COMMERCIAL AND FINANCIAL

Easier Feeling and L. wer Prices on Chicago Board Tuesday.

GOOD WEATHER ERINGS OUT LONG CORN

All Grain Shows Sympathy with Corn Decline and Closing Prices Are Generally Lower on All Articles.

CHICAGO, Aur. 25.—An easter feeling and lower prices ruled in all the pits today. Wheat closed barely steady at a decline of %c for September and December. Corn was down 142%c for September and 14c for December. Cats showed a decline of %2%c and %c for the same months, while provisions were down 2%c.

The wheat market was rainer duli and quiet, with little outside trading. There was a fairly steady opening on the early weather reports from the northwest, and a falling off of receipts in the same quarter. The early weathers in corn, however, caused bearishness, and considerable wheat came out, with a panelty of buying orders. September opened a shade lower to 140%c higher at 50%650%c, sold at 50%c and declined, with momentary railies, to 79%T The close was barely steady at a loss of 140%c, at 75%c. December closed \$25%c lower at 50%c, having sold down from 81%c681%c, the opening figures. Clearances of wheat and flour were equal to 561,700 bu. Minneapolis and Duluth reported receipts of 134 cars, which, with local receipts of 168 cars—34 of contract grade—made at total for the three points of 342 cars, against 376 last week and 750 cars a year ago.

Improved crop reports and a continuance

Improved crop reports and a continuance of good growing weather brought out considerable long corn, and a weak market ensued. Armour bought freely at the decline, and a short-lived rally followed. Offerings were free throughout the seiling, being general, with pit traders offering the only other support. September closed 160% lower at 18055%, starting at 51c and seiling up to carly. December was down to at 150%, ranging between 160% and 51% Local receipts were 452 cars, with 75 of contract grade.

There was an ensier feeling in oats, due to continued selling by commission houses in sympathy with corn. Local traders took offerings freely, but refused to bid the market up. Late liquidation, by longs added to the weakness, and September closed 160% lower at 34% 334%, after ranging between that figure and 34%, the opening price. December was down to at 25%, the bottom price, after starting at 25%, the bottom price, after starting at 25%, the bottom price, after starting at 25%, the starting at 25%, with lard off 2%c at \$1.50%, but her strength did not hold. Selling by packers caused a decline to below yesterday's prices. September pork closed 22%c lower at \$12.55, with lard off 2%c at \$5.20, and ribs down 15c at \$7.61%.

Estimated receipts for tomorrow: Wheat, 115 cars; corn, 226 cars; oats, 180 cars; hogs, 23,000 head.

Coffee Market.

NEW YORK, Aug. 25.—COFFEE—The market for futures opened steady at unchanged prices to a decline of 5 points following lower European cables and fully primary receipts, and ruled fairly active as a result of continued switching by nearby holders to the later positions, which, however, was consummated without any further change in prices. The close was steady, net unchanged to 5 points lower. Sales were 44,000 bags, including September at 3.70633.75c, November at 3.80c, December at 4.55c, March at 4.60c, May at 4.75c and July at 4,80c.

The easier tone in today's exchange market was largely due to the appearance in that market of bankers' finance bills which that market of bankers finance bills which are connected with borrowing abroad. The foreign banking houses in New York also are an important source of supply for funds in the time money market.

Rates for time money market.

Rates for time money and commercial paper continue very firm. The present abundance of call loans is largely caused by the placing on deposit of trust company funds with the banks to secure the interest of deposit accounts, which is higher than the present call loan rate. Any rise in the call loan rate would be promptly followed by the withdrawal of these trust company deposits from the banks for placing in the call loan market, which would necessitate a shifting of the loan accounts of the banks also and some probable disturbance in the money market. This continsitate a shifting of the loan accounts of the banks also and some probable disturbance in the money market. This contingency is a repressive influence on stock market speculation just now. There is an anxiety also over the closing up of the cotion corner, which it is generally be illeved is achieved and which will necessarily be an operation of some perfl.

Many rumors are still prevalent of efforts being made by large industrial corporations to secure temporary loans. The recent heaviness of New York Central, which was a depressing factor for a time this morning, seems to be explained by the petition to the stock exchange to list \$6,00,000 additional general mortgage bonds. These are in connection with the continuing operation of the company refunding plan. Lake Shore's statement of earnings for the June quarter, showing a decline in surplus to \$758.218, compared with \$1,777.854 for the corresponding quarter of last year, may also account for the recent depression of New York Central. The weekly crop pulletin was counted builds hon cotton and bearish on corn and wheat. Some old rumors were revived of coming control of Tennessee Coal by the United States Steel corporation, but with confirmation. Confidence in the cause for the strength of Amalgamated Copper.

The bond market was dull and steady.

Eyaporated Apples and Dried Fruits.

NEW YORK, Aug. 25.—DRY GOODS—Retail buyers of dry goods are here in large numbers and will continue to arrive during the week. Activity among jobbers, however, has not been reflected at first hands, although considerable more insistence upon securing prompt delivery is manifest. The evidence of scarcity in r.any lines is much greater as the curtailment of production grows.

Sugar and Molasses. NEW ORLEANS, Aug. E.—SUGAR—Dull; open kettle centrifugal, 3425%c; centrifugal whites, 4%c; yelow, 3 II-169 4 5-16c; seconds, 250%c.

OMAHA LIVE STOCK MARKET 1 COMP....

Cattle Receipts Light and All Good Stuff Sold a Little Higher. LIGHT HOGS STRONG, OTHERS LOWER

Fat Sheep and Lamba Sold Weak to a

Cattle, Hogs, Sheep, ... 583 843 238 ... 336 1,532 1,909 Omaha Packing Co..... Swift & Co.....

Bulls, veal calves and stags did not show enough change from yesterday to be worthy of mention.

The demand for stockers and feeders was again very brisk this morning and prices on good stuff advanced sharply. Some of the most desirable grades sold safely 100 lbc higher than yesterday, as high as \$4.10 being paid. Even the medium and common kinds showed more strength and commanded better prices than they have for some time past. Although there were a good many cattle in the yards, an early clearance was made.

The quality of the western beef steers received was again very common. Packers, though, wanted a few and as a result paid good, strong prices for the kinds that were offered. It was very evident that they were anxious for good stuff, but there has been nothing good here in so long that it is hard to tell what a choice bunch would bring. Range cows sold freely at stronger prices than were paid yesterday, while stockers and feeders were in good demand at prices ranging from steady to 10c or 15c higher for the best grades. Representative sales:
