Omaha may justify renew its claim to "fast luck" for "fast" bases, just to show that he could go lick one better. This, of course, compelled Eddie to go home and Schaffstall sent Goding across the plate with a single.

SUMMER RHEUMATISM

Every season has its own diseases, but Rheumatism belongs to all, for when it gets well entrenched in the system, and joints and muscles are saturated with the poison, the aches and pains are coming and going all the time, and it becomes an all-the-year-round disease.

Rheumatism never comes by accident. It is in the blood and system before a pain is felt. Some inherit a strong predisposition or tendency; it is born in them; but whether heredity is back of it or it comes from imprudent and careless ways of living, it is the same always and at all seasons.

When neglected or improperly treated, Rheumatism becomes chronic, the pains are wandering or shifting from one place to another, sometimes sharp and cutting, again dull and aggravating.

On the Brink

Many a man sticks to his desk until outraged nature gives way and he is on the verge of collapse. It's only a backache—he declares—will be well in a few days—but it doesn't get well. It gets worse and worse. Urinary troubles develop. Diabetes follows and then without further warning Bright's Disease fastens its terrible fangs in the system.

No man can afford to neglect backache. It is a warning cry of overworked kidneys and must be heeded. Doan's Kidney Pills have brought back many a man and woman from the verge of the grave—have saved many a year of suffering and give a new lease of life to thousands of kidney victims.
