spite Advices Favoring Lower Values. CORN ADVANCES ON WESTERN FORECAST

Oats, Influenced by Other Grains and Small Receipts, Made Fair Advance, While Provisions

Show Stronger Tone.

CHICAGO, Sept. 4.-Wheat ruled dull and ensier, December closing ½c iower. Corn was strong early, closing at a gain of ½c, with osts firm at ½½½c advance. Pro-visions were strong, closing 2½µibc higher. Although advices generally were tavor-able to lower wheat values, a rush of shorts early in the session, incident to the three days adjournment of the board, caused a bullian tone and pushed prices up, December going from the op-ning. Eye to 85% to strong at the kl%c mark. Foreign advices, weak northwestern mar-kets-despite the fact that the weather map was not considered havorable- and free offerings from the southwest, however, caused an easier feeling thereafter and the pecember option sold down to Ni%c, when offerings from the southwest, however, massed an easier feeling thereafter and the December option sold down to Sige, when the tired longs let go their holdings to a considerable extent. The close showed a little better sentiment, although there was a net loss in December of %c at k%ec. Trade was only of fair volume and little nearest was manifest at the finish. Clear-ances of wheat and flour were equal to 87,000 bushels. Primary receipts were 17.-00 bushels, against 1.082.000 last year. Min-oeapoils and Duluth reported receipts of 197 cars, which with local receipts of 198 cars, and four were against 163 last week and 55s a year ago. The corn market was influenced alto-pether by the weather. Forecasts of frosts in the Mississippi valley tonight goad shorts easer ouyers at the opening and re-sulted in an advance of %6%c. There ap-peared to be plenty of corn for sale, how-sover, and the advance was lost. The local sentiment continued buillen throughout the sension and with no cessation of the short trop stories closing prices were firm, De-cember showing a net gain of %c at £%c. after ranging between b%c and 62c. Local receipts were 288 cars, with 23 of contract grade. There was a fair general trade in oats

here was a fair general trade in oats There was a fair general trade in oats and prices ruled firm at a fair advance. Commission houses were on both sides of the market, with local traders bullish and buying on the declines. Wheat and corn strength were the early influences for strength and smaller receipts with good cash demand held the advance. Decem-ber closed \$60% c higher at 37% 037% c, after ranging between 37% 037% and 37% c. Local receipts were % cars. Covering by local shorts on small re-ceipts and higher hog prices gave pro-visions a strong tone. Trade was of fair proportions, packers and commission houses doing the selling. October pork closed 150 higher at \$13.82%; lard 2% to 56 c higher at \$7.80 to \$7.82%; and ribs 20c higher at \$6.15.

at 38.15. Estimated receipts for tomorrow: Wheat, 115 cars; corn, 250 cars; oats, 210 cars; hogs, 20.000 head. There will be no session of the board of trade tomorrow or Monday.

but Cows and Feeders Stronger. HOGS ACTIVE AND MUCH HIGHER NEW YORK STOCKS AND BONDS. BUSINESS AT THE CLEARING HOUSES. Stock Market Dull, but Distinctly Moderate Run of Sheep and Lamba Transactions of the Associated Banks Strong, with Bonds Dull but Firm, NEW YORK. Sept. 4.—Today's stock mar-ket was again excessively dull, but dis-linctly strong. The three days which will intervene before trading will be resumed prompted the closing up of speculative ac-counts and the fact that tomorrow is also a holiday in London emphasized this dis-position. It is evident that the majority of outstanding accounts was on the short side. There was no other obvious reason for the strength of the market as the bulls were as unwilling to put out fresh commit-ments on the eve of the long holiday as were the bears. Atchison was the feature of the market both as to volume of deal-ings and width of movement, its extreme advance of 2% points easily distancing all other stocks. There were some very heavy bear accounts covered on the advance which helped the upward movement and gave ground for the supposition that they were the object of the movement. But the extent of the movement gave rise to some summises of an accumulation on a large scale possibly for purposes of control. Rock island interests were pointed to by the current rumors and there seemed to be an effort to convey the impression that Penn-sylvania and Harriman interests were op-posing or competing with the accumulation. The Atchison movement had some sym-During the Past Week. and All Desirable Grades of NEW YORK, Sept. 4.-Today's stock mar During the Past Week. 2.8 Cow stuff was in light supply this morning, while the demand was active, so that prices ruled a little stronger. All the buyers were out early and took everything as rapidly as offered. As compared with the sare prices of inst week the general market is antely 106 the higher.
3.6 Bulls, veal calves and stags sold readily at steady prices. Bulls are a little higher than they were a week ago, but calves have not shown much change.
4.7 In spite of the fact that the end of the week has arrived, speculators all seemed to be anxious for stock cattle this morning and paid afrong prices for the few that arrived. Yesterday they shipped out about any fity cars, so there will be very few carried over Sunday. As compared with a week ago, anything desirable is 10625 higher.
8. There were not enough western grass beef steers on sale this morning to make a market, but it would be safe to quot the market stacky. Range cows sold at stronger prices and the same was true of stockers and feeders. Representative sales:
54 Stockers and feeders. Representative sales of the sold.

they could not be queted much, if any, lower, they were certainly no higher. There was a brisk demand for good feed-ers and anything answering to that descrip-tion was safely steady. Common truck, however, was neglected and hard to move at any price. During the state of the truck of the state of the s Speculative Excesses Have Been Followed at any price.
