SAN FRANCISCO, Aug. 18.-The parade of the military, naval and civic bodies of this city and state, which took place this morning, furnished an imposing spectacle for the vast crowds of people who packed the sidewalks, windows, roofs and every point of vantage along the line of march. It was certainly one of the finest displays ever seen here and the utmost enthusiasm prevailed among the spectators, who

Grand Marshal Colonel J. B. Fuller, in grand army uniform, led the advance, his chief of staff, Colonel W. Edwards, and chief alde, Colonel J. F. Lieutenant General Miles, retired, who oc cupied a carriage with Chief Justice Beatty of the supreme court of California, was loudly cheered along the line of march, the friendly feeling being cordially acknowledged by the gallant officer, who appeared highly pleased by the reception he received. In other carriages were Mayor Schmitz of San Francisco, Alden Anderson, Reutenant governor of the state; the heads of civic departments, supervisors of the city and Mexican war veterans. consul, at Monastir. The fact that Russia is about to make a naval demonstration in Turkish waters has been kept a profound secret here, the public being entirely ignorant of Russia's move-

Twenty-four battalions of reserves on the vilayet of Antonola have

been summoned to the colors. The repeated attacks made by the insurgents on the railroads and the inadequate protection afforded by the Turkish authorities have compelled the railroad officials to order, in spite of the protests of the military commanders, a suspension of traffic on the Salonica, Monastir and Us-

amount to more than 70,000. The Bulgarian government, however, is unwilling to venture for the time being on any hostile movement against Turkey, as it does not wish to lose the support of Russia. It hopes, however, that public opinion in Russia will force the government to help Bulgaria against Turkey and the despatch of a Russian squadron to Turkish waters encourages the Bulgarians in this view.

DETROIT, Mich., Aug. 18.-The mutilated body of 4-year-old Alphonse Wilmes was found today in the rear of the Michl gan Stove works, his hands tied behind him and a handkerchief stuffed down his throat. The wounds apparently had been made with some sharp instrument. Alphonse had been missing since yester day. Perhaps the strangest part of the mystery is that there were only a few

small stains of blood on the body and clothing of the lad, despite the horrible character of the wounds. It looks as though the murderer after committing the deed, washed the blood from the body and then carried it to the lot where it was found. The police are investigating. (From a Staff Correspondent.) LINCOLN, Aug. 18.-(Special.)-The republican state convention here today nominated this ticket with practical unanimity, adopted a declaration of principles, and by resolution launched the boom of John L. Webster of Omaha for the vice presidential place on the presidential

The convention was marked by a spirit of harmony and absence of contentious struggles more pronounced than in any state convention of recent years. Considering the fact that there were no issues to be fought out, or conflicting candidactes to champion, the attendance was better than was expected. On the roll call 1,025 votes were recorded out of a total of 1,061, the eleven countles which were unrepresented being those most sparsely settled and remote, while of the delegations present most of them were fairly represented. The delegates evinced an earnestness and conviction of success in the coming campaign that lost no opportunity of expression in applause for the different speakers when

they scored points that went home. The convention as usual was late in getting down to business. The auditorium in which the meeting was held was in course of reconstruction, and the accommodations were hardly what they should have been, the lack of ventilation in particular making the atmosphere oppressive. A colored usher drove a rushing business selling palm leaf fans, and the delegates manifested a disposition to get/out into the open air as soon as possible. The convention was a buriness convention. It was called to order about 2:20, and had adjourned before 4 o'clock. Chairman Sloan, when introduced by State Chairman Lindsay, recognized the logic of the situation by cutting his remarks short, but what he said was well received. His humorous audience, and his ch

ve't was punctuated with applause. Barnes Unanimous Choice.

DeBord of Douglas, Senator Hugh McCarger of Saline and Carl Kramer of Platte all added words of endorsement for their respective counties. Judge Barnes was vigorously applauded when he was introduced to the convention. "I sincerely thank you," he said, "for this nomination. By it you have made me your candidate for the office of supreme judge. I deem it the greatest honor you could confer upon me and, coming as it does by acclamation, you have placed me under lasting obligations to yourselves and to the republicans of this state. The ambition of a lawyer to serve on the beach of the highest court of the commonwealth is a laudable ambition, and the right to render this service is the greatest gift and highest honor you can bestew on any member of our profession. I consider this office the highest office in our state, because on the administration of justice more than anything else depends the welfare of the people. Having served as supreme court commissioner for several years, I am fairly onversant with the duties and responsi bilities devolving upon the office of supreme judge, and knowing what these duties and responsibilities are, I promise you now, if elected, to discharge them to the very best of my ability. nomination. One Ballot for Regents.

The vote on regent, which followed quickly, developed signs of a combination in favor of Whitmore and Allen, which was clearly seen after both Douglas and Lancaster counties had voted solidly for The vote for Whitmore of 871 was almost unanimous and that for Alien of 670 a safe majority. The other votes went to Judge F. A. Barton, who has 369. Luther P. Ludden with 116 and ex-Senator F. M. Currie with 23. Ludden's votes came from the counties containing towns competing for the normal school location at the hands of the State Board of Education, of which he was a member, and Currie's votes came from his own and immediately surrounding

countles. Mr. Whitmore's speech of acceptance sparkled with effervescent wit that quickly put him into the good graces of all the delegates. Mr. Allen responded very briefly. John L. Webster read the report of the resolutions committee and the report was adopted by a vivi voce vote. The reso-
