.; second deputy commander in chief, Colonel Richard L. Gorman, St. Paul, Minn.

It is understood that during an executive session General Hutchinson addressed the veterans on the split in the organization and recommended that an invitation be extended to all the companies throughout the country to join the union.

TEXAS FEVER IN CATTLE

Officials Believe Ticks Were Left in State by Flood-Stricken Stock.

TOPEKA, Kan., Aug. 13.—The State Board of Sanitary Commissioners was informed today of Texas fever at Carbondale. A cow owned by Mr. Berry has fallen a victim to the disease and two others are beyond the point of further relief.

About the time of the Kaw river flood a long train loaded with Texas cattle was sidetracked and remained for several hours in Carbondale and it is believed the "ticks" were left here then.

FINANCE BILL IS CERTAIN

Little News Concerning Late Conference is Received at Washington.

NO RADICAL LEGISLATION IS POSSIBLE

Measure Framed by Allison and Spooner Likely to Be Received With More Favor Than Aldrich-Platt Conception.

(From a Staff Correspondent.) WASHINGTON, Aug. 13.—(Special Telegram.)—Information received at Washington concerning the conference between the senate subcommittee and the president on the new financial bill is rather vague, but the understanding is that some sort of a measure is to be put through at the coming session of congress. The president does not profess to know anything special about financial matters, but realizes in a general way that the immense outstanding amounts of silver and greenbacks, based upon a limited supply of gold, is not a safe and sound method of finance for a great government. He is anxious to have any remedy applied which may prevent anything of a disastrous financial nature occurring in the future. At the same time, since his talk with Representative Cannon, who is to be speaker, and with other western men, he does not desire legislation of a radical nature, which will be to the benefit of Wall street alone, and which will not meet the exigencies of the legitimate business of the whole country.

Just what sort of a bill has been framed is still indefinite. The more that is known of the Aldrich bill of the last session, the less favorable impression it has made. The Fowler bill seems to be entirely out of the question, and the legislation which must be enacted at the coming session of congress will have to be of a moderate and conservative kind, in order to command enough strength to pass, if Senators Allison and Spooner are allowed to do the legislation, rather than Aldrich and Platt, all of whom are members of the subcommittee, more confidence will be extended in congress. A bill known to have been drafted by Spooner and Allison will receive favorable consideration, where one drafted by Aldrich will be looked upon with suspicion. The desire of the president, as understood here, is that all possibility of any financial disaster that legislation can prevent ought to be removed, but that nothing which would cause overpopulation and artificial prosperity should be adopted.

WANT STICKNEY TO DONATE

Auditorium Executive Committee Ask Great Western to Swell Auditorium Fund.

The executive committee of the Auditorium company and several other business men conferred with President A. B. Stickney of the Chicago Great Western railway yesterday afternoon to secure, if possible, a donation of \$5,000 from the railroad to the Auditorium fund. It is thought that if the Great Western takes the lead the other roads will follow with similar subscriptions. The sum of \$5,000 was requested because President Stickney presented Kansas City with a like amount on a similar occasion.

Whether or not the attempt bore fruit could not be learned from President Nash, who referred a reporter for the The Bee to Secretary Gilliam. Mr. Gilliam pleaded ignorance and advised that some other member of the committee be consulted. Other members of the committee said that if anyone did any talking it would have to be President Nash.

It is understood that President Stickney took the matter under consideration and promised to do what he could.

STORM IS COMING THIS WAY

Gales Will Make It Dangerous for Vessels on Gulf of Mexico.

WASHINGTON, Aug. 13.—The Weather Bureau tonight issued the following bulletin: "A special report received on Thursday afternoon from Progresso, the first from that section, indicates that the tropical storm had kept well to the southward, and was apparently central near the north-west point of Yucatan.

"Its future course is uncertain, but will probably be northward over the gulf of Mexico. More reports have been requested from Mexico, and it will be impossible to give any more definite information regarding the storm until barometer readings from gulf stations afford some indications of its approach.

"It is considered unsafe for vessels to sail for or from gulf ports, and advice were issued accordingly. Due warning will be given should it become evident that the storm will approach the gulf coast."

FEUD JURY UNABLE TO AGREE

Four Hours' Discussion Brings no Verdict and Panel is Locked Up for Night.

CYNTHIANA, Ky., Aug. 13.—The jury got the feud murder case this afternoon and after four hours' deliberation reported that it had not reached a verdict. Judge Osborne put the jurors in charge of the sheriff and his deputy and told them to discuss the case among themselves and then retire for the night. They are to report at 8:30 tomorrow morning.

It is the opinion of all that a hung jury will result.
