Market for All Grain Was Active at Somewhat Higher Prices.

WEATHER PREDICTIONS HAD EFFECT Provisions Were Exceedingly Active and There Were Advances in All Lines, with Considerable

Heavy Buying.

CHICAGO, Sept. 2.—Wheat after the first nour ruled very steady, the close being firm with December ½c higher. Corn opened easier, but developed strength, cowing ½c higher for December. Oats ruled steady throughout and closed with December ½c higher. Provisions were active and exceedingly strong, final figures showing gains of from 10 to 63½c.

Wheat showed but little activity at the opening, and while it sold higher, influenced by firm cables, it soon suffered a reaction on favorable advices, from abroad, and liberal receipts at primary points. December showed a gain of ½%c to \$4%c, at the start, at \$2c to \$1%c, but went to \$1%c under the pressure of local selling, with some help from St. Louis houses. Kansas City also offered wheat freely on the advance. Late advices of Russian shortage and consequent firmness in the Liverpool market, with a comparatively small increase in the world's visible supply brought strength to the late market and values advanced under good commission demand. The close was firm, with December ½c higher at \$2½\$81%c, after having sold ½c higher at supply showed an increase of \$69,000 bushels supply showed an increase of \$69,000 bushels, against \$0,000 bushels increase last week, and \$,813,000 bushels increase last week, and \$,813,000 bushels a year ago. Minneapolis and Duluth reported receipts of \$63 cars, against 225 last week and \$47 cars a year ago.

The failure of predicted frosts to occur

a total for the three points of 863 cars, against 225 last week and 547 cars a year ago.

The failure of predicted frosts to occur in the corn beit, together with easier cables, caused a weak start in corn, with local traders liberal seliers. Later in the session the uptura in wheat, with renewed predictions of frosts tonight and excessive rains, started prices upward, and the close was firm, with December at the top, 5c higher, at 515c, having sold up from 50%c. Local receipts were 780 cars, with 49 contract grade.

Oats were very steady, although responding to some degree to the early slump in other grains. A good demand for the May option from local bulls was a strengthening feature, although the action of wheat and corn was the governing influence. Commission houses were free buyers at times. Receipts continue light and grading poor. December closed 5c higher, at 375c, after ranging between 38%c and 375c, after ranging between 38%c and 375c. Local receipts were 252 cars.

The demand for provisions was exceedingly active and prices showed a good advance throughout the list. Shorts covered freely and heavy buying, credited to the packing interests, with liberal support from foreigners, and local traders, all operated to give strength to values. Investment buying in October pork at one time sent that product up nearly \$1.00 over yesterday's close, final sales being at an advance of \$25c at \$12.60. NEW YORK STOCKS AND BONDS. Market Was Very Dull and News Was

Not Encouraging.

New York, Sept. 9.—The stock market today was even dull and less interesting than at any time for the past fortnight, price movements were narrow and without meaning; in fact, the market, as a whole was devoid of special features, and operations almost wholly sprofessional. There was no pressure to sell nor was there a semblance of investment buying. Traders were "on the fence," committed to neither side, but rather hopeful of a rally. The news of the day was not of an encouraging character. haracter.
Aside from the increasing seriousness

Aside from the increasing seriousness of affairs in eastern Europe which brought about a further decline in British consuls, the decision of Umpire Wright favoring the hard coal operators and reports of a probable strike among the Colorado coal miners were quite sufficient to check any trading that might otherwise have devaloped. veloped.

The banks continue to lose currency to the interior. Several large shipments were made west and south today, indications pointing to a heavy week's movement, con-

made west and south today, indications pointing to a heavy week's movement, considerably in excess perhaps of that resported a week ago. The banks explain this movement as perfectly natural and likely to continue in large volume from now on. These shipments were partially offset, however, by the release at this center of \$1.862.000 on account of Australian gold deposited at San Francisco. This money was paid out at the subtreasury and was immediately added to local bank reserves. The rates for foreign exchange were practically unchanged from those of yesterday. The demand for remittance bills was small, and offerings were moderate.

The day's business was limited to the better known railway shares, and the tractions, the latter showing marked strength. The active issues were the Pacifics, Atchison, St. Paul, New York Central, Reading, Pennsylvania, Rock Island, Southern Railway, Erie and Amalgamated Copper. The coalers made no response to the decision already referred to. No news was heard to account for the bettered condition of the tractions. Metropolitan made an extreme advance of 2% points, Metropolitan securities, 2% points and Manhattan 1½ points. Brooklyn Transit recovered from its early heaviness. There was no market in the early afternoon, but the later hours showed that the market had been oversold and prices were bid up with some degree of success. This move seemed to be purely technical, however, although there was an indication in some quarters that offerings were being secretly absorbed. The closing was steady. The crop situation developed no new features, Railroad returns show increases in gross in 134 out of 180 roads, the average being 81.5 per cent.

The bond market was quiet and after serve heaviness railled slightly and closed

cent.

The bond market was quiet and after early heaviness, rallied slightly and closed irregular. Total sales, par value, 1928,000. United States bonds were unchanged on United States bonds were classed as a call.

REDUCES AMOUNT OF DAMAGES

Circuit Court of Appeals Lessens Judgment Against J. C. Root and S. G. Smythe,

By an order of the United States circult court of appeals in the case of Agnes Frizzell against Joseph C. Root and Samuels G. Smythe, a case in which \$14,000 damages were asked for defamation of character, the judgment of the lower court was reversed, and upon the petition of John C. Cowin and E. W. Simeral the amount of damages was reduced from \$14,000 to \$6,000 and costs. A motion for a new trial was overruled and exceptions were filed by the defendants. A further order of the court directed that the lower court ascertain, from the evidence presented, whether or not Cowin and Simeral had lawful authorty from the plaintiff to file a remittitur. This case grew out of an alleged libel against Agnes Frizzell, appearing in the organ of the Woodmen of the World, published by Root & Smythe, the item being copied from a Fort Smith (Ark.) paper.

City Treasurer Hennings has issued a call for \$15,000 worth of outstanding city war-rants, numbered inclusively as follows: Water rent, Nos. 7 to 8; judgment, Nos. 115 to 132; library, Nos. 529 to 633. They will not draw interest after September 11.

Gets Judgment for Rent.

Judgment in the sum of \$160.60 was granted the Bee Building company in its suit against the MacCarthy Tailoring company, in Justice King's court yesterday. Judgment was for one month's rent. Two suits for similar amounts are now pending between the same parties.

Notes from Army Headquarters. Leave of absence for one month has been granted First Lieutenant Adolph H. Huguet, Twenty-second infantry.
