Make Sensational Statements and Some Openly Declare War with Bulgaria is Necessary.

SOFIA, Bulgaria, Sept. 15.-Following are some of the points in the note which Buigaria has just presented to the powers:

That what the Bulgarian government had oresech, as expressed in its note of June 5 of the development of affairs in Turkey, has become amply verified. The Turkish covernment is systematically annihilating

t at an opportune moment she will be
acked by Turkey.

The Buigarian severament can no longer tracked by Turkey.

The Bulgarian government can no longer emath indifferent to the presence of such a stuation, which is of a nature calculated o bring about a hostile collision between furkey and Bulgaria.

Turkey and Bulgaria.

If the great powers do not take measures to give the sublime porte counsels of wisdom and af moderation the Bulgarian government will be obliged to take the necessary steps to be ready for every eventuality and to not be taken by surprise. Reasons for Note.

Premier Petroff was interviewed today by the correspondent of the Associated Press on the reasons which induced the Bulgarian supports the Canadian contention. government to issue yesterday's note to the powers. He said:

It has been from the first piainly evident that the policy of Turkey was to kinder the development of the Bulgarian race in Macedonia, which was the strongest national element there. With this end in view the Turks proceeded to devastate the country and kill the Bulgarian Christians and by driving the survivors into the mountains and locality the survivors in the Bulgarian frontier and become a burden to the Bulgarian frontier and become a burden to the Bulgarian pation.

garian nation.

In the meanwhile the powers paid not the silantest attention to the Bulgarian note of June 25, but rather encouraged the Turks, who adopted the most severe measures to suppress the outbreaks. The Bulgarian government is competied not only to protect Bulgaria twelf but also the Bulgarian element in Macedonia. It is further evident that Turkey has directly encouraged the revolution, as with ten times as many guards on the frontier as Bulgaria employed, the Turks never stopped a single revolutionary band, nor an individual crossing the frontier.

Evidence of Turkey's Position.

The porte was only too anxious to have a pretext for continuing the massacres and the extermination of the Bulgarian people. Turkey has now concentrated 20,000 for cops in Massaconia, only about 25,000 of whom are engaged in the suppression of the revolt. There is no attempt to fight the insurgents, but the troops attack innocent women and children. The Bulgarian govwomen and children. The Bulgarian government is forced to perceive in this exercised to perceive in this exercised to mobilisation a clear sign of Turkey's desire after it has succeeded in suppressing the outbreak in Macedonia to attack Bulgaria and exterminate the Bulgarian race. All our latest information from Macedonia and Constantinople confirms this view.

Hilmi Pasha the vall of Salonica, has openly declared that war with Bulgaria is the only way of settling the Macedonian question. The Constantinople press, which is under the most severe censorship, was

question. The Constantinople press, which is under the most severe censorship, was recently allowed to publish the most sensational reports, with the object of increasing the Mussulmans' fanatic haired of the Bulgarian Christians.

## Depredations by Troops.

Testerday came a telegram from Burgas saying that a company of Turkish troops, while passing near a frontier post, was saluted by the Ruigarian guard, but the Turkish officer did not acknowledge the salute, turned his back, and afterward remarked to the Bulgarian officer in command of the post: "When we have finished here we will come and see you."

Reports have also been received of Turkish troops crossing the Bulgarian frontier, carrying off sheep and committing other depredations. depredations.
Confronted by such conditions, Bulgaria was forced to the conviction that Turkey intends to stack it; the Sofia government has taken this last step of expecting the powers to intervene. Otherwise Bulgaria must take measures for its own protection.

the attorney general's address with the closest attention. While Attorney General Finley was speaking Chief Justice Puller, accompanied by Ambassador Choate, entered the chamber. They were conducted to a table directly facing the commissioners. The attorney general urged the commissioners to strictly confine themselves, in considering the question, to the terms of the treaty between Great Britain and Russia of 1825,

and not to depart therefrom. The interest of the commissioners grew as Attorney General Finley continued his an-

lytical study of the treaty. Speaking of the location of the line along the coast from the head of Portland channel, as fixed by the treaty, the attorney general pointed out that the report of the 'nited States coast survey in 1893 showed that the Washington government had adopted the view that the line should follow the "general trend of the coast." which

Senator Turner at this point interrupted the speaker, saying that the report referred to the trend of the general coast. Attorney General Finley remarked that this was a "subtle distinction," and Chief Justice Alversione ended the discussion) with saying that it made little difference, as it was "merely the direction of the sur-

veys." Lord Alversione's ruling was registered by American counsel as being a point in favor of the United States.

The attorney general went on at such length that Lord Alverstone reminded him that the tribunal was familiar with the documents in the case and suggested that he simply cite the parties and volumes in which references were found.

After luncheon Attorney General Finley, who had previously laid much stress on the contention that the United States boundary line was drawn "in ostentations definance of the treaty of 1835," resumed. his argument.

Time to Do Something. At both the morning and afternoon sessions the building was packed with interested delegates and the keynote of the present congress, as expressed both by Governor Wells of Utah in his speech of welcome, and President W. A. Clark in his response, that "The Time Has Come to De Things" was heartily cheered. Important results, beneficial to the cause of irrigation, are confidently unticipated by both delegates and officials from the presmeeting last evening to consider the picnic ent congress, and the first resolution, inquestion. for the re-election of President W. A. Clark and other officers. President Clark this afternoon caused considerable unholy joy by declaring his intention of limiting the speeches to ten minutes if possible, the great number scheduled and the amount of work to be accomplished rendering some action of this

kind absolutely necessary. A trained chorus of 200 voices then sang the national irrigation ode, written by Mrs. Gilbert McClurg of Colorado Springs. The case was brought to test the legality the future than there ever was. True, you have the money appropriated by the government, but it will be the privilege and the duty of this congress to see that this money is properly used and not meapplied or wasted. You have greater work before you at this session than at any live of the party of the p money is properly used and not mesaptied or wasted. You have greater work before you at this session than at any time durin the eleven years history of the Irrigation comeress. You must be able to provide a plan for the expenditure of the millions of dollars set aside for our cause which will meet the approval of the accreary of the interior and the national congress. It will be your privilege to adopt a system for the sale of the reclaimed lands that will meet with the approval of the American peoplega system that will be a blessing to the genuine settlers. It must be as meritorious, if not excel the famous homestend law signed by that greatest of modern Americans. Abreham Lincoln.

As your host for the next four days, I extend to you every hospitality the city affords. I welcome you on behalf of the wood men and women of Ogden and extend to you every courtesy and our hospitality. Accept it, partake of it, and be one of us while you are here.

Response of President Clark. President Clark then responded on behalf

of the National Irrigation congress, saying had moderated it was found that the hons were still imprisoned in their overturned cages and that no persons had suffered serious injury in the panic.
