

**We have no cuts to show these late styles**

**New Styles**

We are showing this season's latest styles in Ladies' Ready-Made Suits. They come in all the new fabrics for fall and winter.

**THOMPSON, BELDEN & Co**

Y. M. C. A. Building, Corner Sixteenth and Douglas St

is prevented from spreading over the adjacent bottoms and getting across them to the river by the embankment of the Union Pacific Railway company topped the company's grade this morning and soon began cutting its way across.

The railroad officials labored all day attempting to save the grade and in addition to a large force of men brought in by train, employed all the local laborers who could be secured. Thousands of bags of sand and tons of rock were used, but as the waters continued to rise it was seen toward evening that the only way to save the track possible was to provide some outlet for the water. The polder was pressed into service and instead of attempting to hold the water in check it was given free vent through the grade to the river and the company officials proceeded to the construction of a temporary pile bridge on which the track will be laid as soon as possible.

With the cutting of the grade the water commenced to recede slowly, but there is such an immense volume of it spread out over the lowlands that it will be some time before any considerable relief will be experienced.

The company officials in charge of the work estimated late this evening that they would have repairs completed and the track in condition for trains to pass by 1 or 2 o'clock Saturday morning.

All trains from the west were held here today in hopes that the track would soon be made passable. When it was seen that this would require considerable more time the trains from the west were sent back to Columbus from where took the B. & M. going east by way of Lincoln. A trainload of sheep was unloaded at this point and placed in the stockyards, where they were fed and cared for until such time as they can proceed to Omaha.

Thousands of acres of farm lands have been overflowed by the water from Shell creek and the loss to crops will be immense. No estimate of the loss can be made at this time, but the submerged country contains a large amount of small grain, the stock and which is thoroughly soaked, and it is feared the corn will be ruined if the water stands on the ground for any length of time. A large amount of hay will also be lost.

**FREMONT, Neb., Aug. 28.**—(Special.)—A special meeting of the city council was held last evening for the purpose of taking some action to get rid of the water on F street, between the railroad tracks and Third street. A survey was ordered made and ditches were dug to take out the water. It is probable that in order to give permanent relief permission of the board of supervisors will have to be obtained to run the ditch outside of the city. J. D. West, who lives near Twelfth and Bell streets, wanted some action done for the part of the city right off. He claimed that the city had neglected to keep the gutters cleaned out and consequently cellars, barns and some houses were flooded. He intimated that the people up there intended to hold the city liable for damages. The Elkhorn river is high and considerable damage has been done by the water in Elkhorn township east of the city. The family of Al Campbell was forced to leave the house on account of the water and the boat, which was used to take refuge in the second story. Farmers think that the rains will hurt corn badly unless hot dry weather follows. Sugar beets have been considerably damaged. Several fields have been entirely under water but with good weather will come out all right. The Platte river is high, but some distance from the top of its banks.

**LINWOOD, Neb., Aug. 28.**—(Special.)—For the last three days there has fallen half as much rain as fell altogether before this summer. Lowlands are flooded and water is in all the cellars of the business houses.

**TOPEKA, Kan., Aug. 27.**—The Kansas river at this place is slowly rising. On account of the heavy rains a rise of five to seven feet is expected by morning.

At Manhattan the Blue river is tonight 16 1/2 feet above low water mark. The river is overflowing its banks and hundreds of acres of growing crops are ruined and farmers are being driven from their homes. The Union Pacific and Blue Valley tracks are under water and cannot be used to-night.

**ATLANTIC, Ia., Aug. 28.**—(Special.)—This spring's flood tide fair to be repeated here. All the streams in the county are now over their banks and several hundred acres of farm lands are under water while several roads are impassable. In this city a half dozen dwellings are flooded, the families being driven out. No mail has reached here from the west for three days. Train service is badly crippled, while even the telegraph and telephone service is uncertain. It is still raining and the streams are still rising.

**CLINTON, Mont., Aug. 28.**—Advices from Moorcroft, Wyo., report a disastrous cloud-burst in that section yesterday. Two large bridges on the Burlington, with a considerable amount of trackwork, washed out, delaying traffic from fifteen to twenty-four hours. Two passenger trains are stalled over the lowlands that it will be some time before any considerable relief will be experienced.

**LUCANIA BRINGS MARCONI**

Robert Grau, Who Arrives on Boat, Announces Return of Mary Anderson Navarro.

**NEW YORK, Aug. 28.**—The Cunard liner Lucania arrived at Quarantine at 6:30 this evening after a very fast passage of five days, eleven hours and eleven minutes, over a total distance of 2,873 knots, at an average speed of 21.3 knots per hour. It brought 352 saloons, 283 second cabin and 610 steerage passengers.

Mr. Robert Grau, just as he boarded the Lucania from New York, received a practical acceptance of his offer from Mary Anderson Navarro to give 100 readings in America under his management in 1904-05. The terms are not yet known, as all the details have not been arranged.

Being equipped with special apparatus for receiving wireless messages from long distances the Lucania was enabled to keep her passengers, among whom was Sig. Marconi, in touch with the news of the day during the entire voyage. After leaving Liverpool last Saturday news was received from Genoa, a station at the mouth of the river Marconi, on Sunday, after leaving Queenstown messages were received from Corkhaven, on the Irish coast until the vessel was 115 miles away. The American liner Philadelphia, bound to New York, was in communication on Monday. From Cape Hatteras, on Tuesday, Wednesday and Thursday were received bulletins, among which were the results of the first and second America's yacht races at Sandy Hook, and a report of a derelict in the line of the Atlantic steamer, Nantuxet, lighted sent news on Friday morning and Sagaponack, Long Island gave Lucania the latest news in the afternoon. These bulletins were posted on board the ship when received, and when the vessel was near Sandy Hook they were published in a small four-page newspaper for distribution among the passengers.

**LOCATE MAN WHO TOOK SILVER**

Employe of Silver Company Stole It and Sold It to Another Manufacturer.

**NEW HAVEN, Conn., Aug. 28.**—The local detective bureau officials believe that the mysterious thefts of silver from the International Silver company's shops in Meriden have been cleared up by the arrest of John H. Booth, of Meriden, an employe of the company, and Joshua Shutta, a manufacturing jeweler of this city.

The silver company has sustained losses of silver for many months, the total being estimated at 3,000 ounces. Investigation by New Haven officers, who discovered that silver was being sold in this city, led to the arrest today of Booth, who is a silver spinner, at his home in Meriden. Booth later made a statement implicating Shutta, to whom he said he had sold the metal.

**COAL HOLDINGS CONSOLIDATED.**

**PITTSBURGH, Pa., Aug. 28.**—The Pittsburgh Coal company has just closed the deal for the purchase of the coal and oil holdings of Henry W. Oliver, except those in the Blaine Coal company. Shallenberger Coal company, for a sum approximating \$1,700,000. The tract comprises about 4,500 acres, mostly all of the Pittsburgh coal in the interest of the coal, outside of the coal owned by the Pittsburgh Coal and Oil company. The tract lies near Pottsville, Pa., and is a part of the Baltimore & Ohio.

**THE LAST DAY**

Of our Great **FREE SALE** Boys', Girls' and Infant's Wear.

Saturday will be the last day on which to buy of the goods that were slightly mused, or in any way affected by water during the recent fire in our building. \$5,000 worth yet remains, none sold at retail after 10 p. m. Saturday.

At 6 p. m., Monday, August 31st, all that then remains will be sold to the highest bidder.

**A Few of Saturday's Bargains**

**Boys' Hats and Caps**

White duck caps ..... 5c  
Woolen caps ..... 10c  
Fine felt hats ..... 25c

**Boys' Suits**

The little water that got to our boys' suits did not hurt them. There's no shoddy in them, you know—perhaps there's a wrinkle here and there. The sale prices range about half what they are worth. A big array of suits in all the popular styles, for ages 3 to 18 years.

**Benson & Thorne.**

CATALOGUE READY September 1st.

1515 Douglas St

**RAILROADS ARE RECOVERING**

Omaha Lines Make Valiant Fight Against the High Waters.

REPAIR WORK IS SLOW, BUT STEADY

Papio Gets on Rampage and Overflows Tracks, Reaching Width of One Mile in Vicinity of Bellevue.

The railroads are gradually recovering from the troubles caused by the rains, although the recovery is proving to be very slow. The Northwestern has opened its Chicago line and has been running its trains on schedule time ever since Friday morning. The Missouri Pacific, B. & M. and both are getting in better shape and other of the lines can use the one's track to Neola, as the lines are well fitted to change track for that distance. The Northwestern line between Fremont and Omaha is also reported as being almost repaired and the Black Hills train Friday afternoon used the track for the first time in two days.

More washouts were reported in Nebraska Thursday night. The Union Pacific suffered from a minor overflow at Schuyler and all of the trains from the west were sent around by the B. & M.

Papio creek got on a rampage down near Bellevue and overflowed, causing a great deal of damage to the B. & M. and the Missouri Pacific. The B. & M. had a quarter of a mile of track washed out at Bellevue and the "Y" damaged by the water. The Papio branch was also damaged by several washouts. On the Missouri Pacific the Papio caught the track at Fort Crook, at Seymour Lake and washed out short stretches of the track. All of the Missouri Pacific trains consequently were detained over the Union Pacific by way of Papillon.

**Wabash Gets Out.**

The Wabash has some trouble Thursday night with high water near St. Louis. Blanchard and did not run their St. Louis train out of Omaha until yesterday. The water did not cause any particular damage and service has been resumed.

Superintendent Bignell of the B. & M. was in the city for a few minutes Friday morning, while he was in Bellevue to superintend the repair work there.

"The damage on the Chicago, Burlington and Quincy," he said, "must have been pretty bad. I understand there were washouts all along the line between Creighton and Council Bluffs. The damage on the Chicago, Burlington and Quincy," he said, "must have been pretty bad. I understand there were washouts all along the line between Creighton and Council Bluffs. The damage on the Chicago, Burlington and Quincy," he said, "must have been pretty bad. I understand there were washouts all along the line between Creighton and Council Bluffs."

**CONSUL NOT KILLED**

(Continued from First Page.)

The message from the department was deciphered Secretary Lord communicated its contents to the president by telephone. Minister Lefthand explains that the error occurred in deciphering a telegram received from Consul Ravendall, at Beyroot, concerning the attempt on the life of the Turkish consul. The text of the message is not made public here. It can be said that the purpose of President Roosevelt is to afford American citizens in the disturbed provinces of Turkey all the protection possible. For that reason and for others that may develop, the president has reached that no change will be made at this time in the orders to the European squadron. Admiral Cotton will proceed with his vessels to Turkish waters with the idea of safeguarding fully Americans and American interests.

**Says Magelsen Is Not Dead.**

**NEW YORK, Aug. 28.**—In response to a telegram inquiry as to the reported assassination of Vice Consul Magelsen at Beyroot, Syria, Mr. Fryer, treasurer of the Board of Presbyterian Missions at Beyroot, has cabled to the Associated Press as follows:

BEYROOT, Syria, Aug. 28.—Although the attack made on Vice Consul Magelsen was evidently premeditated, the bullets missed him and he escaped unhurt.

(Signed) FRYER.

**No Change by Missionaries.**

**BOSTON, Aug. 28.**—Rev. James L. Barton, D. D., secretary of the American Board of Missions, was tonight asked whether the missionaries would change their position in the Syrian desert, where they are now, in view of the reported assassination of Vice Consul Magelsen at Beyroot. Barton said that the missionaries would not change their position in the Syrian desert, where they are now, in view of the reported assassination of Vice Consul Magelsen at Beyroot.

**Returned Missionary Talks.**

**MONTROSE, Pa., Aug. 28.**—Dr. H. H. Jessup, who recently returned from Beyroot, Turkey, in speaking today of the attempted assassination of Vice Consul Magelsen said there is no evidence of any popular uprising in Beyroot against either Christian foreigners or Americans. There is no special hostility to America in Syria, not even among Mohammedans, the leading Mohammedans of Beyroot being among our best friends. He said:

I received today a letter from a prominent Mohammedan in Beyroot containing the fact that my son is going to preach the gospel in Persia, although he said he would not do so until he had been to Syria. The murderous attack on Mr. Magelsen, said Dr. Jessup, is not due to any popular uprising, but the work of some individual, acting either through personal revenge, or in order to attract attention to his own cause. He said that he had been told that the Consul Ravendall and his brother-in-law, Vice Consul Magelsen, were most active in securing the rights of the American citizenship. There were frequent cases of defending Syrian Americans in Beyroot, which Mr. Magelsen had been prominent, and this may have awakened the personal hostility of certain persons who hired the man to shoot him. It is notorious in Beyroot that no Moslem can be seen killing a Christian. I do not apprehend Christian foreigners in Syria, and the Mohammedan insurrection. The visit of the American fleet will have a most wholesome effect and it would not be surprising if the American missionaries and professors of the Protestant college in Beyroot have always taught the people loyalty to the sovereign and obedience to the law, and the Americans residing in Turkey have almost without exception been regarded by the government and people as honest and legitimate peaceful avocations and desiring only the good of the country.

**Family Reunion and Thanksgiving.**

**LA CROSSE, Wis., Aug. 28.**—News that Vice Consul Magelsen was alive and unharmed was conveyed to the family of the vice consul's brother, the Rev. H. G. Magelsen, here tonight and to the parents of the vice consul at Highland Prairie, Minn. Arrangements will be made for a family reunion and services of Thanksgiving probably will be held at the Norwegian Lutheran church here and in the church at Highland Prairie, Minn.

**New Road to Mexico.**

**DENVER, Aug. 28.**—Frank W. Kline, president of the Arizona, New Mexico & Colorado Railroad company, who has just returned from a trip to the east, announces that satisfactory arrangements have been made for the construction of a railroad to connect Colorado with Mexico. The primary object of the road is to open coal fields in Socorro and Valencia counties, New Mexico, and deliver the coal to smelters, power and mining plants in southern Arizona, northern Mexico and on the Pacific coast. The road will connect with the Southern Pacific in Cochise county, Arizona, and will be extended to Benson to form a connection with the Sonora railroad, which will operate a route from Denver to the port of Guaymas on the Pacific coast of Mexico.

**TO DROP THREE MEMBERS**

Missouri Editor Objects to Association with Conferees Charged with Crooked Work.

**ST. LOUIS, Aug. 28.**—During today's session of the Missouri Press association, W. O. L. Jewett, editor of the Shelbyville Torchlight, caused a sensation by introducing a resolution for striking from the membership list the names of John A. Lee, former lieutenant governor and editor of the Interstate Grocer; I. N. Page, editor of the Bonne Terre Star, and R. B. Speed, editor of the Nevada Mail. The reason for the resolution was that recent boodle exposures in the state and the connection therewith with names of the three editors did not reflect credit upon the association.

**FRATERNAL CONGRESS ENDS**

Considerable Debate Over Plan to Increase Stability of Value of Certificates.

**MILWAUKEE, Aug. 28.**—The National Fraternal Congress meeting came to a close tonight after action on the proposed uniform bill containing thirty-three sections. Until section 30 was reached most of the discussion was confined to legal phraseology. Section 30 provides that all organizations heretofore organized shall become "registered" rate associations. This means the adoption of specified rates. Old organizations may become so at their option. Section 31 provides that all of these registered associations shall file annual reports from the secretary to the national committee, the net value of every certificate in force among the members of the society. If on such computation the commissioner finds that the reserve of the society is not sufficient to cover the value of the certificate, he shall order the deficiency made up, or the difference deducted from each certificate. Section 32 defines the word association as used in the measure and section 33 repeals all laws in conflict with the measure. Section 34 was adopted by a vote of 10 to 6.

**HOLD CHINESE REFORMERS**

Minister Conger Instructed to Have Six Suspects Punished at Shanghai.

SEGREGATE INTERNAL REVENUE CASH

Secretary Shaw Adopts This Plan to Be Able to Place Money in Government Depositories When Needed.

**WASHINGTON, Aug. 28.**—It was said today at the State department that Minister Conger had been instructed that he should not be a consenting party to the surrender of the six Chinese suspects arrested at Shanghai, and put on trial before the mixed court of the settlement, and of whom the consular body of Shanghai refused to surrender on the demand of the Chinese government for punishment according to Chinese custom. Minister Conger was instructed to take the ground that the judicial procedure which was adopted under a formal agreement with the treaty of Shanghai should be carried out with appropriate punishment in the settlement, it was stated today, has been departed from its original position in the matter and never has had any intention of giving up these men.

**Segregate Internal Revenue Receipts.**

The published statement that Secretary Shaw had decided that under existing laws he was authorized to segregate government funds from internal revenue sources and deposit the same at his discretion in national bank depositories, does not raise a new question, although such deposits have been made heretofore had not been previously covered into the treasury. As Senators Smith and Norris are set for the second week in November, as the cases of the United States held in effect that national bank depositories are parts of the treasury of the United States, so far as their authority to hold public deposits is concerned. The secretary, so far as can be learned, has determined on the deposit of any further funds with national banks, but has decided that it is well within his province to make such deposits. With a view of meeting any money difficulties hereafter he has segregated the internal revenue receipts from other receipts and has opened a separate account in the treasury ledger so that in case of need he may know just what amounts are available for the purpose.

**American Murdered in Cuba.**

Minister Squiers at Havana has informed the State department of the murder of Ira C. Bradley, near Holguin, Cuba, on June 9. Bradley was about 60 years old and a resident of California. He had been trying to establish in Cuba an American settlement known as Bradley's colony. The only motive assigned for the murder was robbery, although Bradley was mutilated and badly beaten. The dispatch says that the country in the vicinity is infested by a gang of murderers and robbers.

**Attorney for Corporation Bureau.**

The Department of Commerce and Labor announces the appointment of Edwin W. Sims as special attorney in the bureau of corporation. He has been practicing law in Chicago for the last ten years and has been county attorney of Cook county since 1901.

**Captain Myers Accidentally Shot.**

**WASHINGTON, Aug. 28.**—News has reached here that Captain J. T. Myers of the marine corps, stationed on the armored cruiser Brooklyn, was accidentally shot in the leg recently by a bullet from the gunboat Machias while engaged in target practice off the southern coast of France. It is said the wound is not dangerous.

**A Guaranteed Cure for Piles.**

Iching, Blind, Bleeding or Prolapsing Piles. Your druggist will refund your money if PAZO OINTMENT fails to cure you. 50 cents.

**NAVY MAKES A MISTAKE**

After Force Had Been Put Out of Action It Captures Forts in War Game.

**PORTLAND, Me., Aug. 28.**—At noon tomorrow the mimic war waged off this port since midnight Tuesday, with all manner of maneuvers by the navy, will come to an end and the several thousand men hurried to the defense of the city will be withdrawn from the harbor defenses.

Today's movements consisted of a fierce engagement during which a landing party of 1,800 men under Rear Admiral Coghlan captured all the stations and defenses of the Seaside and Portland. These marines and jacks landed almost at dawn and were engaged until afternoon, when they returned to the fleet, which had remained off Richmond's Island all day. Rear Admiral Coghlan believed he had achieved the greatest victory of the navy, but at 3:45 Lieutenant Jordan, in command of the engineer corps at the Two Lights, was informed by telephone that the umpires had decided that no landing was effected by the invaders, as the men had been put out of action before the landing was attempted. Therefore, the capture of all the points on the cape including the signal, searchlight and fire control stations at Two Lights, the defenses at Silver Springs, and the searchlight at Two Lights were void and they stand as if no attempt had been made at their capture. This left the immense searchlights in action for a demonstration tonight. Reports that the invaders were marching upon the forts and the city were not carried out, the men returning to the ships at 3:45. The men standing at the line of the fortifications on Meeting House hill, three miles from the city, were reinforced by 600. The capture of the city would require more than 600 invaders.

**ASKS FOR MORE JUDGES**

Honolulu Bar Association Prepares Memorial to Congress Requesting Reforms in Courts.

**HONOLULU, Aug. 28.**—The Honolulu Bar association has drafted a memorial to congress asking that the number of supreme justices of the territory of Hawaii be increased from three to five, owing to the large number of cases awaiting decision. An attempt will also be made to increase the number of circuit judges in order to relieve the congested calendars of the courts. As a result of the different changes in governments, many new technical points have been raised in the litigation of the islands.

**THROAT OF GIRL IS CUT**

Father Says It Is Accident, but There Are Some Mysterious Features.

**RICHMOND, Mich., Aug. 28.**—Twelve-year-old Agnes Douglas's throat was cut last night while she was sleeping with her father, and her physician says she will die.

The father says he awoke and found Agnes bleeding on the floor. He says she must have fallen against a plate of glass that was standing near the bed in the room, which latter was found broken. It is now thought to be certain that the child will recover. Dr. McCarthy is con-

All responsible jewelers keep it.

**ONE KILLED AND SIX INJURED**

Explosion at South Chicago Hospital Results Disastrously for Workmen.

**CHICAGO, Aug. 28.**—Michael Foslinski was killed and six of his companions were or less seriously injured by an explosion in the Illinois Steel company's works in South Chicago today. The cause of the explosion was not explained satisfactorily, but a draft pipe, said to have burst, killed him. Five thousand workmen in the plant became panic stricken and all the laborers in the north end of the plant were thrown to the floor. Foslinski was struck in the head and knocked 100 feet. Flying bits of steel hit the men.

**MATTHEWS GOES OVER**

Missouri Senator Will Be Tried for Accepting Bribe at November Term.

**JEFFERSON CITY, Mo., Aug. 28.**—The case of Senator Matthews, who is under indictment charged with accepting a bribe from D. J. Kelley in connection with the state bill, will come up Monday as was expected. Senator Parry, an important witness for the defense, will not be able to appear in court on account of illness. Judge Hazell will probably set the case for the second week in November, as the cases of Senators Smith and Norris are set for the first week of that month.

**TRAINMEN'S PAY INCREASED**

Wabash Employees in Illinois Receive Advance of 12 to 15 Per Cent.

**BLOOMINGTON, Ill., Aug. 28.**—General Superintendent McGee of the middle division of the Wabash road today issues a bulletin that on September 1st pay would be increased for all trainmen and switchmen on Illinois lines of the road. Those in freight and yard service will be advanced 12 per cent, and those in passenger service 15 per cent. The increase is the same as that recently allowed by the Illinois Central and Chicago & Alton railroads.

**BILL RAISERS UNDER ARREST**

Stencils Used in Changing One Dollar Notes to Five Found in Their Possession.

**LOUISVILLE, Ky., Aug. 28.**—Four more arrests have been made by the police and federal officers in connection with the operations of a gang of bill raisers in Louisville and Cincinnati.

Junius Stokes and Thomas Peoples were arrested here, Albert Jackson at Evansville, Ind., and Joseph Cavitt at Corydon, Ind. Stencils used in raising \$1 bills to \$5 were found on two of the prisoners.

**DICKINSON IS THE CHAMPION**

Defeats L. Goodrich of Keokuk in Amateur Golf Contest.

From a Staff Correspondent.

**DES MOINES, Aug. 28.**—(Special.)—Warren Dickinson of Des Moines and L. Goodrich of Keokuk began a thirty-six-hole contest for the state amateur golf championship on the links of the Golf and Country club here this morning. The first eighteen holes resulted in a tie, both men playing very poorly, the medal score being forty-two out of forty-seven and forty-five in. These men yesterday won their right to the contest. Dickinson defeated J. R. Maxwell of Keokuk, five up and four to play, in one of the most brilliant contests of the tournament. It was played most of the time in driving rain. Goodrich won from H. D. Adams of Des Moines, three up, in a closely contested game to the finish. There were thirty-two persons entered in the state contest.

The consolation was won by Captain Ely of Des Moines over Earl McConnell of Des Moines, two up. The solace cup went to Robert Finkbine, Jr., ex-state champion, who defeated Jack Elbert, one up.

In the women's championship class with semi-finals, Mrs. W. O. Finkbine won over her opponent in a close game, Miss L. Wright, one of the best players, lost five down and three to play, to Miss Chamberlain of Des Moines. Mrs. Statler won from Miss Nelson, two up. Mrs. Goldthwaite lost to Miss Davis of Keokuk, four down and three to play. This will be finished Saturday.

Warren Dickinson of this city won the amateur state golf championship this afternoon, defeating L. Goodrich of Keokuk, two up and one to play, in thirty-five holes.

**PAIRINGS FOR AMATEUR GOLF**

Play Commences September 1 on Nassau Club Links for the Championship.

**NEW YORK, Aug. 28.**—The amateur championship golf tournament will be commenced on the links of the Nassau Golf and Country club at the beginning of the month. The Havemeyer challenge cup and four medals will be competed for. The winner of the competition will receive a gold medal and will be the champion amateur golfer of the year. The challenge cup will be contested for the first time, which he is a member. The second man will receive a silver medal and the third a bronze medal. The competition will be at eighteen match play. Among those who are in the tournament are the following: E. A. Cooke of the Philadelphia Country club, Harold S. Naylor of the Philadelphia Cricket club, and George J. Wright of the Inverness club. N. Stewart Campbell of the Agawam Hunt and Nicholas Williams of the North Jersey Country club, John C. Davidson of the Columbia Golf club and E. Conklin of the Princeton Golf club. Walter J. Travis of the Garden City Golf club and William B. Eyster of the Allegheny Country club, Louis N. James of the Glenview club and A. Graham of the North Jersey Country club, John M. Sellers of the Glenview club and George T. Brokaw of the Deal Golf club. Walter E. Brown of the Essex Golf club and James M. Rhet of the Crescent Athletic club, R. M. Bokum, Jr., of the Glenview club, and John B. Hays of the Allegheny Country club, H. C. Whitney of the Nassau Country club, P. H. B. Freylinghausen of the Morris County Golf club and Field, Jr., of the St. Andrew's club, William C. Carnegie of the St. Andrew's club, and the St. Andrew's club, G. Lockwood of the Alliston Golf club and L. Kellogg of the Deal Golf club, Howard W. Perrin of the Philadelphia Country club and Maturin Ballou of the Nassau Country club, John M. Sellers of the Glenview club and George T. Brokaw of the Deal Golf club. Walter E. Brown of the Essex Golf club and James M. Rhet of the Crescent Athletic club, R. M. Bokum, Jr., of the Glenview club, and John B. Hays of the Allegheny Country club, H. C. Whitney of the Nassau Country club, P. H. B. Freylinghausen of the Morris County Golf club and Field, Jr., of the St. Andrew's club, William C. Carnegie of the St. Andrew's club, and the St. Andrew's club, G. Lockwood of the Alliston Golf club and L. Kellogg of the Deal Golf club, Howard W. Perrin of the Philadelphia Country club and Maturin Ballou of the Nassau Country club.
