Omaha, Neb. Telephone 539.

The above automobile, the property of M. J. Patterson, was siden from the front of the Boston Building, Denver, Colorado, between 8 and 19 p. m., Tuesday, September 8th. The above reward will be paid for information leading to the return of the wagon and the conviction of the thief.

### DESCRIPTION

The wagon is unique and is easily recognized by the above picture. The body is painted a bright red color and highly polithed. It will be noticed from the picture that the seat is divided into two parts by an arm extending through the middle. Each seat is upholatered in bright red leather. It will also be noticed that the seats are set far back in the wagon, almost over the rear axie. This is very characteris-tic of this wagon. Back of the seat and immediately above the rear axie there is a small platform for carrying a basket or trunk. When the automobile was taken there was a large, square willow basket attached to this platform. This, however, could be removed. The wagon is made by the Franklin Manufacturing Co. whose small brass

there was a large, square willow basket attached to this platform. This, however, could be removed. The wagon is made by the Franklin Manufacturing Co., whose small brass name plate will be found acrewed to the rear of the wagon. The number of the wagon, the stamped on the name plate. The engine under the hood is four cylinders air cooled. The iron hood covering the engine at the front end of the wagon is hinged to the body at the front end, an improvement put on by the owner. These hinges could be casily removed, however. The wagon passed through Akron, Colo., at 8 a. m., Sept. 10th, headed north-east. The thief will probably go east through metracks, but may double, as he is being hunted cosely. Thief is dearribed as being medium height with dark mous-tache, but no beard. Probably wears slouch hat, but one report says cap. Is re-ported to have a dress suft case or something similar. Anyone seeing a car of this description is requested to wire at once at expense of the M. J. Petterson Contract-ing Co., 505-7, Colo. Build. Denver, Colo. 100-00 reward for congistion of this
