MISTAKE IN CIPHER CAUSED REPORT

Minister Leishman Explains How Error Came to Be Made.

CORRECTION RELIEVES THE TENSION

Washington Officials Now Think Diplomacy Will Be Successful.

SHIPS WILL GO TO TURKISH PORT

Situation of Missionaries Causes Government to Decide on Naval Demonstruction at This Time in Turkish Waters.

WASHINGTON, Aug. 28.—A decidedly new turn in the case of United States Vice Consul William Magelssen at Beyroot, Syria, who was reported to have been assistanted last Sunday, developed tonight when it became known that the report was incorrect and that, although Mr. Magelssen in the United States in th Incorrect and that, although Mr. Magelssen had been shot at, he had not been injured Minister Leishman at Constantinople, who said the mistake in making the original announcement was due to a mistake in translating the cipher message to the minister. The dispatch from Mr. Leishman followed closely on the Associated Press bulletin on the same subject which had been shown to the prominent officials of the government. The dispatch of the minister was communicated to the president at once at Oyster Bay, but up to a late hour tonight nothing had been heard from him on the subject at the State department.

### Report Relieves Tension

ts contents were extremely gratifying to officials of the government here, as it relieved the situation of its extreme tension and leaves the way open for an amicable and peaceful adjustment of the incident. Whether or not orders will be given calling off the proposed cruise of the European squadron to Turkish waters is a matter for future determination.

Acting Secretary Loomis declined to make public the text of Minister Leishman's dispatch tonight, but he gave a summary of its contents.

As stated in the press dispatch it showed that Mr. Magelssen had been shot at by some person at the time unknown to the officials, but that he had not been hit. The local Turkish officials were prompt to express their regret at the occurrence and sitting in Washington in May, last year, were exerting themselves to apprehend the awarded Mr. Burrell \$448,000 damages in assassin, but thus far had been unsuccess-

The minister's dispatch also said that Consul Rayendal had reported to him that some of the consuls located at Beyront had WILL reported to their government that the situaunsafe; that this condition of affairs had existed for some time and that something ought to be done to relieve the ter The opinion was expressed that the at tempted assassination of Mr. Magelaser would probably bring matters to a focus, and some effort be made to avoid further

# Ships Will Go to Turkey.

The latest report from the Turkish situation was discussed in official circles, where the view is held that the denial of the report of the killing of Mr. Magelssen relieves the situation of its immediate awkward and embarrassing feature, but will not prevent our naval vessels continuing to the east. Minister Leishman in one of his dispatches to the department suggested that conditions were such that it might be well to have some naval demonstration in its utterance. in those quarters. Reports also come to the government from the missionary interests of the threatened destruction of their property at Harpoot, and because of this, Admiral Cotton, it is expected, will be allowed to proceed with one or more of his vessels to Beyroot.

Acting Secretary Darling tonight received a cablegram from the admiral dated Villefranche, saying that he had left that place with the cruisers Brooklyn and San Francisco for Genoa on the way to Beyroot President is Gratified.

OYSTER BAY, Aug. 25 .- President Rooss velt was notified tonight by a representative of the Associated Press of the incorrectness of the report that Vice Consul William C. Magelssen at Beyroot, Syria, had been assassinated

The president expressed gratification that Consul Magelssen had escaped without injury from the assault of the would-be murderer. He announced, however, that no change at present would be made in the plans of this government and that the European squadron which he last night ordered to proceed immediately to Beyroot, would continue to its ordered desti-

It can be said that the president and Secretary of State Hay both regard it advisable in view of the present state of unrest in Turkey, to have American war vessels in Turkish waters.

For several hours today President Rooseconference at Sagamore Hill. They discussed every suggested phase of the situation in Turkey. At the conclusion of his intention of returning immediately to threaten to march to Winnipeg. Washington.

Secretary Hay Takes Serious View. The fact that Secretary Hay considers his presence in Washington necessary at this time indicates the serious view he takes of the Turkish situation. He had not expected to return to Washington for sev eral weeks, but the developments in the Ottoman empire during the past few days induced him to come to Oyster Bay for a conference with the president, after which it was deemed desirable by both that he should return to Washington at least for a couple of weeks.

The secretary arrived here from his summer home in New Hampshire early this afternoon. In a driving rainstorm he was conveyed to the president's home in time for luncheon. During the greater part of the afternoon he was in conference with the president. He left Sagamore Hill about o'clock and took the 5 o'clock train for New York, from where he will go to Washington tonight.

Consul Leishman Explains. received by Secretary Loob from Acting Secretary of State Loomis at Washington from Minister Leishman at Constantinopie, nfirming the Associated Press report of the inaccuracy of the report of Vice Con-
