## ROOTED IN THE BLOOD.

After the age of 45 or 50 when the vital powers are naturally weaker it is noticed that a hurt of any kind heals slowly and often a very insignificant scratch or bruise becomes

G

scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pim-ples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating, sloughing ulcers. Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has

been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep

the surface clean they are not healing. A blood medicine to purify and strengthen the polluted blood Q SSSS is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. If you have an old sore or ulcer, write us all about it and medical advice or any information you may desire will be given by our physicians without charge.
