It will be noticed that the levies for the general, water, sewer and bridge funds are the same as last year, while those for the street lighting and library funds are increased, and those for the judgment, improvement, library building and bond funds

was increased 1/2 mill to provide for additional lights. The fund for the maintenance of the public library was increased 14 mill at the request of the board of truswere levied to provide a fund for the purchase of a site for the Carnegie library building and this year 1 mill is levied for a similar purpose, as the trustees are desirous of adding the Pinney property to the

The intersection sewer fund levy is reduced 1 mill this year, the smaller amount being deemed necessary, as little work along this line of public improvement is contemplated for the ensuing year. The levy for the bond loan fund was increased 1/2 mill, as it was found that 21/2 mills was not quite sufficient to meet the annual interest. Three mills will be more than sufficient and will leave a surplus at the end of the year, so that in all probability 21/2 mills will be sufficient to be levied in 1904.

The receipts in the general fund of the Christian Home last week were \$175.94, being \$24.06 below the needs of the week and increasing the deficiency to \$2,485.56 in this fund to date. In the manager's fund the receipts were \$21, being \$14 below the needs of the week and increasing the deficiency to \$132.65 to date in this fund.

The little Bluffs for 1906 is \$3,862,000, but this includes the agricultural holdings, which are only subject to a tax of 5 mills. The assessed valuation of the agricultural holdings is estimated at about \$262,000, leaving assessed valuation of the agricultural holdings is estimated at about \$262,000, leaving already on the docket five were filed yes-\$3,600,000 as the valuation on which the 37% mills levy will be made.

The county tax levy will be fixed by the Board of Supervisors at its September meeting, at which time the city certifies up to the county board its tax levy as decided upon yesterday.

DES MOINES, Aug. 18.—(Special.)—Miners of coal in the vicinity of Des Moines, where there are a dozen excellent coal mines, predict that the price of coal will be much higher next winter than for many years. All the coal contracts made by the state for the state institutions next winter have been at an advance of about 50 cents a ton over last year. The coal operators and jobbers here report that the entire output of the coal mines in this state has been unteer.

Shoringe in Sweet Corn. There is a shortage in the sweet corn crop this season. Wet weather is the cause of Shamrock Gets One Minute and Fortythe trouble, which will make the crop from 40 to 85 per cent of a full crop. These are the reports coming in from the various sec tions where sweet corn is raised. The acreage last year was 13,390 and this year it is 18,000, a considerable of an increase. The failure of the crop this year will, however, cut down the yield. The factories for canning corn were started last week at Grimes and Dexter. Sales of futures have advanced from the shortage of the crop about 30 per cent and the factories have stopped buying futures. The Dexter plant has a capacity of about 70,000 cans and 750

RELIANCE MUST ALLOW TIME Five Seconds in Thirty-Mile Race.

NEW YORK, Aug. 18.—Reliance and Shamrock III were measured today in Erie basin by C. E. Mower, the official measurer of the New York Yacht club. As the result of his measurements it was announced tonight that Reliance would allow the challenger one minute and forty-five seconds over a thirty-mile course.

It was found that Shamrock III was slightly longer on the water line than the American boat, but the latter proved to have nearly 2,000 feet more sail area than the challenger and it was this enormous sail spread that taxed the American boat so heavily.

The announcement of the time allowance in favor of the challenger caused little surprise at the yacht club, as it was the general helief that Reliance would prove considerably larger all around than its opponent.
