KING'S SPEECH LAUDS IRISH LAND BILL

Measure Expected to Keep Rich Men at Home in Future.

ERIN SAID TO NEED MORE HELP YET

Edward Reviews Work Done to Aid Emerald Isle and Prophecies Bright Days in Store for All.

LONDON, Aug. 14.—Both houses of parliament assembled today to wind up the business of the session.

In the House of Commons several questions were asked relative to matters of international interest. Premier Balfour in a general reply said there had been an unexpected delay in the Venezuelan question which, however, was not due to Great Britain or Germany, who had taken parallel action, but to the fact that France and Spain objected to the use of the English language by the tribunal. The question had been left to the tribunal itself to decide. He believed the court, whose members the czar had been requested to nominate, would meet on the date originally fixed.

Little Sympathy for Macedonia.

Regarding the complaints that the government was showing a lack of sympathy with Macedonia, Mr. Balfour pointed out that it was caused by deep dissension among the Christians. It was not the Turk-deep as his guilt undoubtedly was—who was responsible for the miserable conditions. It would be folly to forget that the Christians committed atrocities in Macedonia. The government was still of the opinion that the best policy was to support the Austro-Russian endeavors to improve the administration.

There was no pending fiscal question before Parliament, nor would there be one during the currency of the present Parliament.

With a final fling from Winston Churchill, who said it was doubtful whether the present Parliament would meet again, and who characterized the premier's policy of transferring the fiscal discussion from Parliament to the country, as that of a demagogue, the sitting was suspended. Subsequently the house was summoned to the House of Lords to hear the king's speech proroguing Parliament.

The speech was of little general or international interest. It alluded to the cordiality of the king's reception in Portugal, Italy and France and to the return visit of President Loubet, whose visit has given rise to a striking exhibition of the feelings of mutual good will which prevail in the two countries.

King Refers to Ireland.

The most interesting portion of the speech today deals with Ireland. It says: "The warm expressions of good will with which I was everywhere received greatly encourage me. My visit enabled me to realize how much was being done to improve the housing accommodation for the working population, to advance the methods of agriculture, to develop technical education and provide for the sick and infirm. Much remains to be done, but it was with the feeling of deepest gratification that I noticed signs of recovery in the potato crop, and a revival of united efforts for the general welfare."

Talks of the Land Bill.

Referring to the Irish land bill the speech says it offers inducements to the land owners to continue their residence among their countrymen and provide facilities for improving the conditions of life in the poorer districts of the west. It adds:

"This reform, by removing the ancient causes of social dissensions, will, I heartily trust, conduce to the common benefit of all my Irish subjects."

Reference is made in the speech to the general anxiety regarding the situation in the European provinces, and to the great progress made in the work of re-education and pacification in South Africa, and the improvement in the condition of agriculture and finance in India.

Future is Uncertain.

There has probably never been a prorogation of Parliament which for the future of the government was so uncertain as on this occasion. Many believe there will be a dissolution in the autumn, though the best information does not support this belief.

Mr. Balfour's speech at Sheffield at the end of September is awaited with the keenest interest, as it will contain a pronouncement of policy which will possibly force either the duke of Devonshire—a pronounced free trader—or Colonial Secretary Chamberlain, to resign.

SHIPS BEAT LAND FORCES

North Pacific Squadron Ships Past Forts and Enters Harbor Unobserved.

PORT TOWNSEND, Wash., Aug. 14.—The North Pacific squadron, whose return from the north has been so eagerly expected by the artillery forces here for several days, succeeded in passing the forts early this morning in a drizzling rain, and his won a victory over the land forces.

MILES IS AT SALT LAKE

He is Met at Depot by Officers and Driven to Fort Douglas.

SALT LAKE, Utah, Aug. 14.—General Nelson A. Miles, retired, accompanied by a party of seven, arrived from the east shortly before 2 o'clock this morning.

He was met at the station by a delegation of officers from Fort Douglas and driven directly to the post, where he will be entertained today.

PAPAL SECRETARY IN DOUBT

Pontiff's Courtiers Speculate as to Cardinal Who Will Succeed Rampolla.

ROME, Aug. 14.—The pope today received in private audience several cardinals, bishops and archbishops. He also received Thomas Desmond, representative of the Irish parliamentary party, who was left alone with the pontiff. When he wished to kneel the pope stretched out his hand and asked him to be seated at his side. The pontiff was much gratified at the congratulations, saying the Irish were dear, loyal people and that he wished them all prosperity and happiness.

Speculation concerning the appointment of secretary of state continues to be the engrossing question. There has been a suggestion that Cardinal Gotti should be appointed on the ground that such an appointment would please Germany and Austria, and that Rampolla should replace Gotti as perfect of the propaganda, thus securing the protection of France's interests in the east. It is not believed the suggestion will prove acceptable to the pope.

Others think the pope is trying to overcome the excessive modesty of Cardinal Satolli in order to induce him to accept the position, while still others believe Pius X will end by conferring the red hat upon his intimate friend, Monsignor Callaghan, bishop of Padua, and subsequently nominating him as secretary of state.

Pope Pius X has signified his intention of occupying the apartments in which the late pope lived and the furniture is now being removed for that purpose.

MME. HUMBERT STILL NOISY

Declares if She is Convicted She Will Not Survive the Disgrace.

PARIS, Aug. 14.—Mrs. Therese Humbert continued her declamatory statements at today's hearing in the Humbert trial.

When she charged one of the witnesses, the money lender, Cattual, with being a robber and a usurer, she declared she expected to leave the court room with a high head and fully vindicated.

"If I were condemned," she said, "I would not survive this dishonor."

The doctor attending Mme. Humbert says she suffered a lengthy attack of syncope a week ago, and that she has great difficulty in keeping up her strength.

Mme. Paraire, the concierge of the Humbert mansion, testified that the Crawford brothers visited the house constantly, often twice a day, and that they did not resemble either Komain or Emile d'Aurignac.

OCCUPATION DAY IN MANILA

Anniversary is Made a Festive Occasion by Veterans of Campaign.

MANILA, Aug. 14.—Veterans of the Army of the Philippines celebrated Occupation day with a parade in which 800 men took part, clad in the old regulation service clothing—blue shirts and khaki.

A band of brass instruments, at which the story of the campaign during the stirring period, in the early occupancy of the territory, closed by the capture of the city of Manila, was told, and the battles fought over again around the festive hour.

Commissioner Smith was the chief speaker of the evening. Two-thirds of the veteran soldiers of the campaign now serve in one position or another under the civil government.

NO QUESTION IS PENDING

Position Taken by the Russians in Regard to the Manchurian Dispute.

LONDON, Aug. 14.—Neither at the American nor at the other interested embassies is anything known regarding the statement made in last night's dispatch from Yokohama that Prince Ching had secured Russia's consent to the use of President Roosevelt's good offices in connection with the Manchurian difficulty.

Well informed Russians here do not understand that there is any question pending with China in which the good offices of President Roosevelt are needed or have been ordered.

SALISBURY SOME STRONGER

Noted Englishman Passes a Night that is Fairly Restful.

LONDON, Aug. 14.—Lord Salisbury passed a fairly restful night. There is no material change in his condition this morning.

Lord Robert Cecil says his father seems slightly stronger.

After holding a consultation Lord Salisbury's physicians announced at 5 o'clock this afternoon that the ex-premier's condition remained unchanged.

Proceedings to Be Secret.

BERLIN, Aug. 14.—The first international congress of wireless telegraphy adjourned today, after resolving to keep its proceedings secret for the present. It is learned, however, that the majority reached an agreement in passing the forty articles of the control of international communication by wireless telegraphy. A semi-official statement issued regarding the congress renders it probable that Germany will soon call a more general conference to give final shape to the points agreed on in the form of a treaty.

German War Minister Resigns.

BERLIN, Aug. 15.—Lieutenant General Von Gossler has been relieved of the post of war minister at his own request. Lieutenant General von Emsen, the director general of the Department of War, has been appointed his successor.

Warned by the Censor.

ST. PETERSBURG, Aug. 14.—Prince Stochersky, who recently criticized the high provincial officials in his newspaper, the Gradianin, has received an official warning from the censor.

PRISON WALLS DURING LIFE

Jury in Jett and White Feud Case Returns Verdict.

DEFENSE WILL ASK FOR NEW TRIAL

General Opinion is that it Will be Overruled by the Judge and Sentence Pronounced on the Men.

CYNTHIANA, Ky., Aug. 14.—A jury in the case of Curtis Jett and J. B. White, charged with the assassination of J. B. Marcum of Jackson, Ky., returned a verdict of guilty today and the punishment on each of the defendants.

The verdict was returned at a time when there was but few persons in the courtroom. The only person present was County Attorney Webster. Jett received the verdict with comparative indifference and calmness. White, who has been apparently under a severe strain during the trial, rushed up and his eyes filled with tears.

Attorney Golden, for the defense, later entered a motion for a new trial. The general opinion seems to be that the motion will be overruled by the court, and that it will then go to the court of appeals.

The verdict occasioned little surprise here after the deliberation of the jury had been so prolonged. The only question which caused the delay, it was said, was of punishment, death or life imprisonment.

The rest of the case is regarded as a victory for the defense, as the prosecution asked that no middle ground be taken and that the men either go free or be hanged.

The attorneys for the defense were absent when the jury came into court and Judge Osborne sent for them. The court asked them if they had anything to say after the verdict was read. Attorneys Blanton and Golden, for the defense, said they had not. The judge then said he would adjourn court until 1:30 this afternoon. Then Golden objected, as he desired to leave earlier for his home at Harboursville.

Justice Osborne told them to make their motion for a new trial. The motion was set upon filed and the court took it under advisement. When it was announced that the jury had come out a crowd gathered at the court rooms, but it was quiet and orderly.

Prosecuting Attorney Bird said tonight that at the next term of court, which begins three weeks from today, the case of the commonwealth against Curtis Jett for the murder of Town Marshal Jim Cockerill will be pressed. It is said six eye witnesses will be called.

In the case today charges were preferred against Juror Jasper King for attempting to hang the jury. King lives in Cynthiana and was until two years ago a deputy sheriff of the county and a highly esteemed citizen. County Attorney Bird said tonight that he would bring the charges against King at noon tomorrow. This case was to have been argued this afternoon on motions, but as the attorneys for the commonwealth wished to have time to consult, the hearing was postponed until tomorrow morning.

Dynamite Found in Jail.

WINCHESTER, Ky., Aug. 14.—The discovery of two sticks of dynamite in the cell of the Clark county jail formerly occupied by Curtis Jett, has given rise to a story of a plot to release Jett during the time he was confined there awaiting trial.

EARLY SESSION IS OPPOSED

Many Members of Congress Will Be Engaged at Home in October.

OSTYER BAY, L. I., Aug. 14.—Financial legislation and other work of the proposed extra session of the legislature has been discussed today by the president and his callers, who included Secretaries Shaw and Hitchcock, Senator Cullom and Comptroller of the Currency Ridgely.

Considerable opposition has developed to the idea of calling an extra session in October. The point is made that many senators and representatives will be engaged during October in their state campaigns, and that it would be politically unwise for them to leave their states at such a time.

It was announced today that no definite conclusion regarding the date of the extraordinary session has yet been reached.

Senator Cullom and Comptroller Ridgely discussed the financial situation with the president, with reference to the necessity for currency legislation. Thus far about the only proposal on which nearly all seem to be agreed is that the proposed legislation should include a provision for the depositing of customs receipts in national banks.

This afternoon former Secretary of the Treasury John G. Carlisle, Dennis T. Flynn, for several years delegate from Oklahoma in the house of representatives; Bishop Frederick T. Rooker, who until recently was secretary of the papal delegation in Washington, and Edward Lauterbach of New York called on the president. Mr. Carlisle's visit was on a private matter, but the president embraced the opportunity to talk briefly on the subject of financial legislation.

Bishop Rooker called to pay his respects and to discuss the situation in the Philippines. He is one of the four American bishops recently appointed for service in the archipelago. He will sail for Manila on September 19.

Mr. Lauterbach, who is one of the counsel for representative Litwiler in the glove contract investigation, discussed that matter with the president.

Nothing is known here regarding the report from Yokohama that Prince Ching had obtained Russia's consent to the use of President Roosevelt's good offices in connection with the Manchurian difficulty. The president has received no intimation that he has ever been under consideration as an arbitrator of the Manchurian troubles.

CARS CLIMB EACH OTHER

Pennsylvania Train Wrecked in Ohio Slays One and Injures Many.

FORT WAYNE, Ind., Aug. 14.—An east-bound passenger train on the Pennsylvania ran off the track today at the Cincinnati Northern railway crossing at Van Wert, O. Engineer Charles Eason of Fort Wayne was killed. Fireman A. W. Boggs of Fort Wayne was probably fatally injured and several postal clerks were injured. The passengers were not hurt.

The locomotive on entering the side track struck and ran over a flat car. The first mail car climbed the baggage car and formed an obstruction on which three other mail and baggage cars smashed themselves to kindling wood.

HURRICANE STIRS UP GULF

May Come to Land at Any Moment, Probably on Mexican Shore.

WASHINGTON, Aug. 14.—The following special bulletin was issued by the weather bureau tonight:

The tropical storm is still in the Gulf of Mexico, moving westward. Some slight indications of its presence have been afforded by high winds in the extreme southern portion of Texas.

No reports have been received today from Yucatan, but the general opinion of the central observatory reports that the storm is apparently in the center of the gulf, moving toward the coast of Tampulipas, with increasing intensity. Tampulipas is the state directly south of the extreme southern portion of Texas.

It is still thought dangerous for vessels the east of their route to ports, but safe on the east coast for vessels sailing westward. Some slight indications of its presence have been afforded by high winds in the extreme southern portion of Texas.

KINGSTON, Jamaica, Aug. 14.—At Port Antonio thousands of homeless and starving people have sought shelter in the old prison and the few other buildings which the tropical storm has destroyed. The merchants are feeding the hungry to the best of their ability, but the majority are subsisting on unripe bananas knocked down by the storm. The bananas are boiled in kerosene oil cans over open fires made from the debris of destroyed buildings.

This is the entire food supply and it will be exhausted in nine or ten days. Similar conditions prevail at Amotata, St. James, Orange bay, Port Maria, Manchester Cal, Bowden and other smaller seaports.

In the interior the distress is equally acute. Scarcely a home is standing. Even most of the planters' dwellings, which are being repaired, are in a state of ruin.

Efforts are making at Kingston to relieve the immediate wants of some towns by subscription of food and clothing, but the local efforts are inadequate. Unless immediate shipments of foodstuffs come from America death by starvation is inevitable for many.

The hospitals in the wind swept region are crowded with the injured and the death list is increasing. One man was beheaded at Port Antonio by a flying sheet of galvanized iron. Many were seriously wounded by falling houses, trees and walls.

The bulk of the Blue Mountain coffee has been ruined and the pimento groves, which stood for centuries, have been obliterated. It is now thought that the loss on the island will reach \$15,000,000.

SAN FRANCISCO IS CROWDED

G. A. R. Delegates Are Arriving in the City from Every Direction.

SAN FRANCISCO, Aug. 14.—The delegates to the national encampment of the Grand Army of the Republic are pouring into San Francisco from all parts of the country and from every indication a steady stream of humanity will flow in this direction for the next few days.

With a large number of visitors than ever attended any event of the kind in the history of the city.

The city is now in gala attire, the national colors flying in all the leading thoroughfares intermingled with the colors of the Republic and other devices erected by patriotic citizens in honor of the occasion. Banners, streamers and bunches of flags will wave from the ornamental poles which line Market street for its entire length, while lines of electric globes strung across the street with strands of small lamps in suspension will turn the night into a blaze of light.

The committees in charge of the parade and all the other committees arranging for the reception of the delegates have almost finished their work and nothing has been left to do to secure the success of the entertainments provided for the guests. The officials of the interior are joining heartily in the work with their usual hospitality and carloads of fruit and flowers will be coming into San Francisco daily next week, for distribution among the veterans and their friends, from Sacramento, Santa Rosa, San Juan and other fruit growing centers throughout the state.

An endeavor is being made to have next Wednesday, the day when the military academy will take place, a large crowd of holiday-makers. Nearly all the more prominent business houses will give their employees a half holiday and it is believed many others will follow suit.

Conservative estimates figure that 10,000 people will be in San Francisco from all parts of the country and that a large number of special trains will run the aggregate up to fully 25,000 visitors who will take part in the proceedings of the encampment this week.

Subscriptions continue to come in from citizens for the entertainment fund and the total receipts up to date amount to \$24,721.

POWERS AFFIDAVIT IGNORED

Youtsey Undergoes Still Cross-Examination in Goebel Murder Trial.

GEORGETOWN, Ky., Aug. 14.—In the Powers trial today the cross-examination of Henry Youtsey was resumed by Attorney Powers, who took the witness to the stand to be the noted prisoner. For two hours Youtsey was interrogated as to his various plans to assassinate Goebel.

For five hours today Henry Youtsey underwent a vigorous cross-examination as to his participation in the conspiracy. He refused to defend himself against the charges held the defense to systematic cross-examination and fined one attorney for violation of the rule.

Youtsey admitted that he had testified falsely to confuse detectives and lawyers employed by the Goebel brothers. His evidence as to the written agreement with Caleb Powers, regarding the affidavit, was ignored in the cross-examination.

Congressman Ollie James followed Youtsey and told of incidents at Frankfort following the shooting of Goebel and of the acts of the militia.

MISSOURI ELEVATES TAXES

Missouri Pacific Must Pay on One Million Dollars More Than Last Year.

JEFFERSON CITY, Mo., Aug. 14.—The State Board of Equalization today announced the assessment of railroad, bridge, telegraph and telephone property of the state for taxes for 1903. The total is \$185,948,674, which is an increase over last year of \$4,625,646.95.

The greatest increase is in property of the Missouri Pacific railway, the increase amounting to \$1,900,000, resulting from additional mileage.

Boodler Asks Missouri Supreme Court for Fifth Trial of Case.

ST. LOUIS, Aug. 14.—Harry A. Faulkner, former member of the house of delegates, who was convicted of perjury in connection with the suburban hoodie deal, was today sentenced to three years in the penitentiary.

Immediately afterward Faulkner turned an appeal to the supreme court and furnished bond in the sum of \$10,000.

If this appeal is granted Faulkner will be tried for the fifth time.

Mrs. Frank A. Kennedy of Omaha was today unanimously re-elected president of the Woman's auxiliary of the International Typographical union. Plan to Get More Militia.

The board of visitors of the naval academy in a report made public today recommended that candidates be admitted to Annapolis from certain schools approved by the academy. The board believed that "the studies of the better class of state universities could be modified to meet the peculiar nature of the naval academy," that candidates be nominated one year in advance of the entrance examination, that the academy be divided into four years finally relieving midshipmen of the necessity of returning for two years after graduation for further examinations, that graduates be commissioned as soon as graduated, that the teaching force of the academy be increased in view of the recent great increase in numbers of midshipmen and that a department of special training be established for the supervision of a highly qualified expert.

The board regrets the expedient recently made of graduating the first class in February of June and recommends that the first class hereafter be permitted to carry its course to the normal conclusion.

Satisfaction is expressed by the board at the conduct of the academy under the superintendency of Captain Brownson.

THEFT CLOSERS FOUR BANKS

Duluth Embasser Precipitates Run on Financial Institutions Unable to Withstand It.

DULUTH, Minn., Aug. 14.—The alleged embezzlement of \$45,000 from the Commercial Banking company, for which E. E. Johnson is under arrest, today brought about the failure of the Merchants bank of Duluth.

President Smith said the failure was due to a run on the bank resulting from the suspension of the Commercial Banking company's institution. He said he could not anticipate the effect of the withdrawals and closed to protect all depositors as much as possible.

This is the fourth bank to suspend as a result of the alleged embezzlement.
