The reaction has run to about six points in Rock Island and Amaigamated, which were the late leaders of the upward move- ment and which have, in turn, led the downward movement. The large volume of trading in Rock Island at the top level causes a bellef that a large distribution of stock was effected by insiders at that level and has given rise to the supposition in some quarters that the market was under manipulation to facilitate this opera- tion. The improvement, however, was mosily on the heavy weights, which in the majority of cases sold at right around a fickel higher, or mosily from 55.6 to 55.16. The medium and light weights sold about steady with yesterday, the former going largely from 55.10 to 55.20, and the latter from 5.25 to 56.40. The light run doubtless had a great deal to do with the advance on heavies, as packers could not get enough of the light weights to fill their orders and had to take the heavies. The close was rather slow with prices certainly no better than those paid earlier in the day. ### Grocers and Butchers Have Set a Third Date for Their Big Picate.

Signs were posted in the market place yesterday announcing that on Thursday,

August 27, the grocers and butchers of Omaha and South Omaha will have their big picnic, which means that there will be no market on that day, and that all the butcher shops and grocery stores will be closed. There is, of course, an "If" at-tached to the signs, but it is hoped by all

that it will not be used. This is the third date set for the big picnic, it having twice been postponed on account of wet weather. If there is a heavy rain next Wednesday, or any rain at all next Thursday, it will go
