Burdened with taxes, liable to perform statute labor for the Turkish land owners. the population is reduced to a state of serfsom. This is one of the principal causes of discontent and when is added the exactions of the tax-gatherers it is not difficult to understand why the wretched people should revolt from such a despotic government and servitude.

In conclusion the memorandum asserts that the foregoing exposure once more condemns Ottoman administrative government in Europe. It says:

"Not long ago the porte denounced these revolutionary movements as being fomented by Bulgaria and tried to put the responsibility on this principality. Today it must acknowledge that it is its bad administration which is the only cause for the trouble. From sad experience the porte must learn that systematic persecu tion, cruel injustice and bloody repression do not restore order and peace in a country. The porte accepted in principle the project of reform which it has not put into effect. It has declared that the project is SHOTS ARE POORLY AIMED insufficient. President Addresses Meeting of Society of Holy Name at Oyster Bay.

SPEECH AS WELL AS CONDUCT IMPORTANT

Large Crowd Listens to Address and Refuses to Be Driven Away Even by the Falling Rain.

OYSTER BAY, N. Y., Aug. 16.-President Roosevelt delivered the principal address at the quarterly meeting of the Society of Holy Name, of Brooklyn and Long Island, held here today, "Decency of Speech and Conduct" constituted the theme of his address, which was enthusiastically applauded by an audience of more than 2000 persons, chiefly men. During the afternoon special trains brought hundreds of members of the society to Oyster Bay from Brooklyn and western Long Island. Threatening weather kept many away, but although a light rain fell during the exercises, the crowd remained banked abou the flag-bedecked stand, on a beautiful hill opposite St. Dominic's Catholic church. As the president drove up to the stand in a closed carriage, accompanied by Captain W. H. Brownson, superintendent of the Naval academy, Secretary Barnes and a representative of the society, he was ac corded an enthusiastic reception, a band the while playing "Hail to the Chief." After the audience had sung "America" Pather Power rector of St Dominic's, introduced the president in a felicitous speech, in which he spoke of the esteem in which Mr. Roosevelt is held by the Catholic church of this country.

When President Roosevelt rose to speak he was greeted with cheers, and it was quite a minute before he was able to pro ceed. His address follows:

Need of Pure Life.

Very reverend dean, reverend clergy, and you of the Holy Name society; I count myself fortunate in having the chance to say a word to you today, and at the outset let me, Father Power, on behalf of my neighbors, your congregation, welcome you here to Oyster Bay. I have a partial right to join in that welcome myself, for it was my good fortune in the days of Father Power's predecessor, Father Belford, to be the first man to put down a small contribution for the erection of the church here. I am particularly glad to see such a church as this flourishing, as your society has flourished, because the future welfare of our nation depends upon the way in which we can combine in our men—our young men—decency and strength. Just this morning, when attending service on the great battleship Kearsarge, I listened to a sermon addressed to the officers and enlisted men of the navy, in which the central thought was that each American must be a good man or he could not be a good citizen, and one of the things dwell upon in that sermon was the fact that a man must be clean of mouth as well as clean of life-must show by his words as well as actions his fealty to the Delty and to the Savior if he was to live aright.

We have good scriptural authority for the statement that it is not what comes into a man's mouth, but what goes out of it that counts. I am not addressing weaklings, or I should not take the trouble to come here. I am addressing strong, vigorous men who are engaged in the hard work of life, and life to be worth living must be a life of activity and hard work. I am speaking to men, engaged in the hard active work of life, and therefore men who will count for good or evil and it is particularly incumbent upon you who have strength to set a right example to others. I ask you to remember that you cannot retain your self respect if you are loose and foul of tongue, that a man who is to lead a clean and honorable life must inevitably suffer if his speech likewise is not clean and honorable. Every man her

PRESIDENT VISITS FLEET Attends Religious Service on Board Flagship Kearrarge in Orrier

OYSTER BAY, Aug. 16 .- With the North Atlantic fleet anchored off in the bay, this has been almost a fete day. Hustische of craft, ranging through all the grades from the plebian row boat to the aristocratic steam yacht, have been hovering about the ficet of great fighting machines all day. Threatening weather did not deter anybody, apparently, from visiting the fleet, Officers of the flagship Kearsarge tonight estimated that 1,000 persons were in about the various vessels during the day

and evening. Formalities were begun at 9 a. m., when Rear Admiral Barker, commander-in-chief of the fleet, accompanied by Captain Hemphill of Kearsarge and Flag Lieutenant Eberie, went in a barge to Dolphin to pay his respects to Secretary of the Navy Moody. An hour later Secretary Moody, accompanied by former Secretary Chandier, returned the visit. They remained to attend divine service.

When Admiral Barker was informed that the president would also attend the service orders were issued for all officers to appear in special full dress. Shortly before 11 clock President Roosevelt arrived on Kearsarge from Sylph. As he came over the side he was received with presidential honors. The band was paraded, the marines presented arms, the bugie sounded a fanfare and the drums gave four ruffles. Then the band played "Hail to the Chief." and then Admiral Barker received the president on the quarterdeck.
