PROVEN BY U. S. MINT RECEIFTS that this company produced over 50,00) gold bullion from one year's development work on one claim. It paid over \$23,000 in dividends last year. The Nevada Keystone Mining Co. owas seven additional claims and it is for the purpose of pushing development work on these that a limited amount of stock is offered for site. Such development work as has been done on the seven claims has demonstrated that they are richer than the developed claim, the "Keystone," which gives the name to the whole group. Ten per cent per annum in dividends on your investment is certain because of the earning power of the developed mine, with a magnificent opportunity of increasing the value of your holdings by the development of the seven additional claims. The company courts the closest investigation of both large and small capital. Dun and Bradstreet mercantile agencies have inof both large and small capital. Dun and Bradstreet mercantile agencies have intelligent reports on the company. Highest bank references. We recommend this as a rare opportunity for a safe and remunerative investment.
