John Begley Insane.

John Begley was taken to the county jail yesterday afternoon and turned over to the authorities. He will be brought before the insanity commission and the chances are that he will be sent to Lincoln Begley has been at St. Bernard's hospital in Council Bluffs for some time. Yesterday the sisters notified friends in this city that they would not keep Begley any longer and so friends went to the Bluffs and brought him to the county jail. Begley is well known in South Omaha, having at one time owned considerable property here. About a year ago his mind gave way and he was taken to the hospital; when he returned home he made so much trouble that he was again taken to St. Bernard's. Members of the local lodge of Eagles have taken care of Begley for hospital in Council Bluffs to the county fall yesterday.

Carnival Arrangements.

The committee of amusements for the Ancient Order United Workmen carnival which will be held next month succeeded yesterday in securing a dozen prizes to be raffled for on the last night of the earnival. Mayor Frank Koutsky donated a lot on Twentyfirst and P streets for the benefit of the order and B. E. Wilcox donated a lot in Wilcox addition. Other business men contributed liberally. The carnival will be advertised all over the state and the members of the lodge here expect that there will be a big attendance. The proceeds will go towards paying for the new temple at Twenty-fifth and M streets, which has

Storm Delays Mails.

Yesterday afternoon's storm stopped street car traffic for an hour and a half. Outgoing mails were delayed to some extent because there was no car service and there is no provision for wagon service except between the postoffice and the Burlington depot at Thirty-ninth and L streets. Crowds gathered at Twenty-fourth and N streets waiting for street cars. When the line was opened the cars came rapidly enough to handle the large number of people waiting to get to Omaha.

Rain Damages Streets. The rains yesterday afternon and last night did considerable damage to the unpaved streets. Last night the city engineer was about, but he was not able to make any estimate of the damage done. He said that the sewers carried off the storm water without much difficulty and that there had been no damage to sewers reported. GENERAL STRIKE

Coal Mine Owners in Missouri and Kansas Are Expecting Trouble.

Ask President of International Union to Have Work Continued During Arbitration of Proposed Wage Scale,

KANSAS CITY, Aug. 28 .- The conference of the Southwestern Interstate Coal conference adjourned here tonight. There were fifty-six operators of the three districts in the southwest in the conference and the first work done was to agree not to accede to the demands of the Missouri miners. Then the conference voted that the operators should stand together in a defensive alliance and that all should fight for one and for all against the miners

Just before the close of the morning session a resolution was adopted calling for the appointment of a committee of five to take up the matters at issue with John Mitchell, president of the National Mine Workers' union of America. The object of the committee is to appear before President Mitchell and request that the difficulties in Missouri be settled by arbitration.

General Strike Feared. It is believed that next Tuesday morning, September 1, every coal mine in the state of Missouri will be shut down by a general strike, unless in the meantime President Mitchell or the national board of the union advises the Missouri miners not to strike pending a settlement by arbitration. The committee will leave for Indian-

apolls tomorrow to lay the matter before President Mitchell. He will be asked to use his good offices in whatsoever way he can. The operators will suggest that two scale committees be appointed. If they cannot arrive at a settlement arbitration is proposed. The committee will urge President Mitchell to advise the Missouri miners not to go on strike Tuesday, but keep on working until the matter is finally

The operators will agree to pay whatever scale is finally decided up from September If President Mitchell or the national board cannot prevent a strike pending arbitrations, the operators then may make a general appeal for arbitration.

Judge Gray of the United States circuit ourt, Bisnop John L. Spaulding of the Catholic church and other distinguished men of affairs may be asked to form the board of arbitration

SOME TALK OF A MERGER Representatives of Building Trades

Hold an Important Meeting

in Indianapolis. INDIANAPOLIS, Ind., Aug. 26.-The presidents of seven international building trades organizations, having a combined membership of 650,000 workmen, began a meeting in Indianapolis today that may result in the organization of a national federation of building trades for the purpose of supporting each other and arbi-

trating differences. Among those present are H. Lillian of St.St. Louis, president of the Hod Carrier's' and Building Laborers' International union; Frank Buchanan of Chicago, president of the Structural Iron Workers; G. P. Gubbons of Chicago, president of the Brick Masons' International union; D. W. Tilden, Chicago, secretary of the International Brotherhood of Painters and Decorators; M. P. Carrick of Lafayette, Ind., secretary of the same organization, and W. A. O'Keefe, St. Louis, president of the Plasterers' International union.

President W. D. Huber and Secretary Frank Duffy of the Brotherhood of Carpenters and Joiners, are also in the meeting. The organization of a federation of the allied workers would not necessarily mean that the organizations now affiliating with either the American Federation of Labor or the National Building Trades council would withdraw from those affiliations. The convention will last two days.

The bricklayers, plusterers, lathers granite cutters and several other national building trades organizations are not represented at the meeting, but it was said that they have given assurance that the plan meets with their approval and they will become a part of such a federation of building trades.

MUNSEY OWNS DAILY NEWS Litigation Over New York Paper is Taken from the Court.

NEW YORK, Aug. 28 -- On application of counsel for Frank A. Munsey, Justice Davis in the supreme court today signed an order vacating the temporary injunction obtained by Colonel W. Brown, restraining Munsey from selling the New York Daily News at auction. At the same time Justice Davis signed an order discontinuing Colonel Brown's sult.

When asked what these orders meant, Charles E. Russmore, who represented Mr. Munsey, said: "Mr. Munsey has acquired Colonel Brown's entire interest in the Daily News."

Mr. Russmore declined to make public the terms upon which Mr. Munsey acquired the interest. He said, however, that Munsey would continue to publish the paper. By purchasing the 140 shares of stock of the Daily News Mr. Munsey becomes the sole owner of the plant.

WYCKOFF NOT GUILTY American in Cuba Churred with Misappropriating Funds is Acquitted,

HAVANA, Aug. 26.-The criminal court his afternoon acquitted Joseph De Wyckoff, an American lawyer, of the charge of misappropriating \$10,000 sent to him by Michael J. Dady of Brooklyn for the purpose of securing an opinion on the aqueduct at Clenfueges. The purchase was not mated and De Wyckoff did not re turn the money. The contention of the defense was that the power of attorney given by Dady to De Wyckoff was not special but general that Dady owed De Wyckoff more than \$10,000, and that De Wyckoff was justified in applying the money to that account. The court agreed that De Wyckoff's business relations with Dady fustified the application of the money to other purposes other than the aqueduct.

# BECOMING

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought

of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents; "morning sickness," and other dis-

comforts of this period. Sold by all druggists at \$1.00 per bottle. Book containing valuable information free. The Bradfield Regulator Co., Atlanta, Ga.
