

Est. 1854. During July and August We Close Saturday at 1 p. m. Res. Aug. 16, 1903

"Viyella" and "Orlwoola"

These are the names for the two leading flannels, which are guaranteed to be absolutely unshrinkable in washing, and fast colors. They are well established for years in the east, and fast gaining favor wherever they are introduced.

Come and look at them. We have them in plain colors, stripes, jackquard and plaids, mostly light effects—nothing better could be had where wash flannel is wanted.

Prices: Viyella, 98c; Orlwoola, \$1.00 per yard.

THOMPSON, BELDEN & Co.

Y. M. C. A. Building, Corner Sixteenth and Douglas St.

placed at important posts with Albanians, who could not even speak Turkish. Second Lieutenant Ismail Hakki and Salih Kadri were also prosecuted because after the murder, in speaking to Schoolmaster Mikros, they referred to the murdered man in coarse and insulting terms. Twink, a lamp cleaner, who was before the court, confessed immediately. He was charged with perjury. The court-martial sentenced Halim and Abbas to death, Rinel to fifteen years and Tewfik to five years penal servitude. The officers Jamal and Salih were sentenced to be flogged. After I had signed the judgment it was read to the accused in my presence. Halim Hilma Pacha said he had received an order from Constantinople to carry out the sentences immediately. The two men sentenced to death were hanged today.

The dismissal of the officers from the army will take place this evening. The chief of the gendarmerie of the vilayet, and the captain of the company to which Halim belonged have been deprived of their commands and handed over to the judicial authorities. An inquiry has been started to discover who fired at the consul's carriage from the military battery.

Widow Refuses Indemnity.
CONSTANTINOPLE, Aug. 15.—The widow of M. Roetkovski, informing Halim Pacha, inspector general of Macedonia, that she would not accept the indemnity of \$50,000 offered by the porte for the murder of her husband, said she did not want Turkish charity.

She has returned the decoration of the Order of the Nishan-Shukurak, bestowed on her by the sultan, and also her husband's Turkish decorations.

Washington Without News.
WASHINGTON, Aug. 15.—No information can be obtained here concerning the Russian embargo with Turkey. The State department has not been advised by its diplomatic officers of this affair and there are no members of the Russian embassy at present in the capital.

France Supports Russia.
PARIS, Aug. 15.—Foreign Minister Delcasse and responsible officials have given assurances that official opinion is in support of Russia's action, as France and Russia throughout have favored an energetic course.

LONDON, Aug. 15.—There is no reason to believe that any of the powers, especially Great Britain, will raise any objection to the demands of Russia on Turkey or to the visit of its squadron in Turkish waters until its demands have been fully complied with. Count Lamdorff's first representations to Turkey are due to the wish of the Russian government to localize the trouble.

No instructions have been sent to the Mediterranean fleet to proceed to the eastern Mediterranean. Two British guard ships are stationed at Constantinople and a cruiser is at Salonica.

Austria Is Alarmed.
VIENNA, Aug. 15.—The publication here of the announcement that Russia intends to send a fleet to the Black sea has caused general surprise. This being a Catholic holiday it is impossible to procure an official statement, but among minor officials and the public generally the opinion is expressed that unless it develops that Austria was cognizant of Russia's proposed action the Austro-Hungarian agreement must be vitally affected, as the news would seem to indicate that Russia intends to pursue a more independent course than heretofore.

OMAHA TO BE HEADQUARTERS
International Brotherhood of Stationary Firemen to Organize the West.

ROCHESTER, N. Y., Aug. 15.—The sixth annual convention of the International Brotherhood of Stationary Firemen closed today with the election of officers. Timothy Healy of New York was elected president. C. L. Sharp of Port Wayne, Ind., secretary-treasurer, and Peter Miller of St. Louis third vice president.

The next convention will be held in Washington in August next. It was voted to remove the national headquarters from New York City to Omaha, as the organization is about to begin a crusade to organize the stationary firemen of the west.

SHOWER-WATER

Get the Boys and Girls Ready for School Now.

For two days eager throngs have crowded the children's store, securing bargains that are offered but once in a lifetime.

\$20,000 worth of boys', girls' and infant's wear cannot be carried away in two days—nor in six. This fine opportunity will, however, soon be gone—the rumpled garments will be all sold and no more goods to be had for anything like the price. There was no fire either in our store or stock room. Every nook and corner offers great inducements for Monday, that have escaped earlier buyers, and so it will be until all this immense \$20,000 worth of fine children's wear is all gone.

No Time to Quote Prices.

CLODBURST AT PAPILLION

Rain Falls in Torrents and Much Damage Is Reported.

KANSAS RIVER IS AGAIN HIGH

Traffic Between the Two Towns at the Mouth of the Stream is Again Suspended Because of Flood.

PAPILLION, Neb., Aug. 15.—(Special Telegram.)—A heavy rain, almost amounting to a cloudburst, passed through this section last night. The Papilio creek is very high and over its banks, flooding part of the lower portion of the town. The water is rising fast here and much trouble is anticipated, as a few residences will be in danger providing the water gets much higher.

This flood will not interfere with the Modern Woodmen picnic of August 20, as it will be held on high ground.

Water is even higher at Portal and running over the Missouri Pacific tracks at that place, while the entire low lands are covered with about four feet, which will ruin all crops. Several head of cattle and other stock are reported drowned.

Debris Elevated Twenty Feet.

FAIRBURY, Neb., Aug. 15.—(Details have been received here of a cloudburst along the Nebraska-Kansas line for about eight miles. Two clouds were seen, one moving for an hour the water fell in sheets. Estimates of the downpour are all the way from a foot to two feet.

The water swept down Dry branch and Silver creek, which are usually dry at this time of the year, making everything before it. More than 1,000 trees were taken out by the roots and barns, corn cribs, grain and hay stacks, several droves of hogs and many horses and cattle were swept away. Not a bridge remains on Silver creek and but one on Dry branch. The residence was all built on high ground, which accounts for the fact that no lives were lost, although there were several narrow escapes. Dead stock and farm implements were found lodged in trees twenty feet from the ground.

Rain Falls Ground in Condition.

HUMBOLDT, Neb., Aug. 15.—(Special.)—This section was visited by a soaking rain of about three inches, which, following upon one almost as heavy a few days ago, placed the ground in good condition.

NEBRASKA CITY, Aug. 15.—(Special.)—The heaviest rain of the year visited this county last night, accompanied by a heavy wind which did considerable damage to the corn. The corn crop is in better condition than it has been for some time.

The progress this week owing to the continued wet and cool weather.

SCHUYLER, Neb., Aug. 15.—(Special.)—The continued rain and damp weather of the last week has had a disheartening effect upon haymakers and farmers having failed in shock. But little threshing has been done. Much hay was cut early in the week, but did not get sufficiently cured to stack. It will be but poor hay at best, even if not spoiled. Although much grain was lost last year by being left to rot in the shocks, this year the grain is in better condition than it has been for some time.

Severe Wind in Iowa.

SCRANTON, Ia., Aug. 15.—(Special Telegram.)—A terrific rain and hailstorm, accompanied by a high wind, struck this city last night. The large store building occupied by the Essex Buggy company was lifted from its foundation. The plate glass front in the Hall & Leases hardware store was completely demolished by flying timbers, several showcases also being broken. Several people in the store were hurt by the flying glass. Quin's muzzle factory was entirely destroyed. A large number of barns and outbuildings were blown away. The storm was a most destructive one. All the orchards in the wake of the storm are ruined.

More Trouble at Kansas City.

KANSAS CITY, Mo., Aug. 15.—Traffic between the two Kansas Cities is practically suspended today, all the temporary pile bridges erected after the great flood in June having been endangered by a rise in the Kansas river & Leavenworth store.

The river has been causing more or less trouble for the past two weeks, the result of continuous heavy rains west of Kansas City. Following last night's heavy rain-fall, the river rose a foot. It continues to rise rapidly today and it is probable that it will go four feet higher before the waters finally spread out and the river begins to subside.

At Armourdale, which was literally wiped out in the June flood, the river is four feet above low water mark and is rising fast. It is higher than the lowest mark recorded since June. It will have to go fifteen feet higher, however, to reach the town proper, and the only damage possible is to the bridges.

Narrow Escape from Drowning.

The current is so swift that rowboats can hardly live in it, and there were several narrow escapes from drowning today by men employed on the bridges to keep the drift work away.

Last night's rainfall in Kansas was the heaviest since the flood, and it has sent the Kansas, the Smoky Hill, the Solomon and other streams up rapidly, at some points to the flood stage. At Abilene the water is two feet deep on Fourth and Fifth streets, and many calves have been flooded. At Manhattan, backwater from the Blue is sending the Kansas up, and if this continues the ferry service there must be abandoned.

Water Is High at Topeka.

TOPEKA, Kan., Aug. 15.—A rainfall of tremendous proportions, amounting almost to a cloudburst, fell here from midnight of Friday until daylight of today. The Kaw river, which was stationary at noon of Friday, is again coming up rapidly, caused by local and western showers. Soft track at Bellevue on the Union Pacific, caused a freight wreck at 9 o'clock this morning, blocking traffic and making the sending of their trains over the Rock Island in and out of Topeka a necessity.

HARVARD, Neb., Aug. 15.—(Special.)—Another rain fell last night and will again delay shipping and threshing. Wheat is becoming badly bleached in shock and some growing, thereby reducing the price where sold from the machine.

Heavy Rain in Colorado.

PUEBLO, Colo., Aug. 15.—A terrific thunderstorm, accompanied by heavy rain, broke over Pueblo last night. Considerable damage to railroad tracks between here and the mountains occurred, and the Arkansas river is high. The rain soaked and spoiled many tons of hay now being harvested, injured a heavy third crop and a good winter range.

Two Inches of Rain in Illinois.

ROCKFORD, Ill., Aug. 15.—Over two inches of water fell here last night, causing heavy damage by washouts to crops in the lowlands.

At the Chautauque grounds 1,800 persons in tents were exposed to the fury of the storm. Many tents were blown down, but there were no casualties.

BRIDAL COUPLE STRANDED

Cash Patis While Crossing Continent and They Are Forced to Walk to a Relative's.

HASTINGS, Neb., Aug. 15.—(Special.)—A smartly dressed and polished young couple stepped from a westbound train here this week and attracted considerable attention by staying at the station all day.

It was supposed that they were waiting to make connections with some road, but that solution played out when they passed the night in the building and the next day found them continuing the silent watch about the station.

Toward the middle of the second day they were questioned with regard to their home and destination and reluctantly gave the information that they were a newly married couple from New York, enroute to San Francisco, and that while in Chicago they had spent the morning at the city hall, and had been married there. They were about stranded at this point.

They telegraphed to New York asking relatives for assistance, but received no reply. Meanwhile it was learned that the young woman was quite well educated, an excellent musician and an altogether charming person. Abandoning the hope of receiving financial assistance from their relatives in the east, they vouchsafed the information that an uncle of the young man lived in Hastings and to him they applied by telegraph for assistance, with results as futile as had been the application to New York.

The passengers at the station meanwhile, entertaining a vein of sympathy toward the young woman, who had been so long stranded, raised a purse to pay her fare to Holdrege, but their sympathy did not include the young husband, and his transportation was unprovided for. With tears in her eyes and affection beaming through them, the woman refused the kindness of her husband's purse, and she started for Holdrege alone and penniless, but apparently with a wealth of conjugal affection.

LIBEL SUITS COMING THICK

All Are the Outgrowth of Congressional Campaign in Third District.

ST. LOUIS, Mo., Aug. 15.—(Special Telegram.)—Three more libel suits growing out of the hot congressional campaign in the fall of 1902 between J. J. McCarthy and J. S. Robinson, in the Third Nebraska district, have just been filed in the courts of Nebraska by St. Louis City attorneys.

The plaintiff in all three actions is Thomas J. Shelby, a St. Louis man, a prominent republican and ex-county clerk there, who sues the court for judgment for \$5,000 in each case. One of the alleged libels was a publication printed in the Hartington Herald, and the proprietor of that paper, John A. Nelson, is the defendant in one of the suits. Another suit is against William Huse, editor of the Norfolk News, who is alleged to have published a slanderous article concerning Mr. Shelby and his connection with the campaign.

Mr. Shelby followed Judge Robinson in the campaign. The third suit is against Franklin D. Pales of Ponca, chairman of the congressional committee, who is charged with having circulated in a handbill and caused to be printed in various newspapers certain libelous articles regarding the plaintiff. The plaintiff in the cases is the father of Anna Shelby, a young woman engaged in the abstracting business at Ponca, who already has sued the editor of the Ponca Journal in the district court at St. Louis for \$5,000 for alleged libel in publication of an affidavit. This affidavit was concerning the congressional campaign.

TEACHERS GO TO PLATTSMOUTH

Large Attendance Is Expected at the Normal Institute of Cass and Sarpy Counties.

PLATTSMOUTH, Neb., Aug. 15.—(Special.)—The union normal teachers' institute, including all the teachers in Cass and Sarpy counties, will be held in Plattsmouth next week, commencing Monday. It is predicted that at least 250 teachers will be in attendance. As only first-class talent has been engaged for instructors and lecturers, the week promises to be profitable for all who are interested in educational matters. The sessions will be held in the high school building. The following instructors will be here the entire week: Ex-State Superintendent Harvey, of Madison, Wis.; Superintendent James M. Coughlin, of Wilkes-Barre, Pa. The primary work will be in the hands of Miss Grace Graves, of Fremont, Neb., and Miss Clara Street of this city will have charge of the music. The following lectures will be given during the week: Tuesday evening, "The Last Days of the Confederacy," General George B. Gordon; Thursday evening, "Sour Grapes," Ed. Amherst Ott; Friday evening, "Character Building," James M. Coughlin. The lectures will all be in the Farmers' Theater. Prof. Rouse of Omaha and other teachers have already had their names enrolled.

CRAIG PLANS CORN CARNIVAL

Two Days of Next Week Are to Be Given Over to Festivities.

CRAIG, Neb., Aug. 15.—(Special.)—A corn carnival at Craig is billed for August 16 and 17. A. L. Sattler, owner of the carnival, will deliver the address the first day. The second day will be Royal Achates day, with an address in the interests of that order. Blair and Craig will furnish two games of ball and the usual array of minor sports will be given. Each day will close with a big display of fireworks and a grand ball. Lyons and Craig bands will furnish music for the occasion. A large crowd is anticipated.

Shoots Horse in Peculiar Way.

BEATRICE, Neb., Aug. 15.—(Special.)—Yesterday the young son of George Irvin, a prosperous farmer residing six miles north of the city, wounded one of his horses in a rather peculiar manner, which will probably necessitate the animal's being killed. He had placed the team he was driving in the barn and in drawing a revolver from his hip pocket the weapon was discharged. The ball struck one of the animal's legs, causing it to bleed profusely. A veterinary surgeon was sent for, but has been unable to locate the ball. In case it cannot be found Mr. Irvin will have to destroy the animal, as it is too badly crippled to be of any use.

Petty Criminals Escape.

BEATRICE, Neb., Aug. 15.—(Special.)—John Hall and Jack Martin, who have been working out their fines on the streets here for a minor offense, succeeded in getting their escape from the officers yesterday. They are tough characters and the authorities will not make much of an effort to recapture them.

Fremont Boy Arrested in Portland.

PORTLAND, Ore., Aug. 15.—(Special Telegram.)—Arthur Lucas, aged 14, whose home is Fremont, Neb., was arrested late last night for robbing the streets here. In court this morning Lucas declared he had run away from home three months ago on account of his father's cruelty. After leaving his father's home he was turned over to the Boys' and Girls' Aid society. He will be placed in a good family here and sent to school, as he claims he ran away partly in order to get a good education.

PREPARE FOR G. A. R. REUNION

Veterans Will Be Given Keys to Riverfront and Will Own the Town for a Week.

RIVINGTON, Neb., Aug. 15.—(Special.)—The Nebraska and Kansas Interstate Grand Army of the Republic reunion will be held at this place, commencing with a big camp fire on the night of Monday August 18, and continuing until Saturday, August 23. The program by days follows:

Monday—Getting into camp; big camp fire and band concert at night.

Tuesday—Turning over the keys of the town to the veterans; speaking by Adjutant General J. H. Culver, Captain C. E. H. and other officers; parade of arms (drill tactics), old veterans of Kansas and Nebraska; ball game, Holdrege against Marysville, Kan. (both leagues Kansas); big camp fire, music by band and York orchestra.

Wednesday—Mrs. Morgan; tug-of-war across Thompson creek, Kansas against Nebraska; veterans' ball game, Holdrege against Marysville (league teams); water fight; music, bands and York orchestra.

Thursday—Speaking by Department Commander Lee A. Estelle, E. D. Brown; ball game, Holdrege against Marysville; balloon ascension, music, bands and orchestra.

Friday—Speaking, Judge Sullivan and other officers; platform, household furniture given to couple married; basketball game in the evening, conducted by the Nebraska band, Rivington band, York orchestra.

Saturday—Speaking, Post Commander John A. Ehrhardt; balloon ascension; grand display of fireworks in evening; basketball ball game, music, Rivington band, Franklin band, York orchestra.

VOTE ON BRIDGE AT SCHUYLER

Commissioners Decline to Incur Expense, but Will Allow the County to Decide.

SCHUYLER, Neb., Aug. 15.—(Special.)—The business men and citizens of Schuyler subscribed \$2,500 to assist in defraying expense of rebuilding the wagon bridge across the Platte river at this point and then proposed to the county commissioners that they make provision for the balance necessary to construct the bridge, about \$2,500 more. The commissioners declined to grant the request, but instead voted to submit the proposition to the voters of the county in the coming election. The question became one of this precinct, Schuyler, against the remainder of the county, as it has been for years, the commissioners in the north part of the county carrying the matter as it went against the commissioner of the south part. The county in general is not benefited by the bridge, excepting as it benefits Schuyler, the county seat.

"DOCTOR" A COCAINE VICTIM

St. Joseph Man Is Returned to His Home in Missouri by Sheriff of York County.

YORK, Neb., Aug. 15.—(Special.)—Dr. R. E. Bassett, who was taken from a train at York because he acted so strangely that the passengers believed him to be of unsound mind, was taken to his home at St. Joseph, Mo., by the sheriff. The man was suffering from the influence of cocaine and morphine. He was representing an alleged "hospital company" of St. Joseph. On his return home his relatives and friends thanked the county officials of this county for their good treatment of him while here.

Reed Is Robbed on the Train.

FREMONT, Neb., Aug. 15.—(Special.)—Herbert Reed of Cedar Rapids, Neb., was robbed on a Northwestern train, between Missouri Valley and Fremont, this morning. Reed was on his way home from Des Moines, where he had been with some cattle, and made the acquaintance of three smooth and enterprising young men on the train. As the train slowed down for a hill this side of Blair the men who had found much pleasure in company left him and jumped off the train. A minute later he found that his pocketbook was gone. Fortunately he only had a few dollars, having yesterday sent home a draft for \$2,000, the proceeds of his cattle. At Fremont he telegraphed home for money to pay his fare.

Burlington Brakeman Loses a Foot.

PLATTSMOUTH, Neb., Aug. 15.—(Special.)—James F. Rhody, a Burlington brakeman, met with an accident at Glenwood, Ia., which resulted in the loss of his right foot. The train had backed on a sidetrack to pick up a stock car, when Rhody slipped in some manner and got his foot caught under the wheels. He was brought to Plattsmouth soon after the accident and Dr. Livingston dressed his injuries. It was found necessary to amputate the foot at a point near the center of the instep. Rhody's home is in Creston.

Workmen Have a Picnic.

BEATRICE, Neb., Aug. 15.—(Special.)—The local lodge of the Ancient Order of United Workmen held its annual picnic on the Chautauque grounds yesterday afternoon, which was attended by a large crowd. Dinner was served by the women, after which field sports were indulged in by the remainder of the afternoon and a most enjoyable time was had by all who attended.

Child Gets Wet and Dies.

HUMBOLDT, Neb., Aug. 15.—(Special.)—Little Floyd Dillman, aged 10 years, died Thursday at the home of his uncle, Charles McDougall, from the effects of a severe attack of pneumonia, contracted from getting wet at the Salem Chautauque last week. The remains were taken to Salem for interment yesterday.

HOW TO FIND OUT.

Fill a bottle or common glass with water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. It stains the linen it is evidence of kidney trouble; too frequent desire to pass it, or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is a common knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary system. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to sleep up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle of Swamp-Root, the great kidney remedy, and a book that tells all about it, both sent absolutely free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y.

When writing be sure to mention that you read this generous offer in The Omaha Sunday Bee. Don't make a mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and address, Binghamton, N. Y., on every bottle.

FLEET READY FOR REVIEW

Fighting Vessels Line Up at Oyster Bay for President's Inspection.

COVER MORE THAN A MILE OF WATER

Many Distinguished Guests Will Accompany Mr. Roosevelt on Mayflower When He Visits Squadron Tomorrow.

OYSTER BAY, L. I., Aug. 15.—Arrangements practically have been completed for the review and inspection in Long Island sound by President Roosevelt of the North Atlantic fleet next Monday.

President Roosevelt will review the fleet from the bridge of the auxiliary cruiser Mayflower. On that boat as guests of the president will be Admiral Dewey, Admiral Taylor, Admiral Rodgers, Captain Brownson, George K. Coffey, Sir Thomas Lipton, Colonel S. Sherman-Crawford, C. Oliver Iselin, Butler Duncan, Captain Woodbury Kane and Commodore Borome of the New York Yacht club, besides other friends of the president.

The review will begin at 9 a. m. and the ceremony will probably not be concluded until 2:30 p. m.

The following vessels will take part in the review: Battleships, Kearsarge, Alabama, Illinois and Texas; cruisers, Baltimore, Olympia, Yankee, Prairie, Toledo and Paulding; and a flotilla of torpedo boats and destroyers.

The president expresses regret that the accident to Massachusetts should have detained that battleship and Indiana in the north.

General Robert Shaw Oliver, who was recently appointed assistant secretary of war, arrived today to confer with the president about his new duties.

Fleet Arrives at Sandown.

The North Atlantic fleet came to anchor in the sound of Lloyds Neck Point at Sandown this evening and lies in four long lines, reaching east and west for two thousand yards.

Orders had been issued by Rear Admiral Barker, the admiral in command, that the fleet, in case of separation, should rendezvous in Gardner's bay. The battleships and the cruisers did become separated, but joined again off Nantuxet. While anchored in Sandown's bay Delphic with Secretary of the Navy Moody on board, passed and was saluted. Dolphin arrived here about the middle of the afternoon, and Mayflower and Sylph fired a salute for the secretary of the navy. Secretary Moody is the guest of the president at Sagamore Hill tonight.

The first squadron, consisting of the flagship of Rear Admiral Barker, Kearsarge, and the battleships Illinois and Alabama, making the first division, and the flagship of Rear Admiral Sands, Texas, and the cruiser Baltimore making the second division, lies in one column with 500 yards between each. Eight hundred yards to the north is the second squadron, the first division under Rear Admiral Coghlan, consisting of the cruisers Olympia, flag ship, and Toledo, and the destroyers, Prairie and Panther. Six torpedo boat destroyers under Lieutenant L. H. Chandler, lie between the first squadron and the Long Island shore, and six under Lieutenant H. K. Benham lie between the second squadron and the Connecticut coast.

The destroyer Chaney will go to New York and convey the foreign attaches to Kearsarge on Monday morning.

President Roosevelt and his family and house guests will attend divine services on board Kearsarge. The trip from Sagamore Hill to the battleship will be made on Sylph.

The president has as his guest tonight Captain W. H. Brownson, superintendent of the Annapolis naval academy.

Tomorrow Rear Admiral Taylor, chief of the Bureau of navigation, will arrive at Sagamore Hill.

This afternoon the president and Mrs. Roosevelt entertained the junior officers of the Mayflower and Sylph at 5 o'clock tea.

Admiral Dewey is expected to arrive tomorrow. He will go aboard Mayflower and subsequently will call on the president to pay his respects.

Massachusetts Flirts Lightly.

BAR HARBOR, Me., Aug. 15.—The battleship Massachusetts floats on the water more lightly tonight, having been relieved of immense quantities of naval stores. It is not anticipated that there will be any difficulty in getting Massachusetts to a navy yard after temporary repairs have been completed. It is expected that it will proceed under its own steam early next week.

MAY MAKE MEN NEWS BACS

School of Journalism Established at Columbia by John Pulitzer.

NEW YORK, Aug. 15.—President Butler of the Columbia university today officially announced that Joseph Pulitzer had given \$100,000 for the establishment and endowment of a school of journalism in connection with Columbia university and promised another \$100,000 after the school has been in successful operation for three years.

Of this additional \$100,000 half the income will be devoted to maintaining the school. The remaining \$50,000 will be expended for purposes to be hereafter agreed on between Mr. Pulitzer and the faculty. The administration of the new school will be carried on by a faculty of journalism, the members of which will be appointed by the trustees in the near future. President Butler continues:

A meeting of the advisory board will be called soon as possible after its members are appointed and the fundamental principles which shall govern the school of journalism will be discussed and agreed on. After the suggestions of the advisory board have been communicated to the university council and to the trustees the work of organizing the school will proceed with all possible speed in order that instructions may be given just as soon as the building is ready for use.

A committee, consisting of President Butler and Prof. Burgess, Peck, Brander Matthews, G. H. Carpenter and Giddings, has already been appointed to frame a report for early presentation to the university council regarding the organization and academic relations of the school of journalism.

Struck in Face by Post.

SCHUYLER, Neb., Aug. 15.—(Special.)—A carnival company's employee was seriously injured last evening while helping to catch a "loop-the-loop" ball as it bounded from the net. The man was struck between the chest and face by one of the posts set to hold the net. No bones were broken, but he will be laid up for several days.

Nebraska City Bridge Falls.

NEBRASKA CITY, Neb., Aug. 15.—(Special Telegram.)—A large bridge on Table creek and Twentieth street gave way this evening and teams on the bridge at the time went down, killing one horse and fracturing the ribs of one of the drivers.

Woman Golfer to Wed.

CHICAGO, Aug. 15.—Announcement was made today of the coming marriage of Miss Beattie Anthony, western woman golf champion, to Mr. Bernard A. Horn of Pittsburgh. The marriage will take place in the residence of Miss Anthony's parents' residence in Evanston.

1513-1515 Douglas St.

A Lot of New Milk Wagons

A visitor made the remark yesterday: "I never saw such a lot of tough-looking milk wagons in my life as they have here in Omaha. I visit quite a lot of eastern, as well as western cities, and notice the difference. But I never saw as many scraggy-looking, dilapidated, dirty wagons anywhere for a city of Omaha's size. Of course, I see a few of the good ones down town, but so very few. I should think people would kick about it and refuse to buy milk. Omaha certainly needs about 50 new wagons on the street, and if I was
