Many Washington County Farmers. TO QUIET TITLE TO EXTENSIVE TRACTS

Complication Arises Over Claim that Former Owner of Land Was Insane When He Made Certain Transfers,

owners of farm property in Washington county are in a state of consternation over pertain suits which have been begun to in the end probably involve 3,200 acres of land in that county.

The cause of these actions is that one John Irwin, who died in 1883 at Nebraska City, is claimed to have been insane at the time of certain transfers made by him and the heirs now claim these lands under the statutes. As these transfers were made in 1865 and the lands have been sold and resold, many legal points arise and a large number of persons in the county are vitally interested. John Irwin at one time possessed about 60,000 acres of land in eastern Nebraska and western lows and suits have before this been decided practically in favor of the heirs in Clay county, Iowa, Barpy county, and in the United States court in Omaha.

It is not improbable that many more sections of land included in the former holdings of Irwin may be brought into litigation, and in many cases be taken from their present owners, because in suits already decided the plea of insanity has been established.

The facts as set forth which have led to brothers, John and Samuel Irwin, doing a former came to this state in 1856 or 1867. and college script issued by the "states" he acquired title to about 60,000 acres of nished money to purchase lands and in 1865 demanded a settlement and something of a quarrel ensued. This was settled by the transfer by John Irwin to the eastern brother of all the lands claimed in Washington county, about 3,200 acres.

Land Went to Settlers.

The lands, were at that time of little value and were afterward sold by Samuel Irwin to settlers. They have since then more or less indirectly come to their present owners, who in many cases know nothing of the original owner.

John Irwin made his home in Nebrasks City and lived there until his death in 1893. The proceedings are brought by his son Lemul B. Irwin, daughter, Eliza B. Hawley, and the heirs of a deceased daughter, some of these living in Nebraska City and others in Dakota.

Six suits to quiet title already have been filed, these affecting 900 acres, and another will be filed. Six other suits on trust deeds and mortgages are also being filed. Under the statute of limitation these suits must brought before October 10, which will be the tenth anniversary of the death of Irwin. The plaintiffs claim that the statute does not apply to Irwin before his death he being insane. Mrs. George Tilden and Mrs. Shinrock were elected at Thursday's meeting of the local Women's Christian Temperance union as its representatives at the state convention, to be held at Lexington, September 23-25. Among other business it was decided to extend, through the president of the state organization, an invitation to the National Women's Christian Temperance union to hold its annual meeting in Omaha in 1966. The industrial committee reported that it had been decided to drop the support of the mothers' meetings at the City mission this winter, but that the union quiet title and others to follow, which will should continue to contribute \$15 a month to the support of the industrial classes for children, and in addition support the classes in temperance. Miss Magee, who is in charge of the visiting work at the city jall, asked that she be given an assistant in that work, someone who could sing and

AFFAIRS AT SOUTH OMABA

Man Suspected of Being Culprit Who

Assaulted Girl is Arrested.

One Man Arrested Earlier in the Day but is Later Released as Not Being the Party Wanted for Crime.

CAUGHT ABOUT MIDNIGHT AT FORT CROOK

Crowds of incensed South Omahans are searching the country to the southwest of the city for a man who attempted to crim inally assault the H-year-old daughter of Policeman Ed Kroeger. The identity of the assailant is unknown and the little girl was able to give but an incomplete description. As he had several hours to get away his capture may be impossible, but threats are made of lynching if he is found.

The child was on her way to the Fields school yesterday morning and had reached Thirty-ninth and Z streets, a lonely spot in the extreme southwestern part of the city. A white man jumped out of the cornfield and made overtures of acquaintance with the little girl. He then made an inecent proposal to her and upon her refusal asked her to go with him into the field to refused, upon which her assailant seized her about the throat and attempted an

No Trace of Culprit.

"While the description of the assailant is very meagre, I feel confident that we will yet catch the man who attempted the criminal assault upon the Kroeger girl this morning. We have notified all surrounding towns and everywhere a strict watch is being maintained." Thus spoke Chief of Police Briggs last night when asked what progress had been made in the matter of the attempted assault upon the 11-year-old girl of Policeman Ed Kroeger.

The little girl seems to have regained her normal condition, and is able to talk intelligently of the affair, although her description of her assailant was far from satisfactory. "He came to me," she said, "and asked

me to go over to a tree and get some

canary birds, and when I went there he

told me to go with him. When I refused he dragged me into the cornfield, and when cried he choked me until it hurt." There was great excitement in the city vesterday, and should the guilty man have een apprehended it is felt grave results would have followed. Marly citizens left their work to join in the search. Chief of Police Briggs stated last evening that should the man be apprehended he would mmediately be taken to the county jail for safe keeping. Feeling still runs high

Word was received last night that the right man had been arrested at Papillion He was immediately brought to South Omaha, but as soon as he was taken before ated at once.

Talk of Smokestacks,

It is said that Councilman O'Conner will insist that his resolution of last Tuesday night calling upon the city attorney to draft an ordinance requiring the packing ouses to raise the height of their smoke stacks sufficiently to prevent smoke and soot from descending upon Q street inhabitants

The resolution offered Tuesday night did not state exactly how high these stacks should be, and for that reason, it is said, it was rejected. O'Conner is securing data, however, and by the time the council meets again he will have had all the necessary facts on hand which will enable him to state exactly how high the smoke stacks should be and what other precautions are necessary to prevent Q street from thus being filled with smoke. It is said that a majority of the council favors the passage of this ordinance.

Waiting for the Board.

The action of the Board of Education in letting plans and contracts for the erection of the proposed new high school is being anxiously awaited. The board will not meet again for ten days. No reason has been assigned for its failure to do this work at its last meeting. The report of Superintendent McLean to the effect that the schools were so poorly equipped for room to meet the great increase in the number of pupils has not had the effect of hastening the action of the board.

The fish in the great lakes are busy com ing home to the shallow waters after their summer spent in the cool depths of Michigan and Superior. And they are in great form. During the cold months they hang about in the shallow water and being weatherbound, put in their time feeding and getting wrongfully fat, but when the surface water gets uncomfortably warm in the early summer, away they go to the bottom where rich food is scarce and spend their time in the usual summer resort way and get into the very best condition. The fall fishing season is beginning and from now on until the lakes freeze over fish of almost every kind will be most plentiful Within ten days, unless there is a heavy storm to shake up the water and make the fish seasick so that they will hurry back to the quiet deeps, fishing will be at its very heighth. Prices which have been about stationary for a month will not unlikely drop a point or two on some varieties, but not a great deal as at this time the houses must stock up for the winter business, as snow-frozen fish caught through the ice, while fine to eat, are a precarious supply. The game fish, except the pickerel, do not go quite so far out of reach during the summer so it is now particularly the trout, pike and whitefish who are coming
